J. B. DUTTON'S

Patent Automatic Grain, Flour and Feed Scale.

Accurate and Reliable at all times. Will guarantee them to weigh as accurate as a Fairbanks or Howe Scale. Machines sent on 30 days' trial, subject to above guarantee. We make Scales ranging in capacity from 50 to 10,000 bushels per hour. Please send for circular and price list.

J. B. DUTTON, - Detroit, Mich.

J. B. DUTTON, City.

DETROIT, MICH., Dec. 16, 1887.

DEAR SIR,—After a thorough test of your Automatic Scale placed in our Malt House on Oct. 16, 1887, we can say that it is a perfect success in weighing and registering grain. We weigh both Barley and Malt alternately. Malt being such a very difficult product to weigh through an automatic scale owing to many roots, we had doubts of the scale handling it successfully, but are pleased to state that it gives us first-class service in every respect, so much so, that we have discarded a Fairbank's Hopper Scale and use the Automatic in preference.

Yours very truly,

THE HOWARD & NORTHWOOD MALTING CO.

(Signed) Per Wm. Northwood, Sec.

IMPORTANT TO STEAM USERS.

THE PREVENTION OF BOILER EXPLOSIONS

AND OTHER ACCIDENTS TO STEAM BOILERS.

When were your Boilers last inspected? Are they in safe working order? Are they giving the greatest power at the least cost?
