

The Call of the Kootenay!

== Listen and Begin to Live ==

"The soil, summers and warm winters are unequalled in Canada."

"The soil has but to be stirred and enormous harvests delight the heart of the farmer."

"Actual experience has proved that more money can be made from a ten acre Kootenay Fruit Farm than from a three hundred acre grain farm."

"Irrigation is not needed and experience has shown that fruit can be grown which will bear away the palm from any fruit district in Canada."

Apples, peaches, pears, plums, grapes, cherries and small fruit all mature.

See the exhibit at Winnipeg Industrial then see us

We have the choicest fruit land on the market. Situated at the foot of Sloan Hill adjoining the townsite of Sloan City. Railway passes through the property. Train service twice daily. Station within one mile of property. Steamboat landing at the station. Soil good. Prices right.

Be sure and see us while in the city.
