ody is not sick or has fallen a victim. The money generously sent from all quarters is being judicionsly used to aid the sick and destitute and bury the dead. Often it happens that parents abandon their sick children, and children made before the City Police Magistrate, and the Captain will be arrested.

The Polaris investigation.

A Washington despatch says there is apparently a good deal of ill feeling among mimbers of the Polaris party now here against the Tyson party. They seem to consider the reported polsoning of Capt. Hall as charges specifically made by the Tyson party, and they are much disturbed by the idea Tyson advanced that the separation from the party on the ice foe was intentional. It seems, however, that the feeling sprang up since the Buddington people were rescued and learned the statement made, and not to have existed before the unfortunate separation from the vessel. There seems to have been much personal hostility among the more prominent men of the expedition, but no division of the crew into parties under different leaders. The examination of Buddington will probably be concluded Saturday. The testimony of Dr. Bessel will be important, it relating principally to the scientific results of the expedition.

The Captain got wind of the warrant being issued and this morning he and J. G. Forbes, Esq., appeared at the Portland Police Court. Mr. Kerr wassent for, and refused to prosecute in that court and the case was dismissed. The Captain was delighted and so was Mr. Forbes. A TRIBUNE reporter met the latter as he was leaving the court-room. His face was verathed with smiles, and his eyes sparkled and danced with delight.

"Was your captain arrested?" was asked him. "Yes," said the learned counsel, "and discharged; no one would prosecute." "But he will be brought up in the City Court." "Not much," replied Mr. Forbes; "he can't be fined there for an assault committed in Portland. I guess I have fooled Jack this time."

MONTREAL, Oct. 11.

The Canada Pacific Railway Company, through its president, Sir Hugh Allan, have resigned into the hands of the Government their contract for the execution of the work.

The Superior Court is engaged in testing the legality of the action of the Examining Board in refusing to grant the certificate of competency, as flour inspector, to any other candidate besides Hon. Sir John Young.

It turns out by evidence that Hutchinson, Young's late deputy, who brings the action, passed a better examination than Young himself. The trial creates much interest.

10 TUBS BUTTER : 5 bbls. OYSTER3: FOR PURIFYING THE BLOOD, nothing has ever been offered which can compare with this Expract of SARBARRILA. It is found a great promoter of health, when taken in the spring, to expel the humors that rankle in the system at this season of the year. Many complaints have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid stores through which the system strives to rid stores through which the system strives to rid stores through which the system strives to rid stored the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you flud its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find its obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, tor cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordared, there can be no lasting health. Prer ared by DR. J. C. AYER & CO.
