

Floors for Farm Houses

For years, that is no reason why the modern conveniences. Carpets were of covering softwood floors, but they are the simple, bright Hardwood Floors, the old house as easily as in the new with a hammer can lay them.

Maple, Birch or Oak Floors during the winter the house bright and cheery before further house cleaning time—a clean and.

Get all laid and finished in any farm in Canada. May we prove it?

Farmer's Advocate

Market the Milk
Raise your calves and get the bigger money to which you are entitled. But do not feed the calf whole milk with butter fat worth \$600 a ton.

RAISE YOUR CALVES WITH BLATCHFORD'S CALF MEAL

Blatchford's Calf Meal
The Recognized Milk Equal
You get 100 gallons of rich milk feed from 100 pounds of Blatchford's Calf Meal, and it costs you only one-fourth as much. It will make your calf grow fast and well. Blatchford's Calf Meal is composed of the elements the young calf needs in the most trying period of its life; is thoroughly steam cooked—prevents bowel troubles and other ills due to improper milk substitutes.

Blatchford's Pig Feed insures quick, sturdy growth of young pigs at weaning time, without setback or falling off.

Write us for our Free Book on "How to Raise Calves Cheaply and Successfully Without Milk."

Seale, Briggs Seed Co., Toronto, Ont.
L. C. Beard, Hesperous, Ont., writes: "I can say Blatchford's Calf Meal will pay anyone 100 per cent. for calves to raise."

JOHN WEIR & SON, R. R. No. 1, Paris, Ont.

District Representatives' Work.

Among the activities promoted and encouraged by The Agricultural Instruction Act, now in its third year of operation, having come into force in June, 1913, as detailed in the report recently presented by the Commissioner of Agriculture, and which can be had on application to the Publications Branch, Ottawa, there is none that exceeds in influence and usefulness the work done by the District Representatives. Their duties are manifold and unceasing, but their helpfulness in the agricultural industry is abundantly testified to in every district where they have been appointed, and there are now 45 of them in Ontario alone. It is theirs not only to be ever ready with counsel and advice on farming subjects, but also to manifest a live and active interest in every undertaking having for its object the better cultivation of the land, the increase of productiveness, the development of the live-stock industry, the improvement and extension of educational facilities, the social uplift of the people, and the welfare of the agricultural community in general. In short, their usefulness can hardly be over-estimated, and towards their support the funds forthcoming from the ten-million dollar grant provided to be distributed among the Provinces during a term of ten years, under The Agricultural Instruction Act, are largely devoted. All this is fully detailed in the Report of the Commissioner previously referred to, and which affords instructive reading. Taking the Provinces separately, we find that the amounts directly utilized for this purpose in 1914 were:

Prince Edward Island.....	\$ 4,000
Quebec	10,000
Ontario	80,000

In most of the other Provinces the system has not yet been organized under the title of District Representatives, but in all of them the funds allotted find a somewhat similar disposition in furnishing means for the promotion of demonstration work. In Nova Scotia, \$4,200 was so employed in 1914, and in New Brunswick \$14,200, under the title of travelling instructors. In Manitoba, upwards of \$30,000 of the grant of \$51,720 was disposed of by means of demonstrations. In Saskatchewan \$27,148, and in Alberta \$14,594, practically went the same way. In British Columbia, \$27,500 was devoted to demonstration work. In Prince Edward Island, Quebec and Ontario, besides the amounts mentioned as directly used in the maintenance of the District Representative system, substantial sums were also supplied to demonstration purposes.

Gossip.

J. B. HOGATE'S PERCHERONS.
Purchasable imported Percheron stallions will soon be scarce in this country. In view of conditions in France, no argument should be needed to convince parties wanting to buy a Percheron stallion or mare, that now is the time to buy. J. B. Hogate, of Weston, Ont., has on hand the biggest selection of stallions in Ontario, or probably in Canada. They were imported two years ago, and are therefore thoroughly acclimatized and in the pink of condition. All told, there are ten stallions; one seven years old; four six years old; two five years old; one four years old, and one two years old. The latter is a Canadian-bred. They are blacks and grays, and all of them except the two-year-old a ton and over in weight. Several of them are winners at Toronto, Ottawa and Guelph. In mares, there are only two left, the black four-year-old, Lacune, winner of championship honors at Guelph for two years, and the gray three-year-old, Toronto first-prize winner. A visit to Mr. Hogate's stables at Weston will convince intending purchasers that the quality of Percherons he is offering is up to a standard hard to duplicate.

On Its Way.—"Why do you think you will have any trouble in keeping the engagement secret?"
"I had to tell the girl, didn't I?"—Puck.

PEERLESS PERFECTION

FENCE

Does all you could wish for a poultry fence and more. Built close enough to keep chickens in and strong enough to keep cattle out. Even small chicks cannot get between the close mesh of lateral and vertical wires. The heavy, hard steel top and bottom wires together with intermediate laterals, will take care of a carelessly backed wagon, or an unruly animal and spring back into shape immediately. The wires are securely held together at every intersection by the Peerless Lock. This is not a notting but a real fence—built in line with our usual good standard of excellence.

Peerless Perfection Field Fence
Is Strong—Yet Springs as a Bed Spring.
Animals can't break through it no matter how hard their attacks. It simply can't be broken. Just springs back in shape like a bed spring. It's made of heavy Open Hearth steel galvanized wire with all the impurities taken out and all the strength and toughness left in. Will not corrode or rust. Top and bottom wires are extra heavy. Will not sag. Requires less posts than ordinary fence. Absolutely guaranteed.

Peerless Ornamental Fencing
accomplishes two great purposes. It beautifies your premises by giving them that symmetrical, pleasing, orderly appearance, and it protects them by furnishing rigid, effective resistance against marauding animals, etc. We make gates to match, that are equally attractive.

The Fence that Saves Expense
It never needs repairs. It is the cheapest fence to erect, because, owing to its exceptionally heavy top and bottom wires, but half the usual amount of lumber and posts are required.

Send for Literature
and address of nearest agent. We also make a complete line of farm and ornamental fencing. Agents wanted in unassigned territory.
