

Was Troubled With Dyspepsia.

For Years Could Get No Relief
Until She Tried

Burdock Blood Bitters.

Can Eat
Anything
Now.

Mrs. Herman Dickenson, Benton, N.B., writes: "I have used Burdock Blood Bitters and find that few medicines can give such relief in dyspepsia and stomach troubles. I was troubled for a number of years with dyspepsia and could get no relief until I tried Burdock Blood Bitters. I took three bottles and became cured and I can now eat anything without it hurting me. I will highly recommend it to all who are troubled with stomach trouble."

Burdock Blood Bitters has an established reputation, extending over 34 years, as a specific for Dyspepsia in all its forms, and all diseases arising from this cause.

For sale by all dealers.

Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Ring-Bone

There is no case so old or bad that we will not guarantee

Fleming's Spavin and Ringbone Paste

to remove the lameness and make the horse go sound. Money refunded if it ever fails. Easy to use and one to three 45-minute applications cure. Works just as well on Sidebone and Bone Spavin. Before ordering or buying any kind of a remedy for any kind of a blemish, write for a free copy of

"SAVE THE HORSE" SPAVIN CURE.

REG. TRADE MARK

The most perfect and superior remedy or method known, with greater power to penetrate, absorb and cure than anything discovered in veterinary medical science or practice. Besides being the most humane, "Save-the-Horse" is the most unfailing of all known methods. It is effective without fevering up the leg, making a blister, or leaving a particle of after effect.

Armstrong, Mo.—Enclosed \$5. Please send me bottle of "Save-the-Horse" I used your medicine on three different cases with the results hoped for. I gladly recommend it. Ship at once and oblige. Yours truly, GEORGE W. LENOIR, Route 2.

Atlin, B. C.—Last year, with one-half bottle only of "Save-the-Horse" Spavin Cure, a customer of mine treated a sprained tendon of four years' standing—the horse had practically become useless. Many other remedies had been applied without results. "Save-the-Horse" effected a complete cure.

Yours truly, C. R. BOLKNE, Drugs and Stationery.

Before After
\$5.00
A bottle, with signed guarantee or contract. Send for copy, booklet and letters from business men and trainers on every kind of case. CLYDES—2 four-year registered stallions, one imported. AYRSHIRES—3 very choice bull calves, all registered. All good colors, and from good milking dams. Prices right.

R. T. BROWNLEE, HEMMINGFORD, QUE.

QUESTIONS AND ANSWERS. Miscellaneous.

TENANT CUTTING WOOD.

A rents a farm from B for three or five years. B reserves the right to sell, A to give up possession should B sell. A has wood cut for the following winter. Can A move the wood, or is he entitled to payment for cutting it?
Ontario.

Ans.—We think that A is not legally entitled to move the wood from the farm, but that he should receive compensation for his labor in cutting it.

BUTTERMILK TOO RICH.

Would like to know the reason why buttermilk is just like cream. The cream was sour, and was at a temperature of 65 degrees. The churn was three-fourths full, and was churned in forty-five minutes. I don't believe it is on account of churn being too full, as the same occurred when churn was not so full.

MRS. W. E. K.

Ans.—If cream was rich, the temperature was too high, the churn was much too full, and possibly fresh cream had been added shortly before churning. Try churning at a temperature of 60 degrees or less, with the churn not more than half full, and with the cream rich and well-stirred together and evenly ripened, no sweet cream being mixed in for at least 12 hours previous to churning, and better results will likely be secured.

SPAVIN.

I have a one-year-old light colt which has been lame on one hind leg. A small jack spavin has just appeared. The same hock is boggy.

1. Will a heavy blistering cure jack or bone spavin?
2. What kind of blister would you recommend, or would you prefer to have it fired at once?
3. Also, would you blister to remove bog?

A SUBSCRIBER.

Ans.—1. In young animals, blistering will often cure lameness resulting from both bone and bog spavins.

2. It would be well to try blistering first, and if a cure is not effected during the summer, firing by a competent veterinarian could then be resorted to. The standard blister: Two drams each of biniodide of mercury and cantharides, mixed with two ounces vaseline, is recommended. Clip the hair off the parts; tie so that he cannot bite them. Rub well with the blister, daily, for two days, and on the third day wash off and apply sweet oil. Turn loose and oil every day. When the scale comes off, tie up and blister again. If necessary, put a third blister on in a month after the second.

