

DE LAVAL

Stands for everything that is of any real value in a Cream Separator, for back of the name is an unapproachable reputation extending over a period of nearly a quarter century and a guarantee that the **DE LAVAL** is the **BEST** in every particular, or is safe.

For proof of this write us or our agents.

THE DE LAVAL SEPARATOR CO.
77 York St., Toronto.

The Mealy Wheat

They have a new wheat in Michigan, which is called the mealy wheat. It is a bald, red or amber wheat, with small grain, but is said to weigh heavy. The grain shows a large percentage of gluten, which is heavier than starch. The straw is strong and the wheat should be hardy. The heads are compact and average from 4 to 4½ inches in length.

BLACKLEGOIDS

BEST PREVENTIVE OF BLACKLEG.

Blacklegoids afford the latest and best method of vaccination against blackleg—simplest, safest, surest. They are always ready for use; no filtering, measuring or mixing is necessary. Accuracy of dosage is always assured, because each **Blacklegoid** (or pill) is exactly sufficient for one inoculation.

Administration with our **Blacklegoid Injector** is easy. The operation need not consume one minute. **Blacklegoids** are sold by druggists; ask for them.

Our newly printed eight-page folder on the "Cause and Nature of Blackleg" is of interest to all concerned. Write for it, 10¢ in advance.

PARKE, DAVIS & CO., WALKERVILLE, ONT.
Eastern Depot: 275 St. Paul St., MONTREAL, QUE.

The discomfort of saw-edged linen is almost equal to the drudgery of the method that causes it.

Celluloid Starch does not fray your linen because it thoroughly penetrates the fabric and produces sufficient stiffness without the wear of the rubbing required by common, cooked starch.

Your grocer has it—or can get it.

Celluloid Starch

Never Sticks Requires no Cooking.
