OUR TWO SPECIALTIES THIS SEASON:

### Daubeny Oats

The chief value of Daubeny oats is their extreme earliness. For mixing with all the varieties of barley that ripen about together, the Daubeny oat is unrivalled. Sown with Mandschouri barley, the yield per acre of the mixed grain for feed is the heaviest on record. They are also themselves a heavy yielder. One of our growers has a crop of 1,800 bushels of cleaned oats off 21 acres.

Prof. Zavitz, of the O. A. C., Guelph, reports on the Daubeny oats as follows:

"We have grown the Daubeny oats for a number of years, and find this variety to be one of the very earliest. It is one of the best yielders of the very early varieties of oats. It has a medium length of straw, a spreading head, and a white grain. The oats have an exceedingly thin hull, and, although they are not as attractive in appearance as some other varieties, they are of good quality. The Daubeny variety of oats is one of the best which we have tested for the purpose of sowing with Common, Mandschouri or other varieties of barley which ripen about the same time as these varieties ripen. Such a mixture usually yields well and ripens uniformly."

### Carter's Black Japan Barley

An Entirely New Grain

This is not the ordinary Black Hulless barley. It is a six-rowed variety, bearded like the Mandschouri barley, but it is black. Those who have examined this barley in the straw are loud in their praises, pronouncing it the finest appearing barley they have ever seen. It has a very stiff straw, and stands up well. Head is long and heavy; grain large and plump, but thin in the hull. Is full of fresh new vigor, and is the hardiest and healthiest variety known. It is well adapted for rich land. The stock now offered was grown on a clay loam in this locality. We are the only seed-house in Canada having this barley for sale, and every farmer should sow a plot to get into the seed of it.

Price to one and all as long as our stock holds out: 1 lb. 25c., 3 lbs. 70c., 5 lbs. \$1.00, postpaid to any address in Canada. Prices by the bushel on application.

## DeLAVAL CREAM SEPARATORS

A Common  
Sensible  
Investment

Albana, Ont., Feb. 14th

The DeLaval Separator Co., Toronto, Ont.

Dear Sirs: The Baby No. 1 DeLaval Cream Separator which I purchased from your Agent, Mr. Wm. Dixon, a year last October, has given great satisfaction in every way, and having kept an accurate account of the butter made from my six cows, both with and without a Separator, can give the results. In 1901 we made 746 lbs. of butter without a Separator, and in 1902, from the same cows, 1,201 lbs. were made.

Yours truly,  
E. L. HOLT

## SPRAMOTOR

Nine-tenths of the labor can be saved where much whitewashing or painting is necessary. We want you to know why Spramotors will save your fruit while ordinary sprayers fail. The buying of a Sprayer is the matter of a moment, yet a mistake is a costly experience. It means the loss of your labor and chemical, and affects your profits. We want you to know why the Spramotor was awarded First Place in the Spraying Contest, and the Gold Medal at the Pan American Exposition. We want you to know why Sprayers should be made of good brass. We want you to know why Spramotors have more points of excellence than all others combined. We want to supply you with the facts, and help you to avoid mistakes. Will you let us try? Send for our Treatise, "A Gold Mine on Your Farm," on the diseases of fruit trees and their remedies. It's Free.