STEEL ROOF AND LIGHTNING-RODS.

1. What do you think of steel roofing as a protection against lightning, with No. 9 wire to ground?
2. What do you think of lightning-rods, "the manufactured rod"? Would rods of that kind be of any benefit on a steel roof, or would wire be just as good?

3. In last year's report for Ontario, seven barns were reported burned. Had any of those barns wire on for protection?

READER.

Ans.—1. Steel roofing, having a good metallic connection with the earth, furnishes an almost perfect protection against lightning stroke. To be at all safe, however, there should be more than a No. 9 wire connection. A cable of several No. 9 wires, lightly twisted together, should extend from each of the four corners of the roof to the ground.

2. Wire rods are just as good as "manufactured rods," and, in many cases, better, but neither would be of any use on the ridge of a barn roofed with steel. Connection between roof and the ground is all that is needed.

3. The information is not at hand to enable us to give a definite answer. Have never known a barn protected by wire rods to be injured by lightning, though instances of such rods having harmlessly conducted a lightning discharge to earth, are known to us.

THESE CUP JOINTS PREVENT DUST

Your doctor would recommend the Pease "Economy" Furnace on THIS point alone. It's a small one, but is ESSENTIAL for pure air in the home. Let me tell you how the cup-joints on the Pease

"ECONOMY" FURNACE

insure these ideal conditions. Some firepots are cast in one piece. No allowance is made for the expansion and contraction that takes place—they eventually crack. This allows the fine dust to reach the air chamber and thence all through the house.

The "Economy" firepot, in TWO SECTIONS, prevents this. The upper section fits into the cup-joint on the lower section, just where I am pointing. This cup-joint is packed with fire clay. No matter how much expansion or contraction THE DUST CANNOT ESCAPE to the air chamber. Learn more about "Economy" Furnaces. Read every one of my talks.

NOTE—We manufacture exclusively Warm Air, Hot Water, Steam and Combination Heating Systems

The fence that's strong all through

Every wire in our heavy farm fence is No. 9 hard steel, with uniform strength and lasting qualities in each strand. A fence with any small or soft wire in it is short lived. A chain is no stronger than the weakest link. Then PEERLESS Fence made from English wire is rust-proof—that withstands more than double the endurance of other makes.

Peerless the fence that saves expense

The PEERLESS does not cost anything to keep—there are no repair bills—it is not affected by changes of temperature. The horizontal wires being crimped makes ample provision for all contraction and expansion. PEERLESS Fence, once well stretched, is always tight—no shock affects it. We are manufacturers of high grade farm, poultry, ornamental fencing and gates. Write for Free Book, a sample of PEERLESS Fence and a simple method of testing any make of fence.

CANADIAN BRANCH: ST. JACOB'S, ONT.

WAVERLY CLYDESDALES AND HACKNEYS

My 1910 importation of Clydesdale stallions and fillies, and Hackney stallions and fillies, are now in my barns. One and two-year-old Clyde fillies of a character and quality never before excelled. My Hackney stud was never so strong in high-class animals. All are for sale and prices right. ROBT. BEITH, BOWMANVILLE, ONT.

Ormsby Grange Stock Farm, Ormstown, P. Quebec.

Importation and breeding of high-class Clydesdales a specialty. Special importations will be made for breeders at minimum cost. My next importation will arrive about June 1st.

Duncan McEachran.

Imported Clydesdales

My new importation of Clydesdale stallions for size, style, quality and faultless underpinning with Scotland's richest blood. They will be priced right, and on terms to suit. C. W. BARBER, GATINEAU PT., QUEBEC.

CLYDESDALES, Imported and Canadian-bred.

I have on hand 2 Imported Clydesdale Stallions, one 4, the other 5 yrs. old; 2 Canadian-bred Clydesdale Stallions, one 2, the other 3 yrs. old; one French Coach Stallion, 4 yrs. old; one Shire Stallion, and the noted Hackney Stallion, Chocolate Jr. I will sell these horses cheap for quick sale. T. D. Elliott, Bolton, Ont.

CLYDESDALES AND HACKNEYS

We have still for sale several good Clydesdale Stallions; also our prize-winning Hackney Stallion, Blanch Surprise, and a few good Clydesdale and Hackney Mares. All of which will be sold on reasonable terms. Phone connection.

JOHN A. BOAG & SON, Bayview Farm, Queensville, Ont.
