(Copyright, 1921, by Public Ledger.)  
New York, Jan. 27.—The American Woolen Co., in order to stimulate trading, has reduced their men's wear fabrics 25 to 33 1/3 per cent. The lower prices are expected to restore buying. Heavyweight fabrics will be shown next month or in March on a basis of the new selling prices for spot delivery.

The new price for No. 312, which is a staple fabric and known by this number by all cutters-up and jobbers, is obtainable at \$2.37 1/2 a yard, as against the former price of \$3.62 1/2.

## V.O.N. and Travellers' Aid Ask Grants

Strong Appeals Made to Council Not to Retrench in Sums Given These Bodies.

Two delegations appeared before the city council yesterday morning, one on behalf of the V.O.N. and the other on behalf of the Travellers' Aid.

The Rev. R. A. Armstrong asked the council, in their policy of retrenchment, to consider the curtailment of any grant to the V.O.N. and the Travellers' Aid. He stated that the V.O.N. was the ounce of prevention in regard to health matters that was always better than a pound of cure. They were all the time visiting the homes of the class which could not afford the services of the physician and any money granted to them he considered well spent. Senator Thorne also expressed his support of the appeal of the V.O.N. and the Travellers' Aid.

Want Grant of \$1,000.

Mrs. R. A. Jamieson, Mrs. John McAvity and Mrs. Alfred Morrissey appeared on behalf of the Travellers' Aid and asked for a grant of \$1,000 for that work.

Mrs. Jamieson gave a review of the work done during the past year, when 3,542 trains and 370 boats were met; 967 persons helped at the depot; 1,395 brought to the transient home; 237 taken to hotels; 41 to their friends; 89 to boats; employment found for 74; sent for visitors 57 letters and 325 telegrams. The expenditures included \$12 a week for one worker and \$10 for the other; \$55 per month for the matron and \$40 per month for rent beside coal and other incidentals. The revenue was about \$1,000 from persons using the transient home and the balance some \$2,000 had to be secured by private subscription. If the grant were given they would still have to scrimp from the people \$1,000. They were assured the application would be given consideration.

### LOST—INDIAN TRIBE; FINDER NOTIFY U. S.

Washington, Jan. 24.—Has anybody seen anything lately of the Montezuma Indians?

At last accounts they were living on Long Island, but they seem to have drifted away and now the Government is asked to pick up the trail.

Chairman Snyder of the House Indian Committee introduced a resolution today to direct the Secretary of the Interior to investigate and report.

## IT LIVED UP TO ITS REPUTATION, SHE SAYS

Good Things She Heard of  
Tanlac Verified by Her Own  
Experience, Declares Dartmouth Resident.

"I have heard a great many good things about Tanlac, and it has certainly lived up to its reputation in my case," said Mrs. Susan Conrod, Hawthorne street, Dartmouth, N. S. "I am a strong believer in Tanlac."

continued Mrs. Conrod, "and I have a right to be, for it has certainly done me a world of good. For two years I was in a weak, nervous, run-down condition. My food seemed to do me more harm than good. I suffered a great deal from constipation and from

spells of dizziness, and was terribly nervous. I was never sick enough to take to my bed but just felt bad, out of sorts, dull and languid all the time. "But since I have taken Tanlac my whole system has felt the good effects of the medicine. I feel well and happy, and in fine spirits all the time. For my digestion seems to be perfect, and I am free from constipation, dizziness, nervousness, and in fact my ailments have all left me. Tanlac has enabled me to enjoy life and good health once more, and my gratitude is unbounded."

Tanlac is sold in St. John by Ross Drug Co., 25, W. Munro and by R. D. Wetmore, Perry's Point, N. B., under the personal direction of a special Tanlac representative.—Adv.

## Leo Walsh Charged With An Assault

Choked Henry Melanson and  
Threatened Daughter With  
a Knife—Was Remanded.

