London, Aug. 29th.—A Berlin dispatch says:—"As the new Bishop of Treves is staying with Bismarck, it is expected that many resolutions will be come to on questions affecting the future relations of Church and State. Count Baschkoff and General Jadereff, the intimate friend of the Pan Slavist adviser of the Czar respectively, publish a memoire, upon the actual condition of Russia. The memoire, which was submitted to the Czar before his father's death, admits that all Russia is dissatisfied with the present state of affairs. It advocates some kind of popular administration, and has apparently been published in order to acquaint the world with what the Czar might do if the Nihilists allowed him.

An unusually large area of the island is under cultivation, and area of the island is under cultivation, and the outlook has not been so favorable for good crops since 1872.