The case of Leo Walsh, charged with the assault on Henry Melanson, was taken up in the police court yesterday afternoon. The complainant stated that the accused came to his home, 279 Chesley street, Tuesday afternoon, under the influence of liquor and asked him to take a drink from a bottle he had. The witness refused, whereupon the accused said "I am sure at you," grappled and began to choke him. His daughter interfered and together they put Walsh out of the house and locked the door. In consequence of information received from his daughter, who had become alarmed at the threats of the accused, witness had the man arrested and wished to have him bound over to keep the peace.

Made Threats.

Josephine Melanson, the only other witness called, corroborated her father's evidence. She stated further that after Walsh had been put out of the house he came to the window. He had a knife in his hand, and threatened to cut her throat. When he went back on the street, Maudie Kierstead took the knife from him.

The witness said she was always afraid of the prisoner when he was drunk. He had come to their house before while under the influence of drink, and always made for her father whom he tried to choke.

While relating how she and her father put the drunken man out of the house, the witness said a bottle dropped from his pocket while going out the door and rolled outside.

The Kind of Bottle.

Magistrate Ritchie—"A bottle, eh? What kind of a bottle, was it one like this?" His Honor reached down beside his desk and lifted up a very business like looking square face.

The witness—"Yes, it was one like that."

His Honor—"Of course it was one like that. This is the place to find them. We have a collection here gathered up all the ways from Brussels to Chesley street."

Who else? If he had anything to say, the defendant pleaded not guilty. The magistrate informed him that he was liable to a fine of \$200 for having liquor in his possession, liable for assaulting the complainant, and liable for threatening the daughter.

The prisoner was remanded until he can secure two sureties, when he will be bound over to keep the peace. Two drunks were before the court in the morning, they were both remanded.

Some evidence was taken in the disorderly house case. Postponed.

### WAR SECRET OUT

The German Intelligence Department were mystified as to how the Allies were able to transport hundreds of thousands of HORSES and MULES from America to the war zone with practically no loss, even during the stormy winter months. It was noticed that lump of ENGLISH ROCK SALT was placed in the feeding trough at the head of each animal and the information is now forthcoming that this salt mined in its natural state kept the horses in the best of health notwithstanding the hardships which they were subjected to.

## Mayor Arranges To Assist Families

Two Depots for Distribution  
of Nourishing Stews to  
Families Needing Assistance

His Worship, Mayor Schofield, has arranged for the daily distribution during the next few days of hot stew among families of the city whose children are likely to be suffering from great conditions. A committee of ladies are supervising the undertaking and securing of supplies, and everything to be offered will be of the best, so that it will be both nourishing and attractive.

Two Depots.

Distribution will take place in two depots; one kindly provided by H. A. Kimball, 67 Brin street, with Miss K. Bell and Mrs. Mary Armstrong in charge, and assisted by members of the V.A.D. The other will be in the Orange Hall, Simond street, due to the kindness of O. E. Dymally, where the Kindergarten teachers and mothers will direct the distribution.

Any citizen wishing to join in this work may do so by buying tickets at the City Hall or either of the depots during the hours of distribution to give to needy families known to them personally whose children would benefit. Families in the districts about the depots wishing to have these benefits for their children may also buy tickets at the depots between twelve and one o'clock every day from the ladies in charge. Tickets may be had at the rate of twelve cents per quart, which price has been made possible through the generous assistance received and merely covers the cost. Kind assistance towards this undertaking has already been given by several of the butchers, and John Bond, with his usual interest in such affairs, offers a generous contribution.

### FRESHMAN CLASS NOT TO SHAVE FOR WEEK

Easton, Pa., Jan. 27.—Following an old college custom the members of the Lafayette College freshman class today began a shaveless week.

It is a custom not to shave during the week of mid-year examinations, because to shave will bring bad luck. If, however, a freshman does fail in an examination he may shave the following day.

## Be Suspicious of Tender Gums

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system.

Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

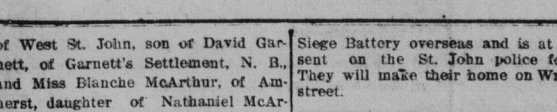

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.
