

# Read This—

Professor J. M. Smith of the University of Saskatchewan says:—"If you are in the market for an engine get one that is designed for burning kerosene."

## This Combination Outfit Burns Cheap Kerosene

A tremendous saving in the cost of operation. It threshes clean, saves all the grain and is easily operated.

### POWER ALL YOU WANT AND MORE

A 20 h.p. Twin Cylinder Engine drives the 24 in. by 46 in. machine with self feeder, wind stacker and automatic register. For hand feed the outfit is powered by the famous 15 h.p. "Z". Both are horizontal engines—both burn cheap kerosene—with smooth throttling governor magneto ignition and friction clutch pulley. If you have a tractor of 10-20 h.p. or larger, you'll want this 24 in. by 46 in. Thresher, mounted separately.

### The Sturdily Constructed Separator

Has steel body, massive shafts and liberal bearings. The stout braces, the choice hardwoods and the excellent workmanship unite to make this the better separator.

Observe the extra width of body—46 inches. The wide decks, wide shoe, wide sieves, make for clean and thorough work.

## A Mower You'll Like

WHEN you come to buy your new mower this year, take a good look at the features of the McCormick No. 6.

Rough, stony, or stumpy ground has no terrors for the driver of a McCormick No. 6, because the floating cutter bar can be lifted quickly and easily, and fully twice as high as on other mowers, and as quickly and surely dropped again. No mower ever had a cutter bar that lifted so high without throwing the machine out of gear. The cutter bar weight is carried from the trucks, where it keeps both wheels hugging the ground, increases the tractive power, and lightens the draft of the machine. The bar itself is strengthened in two ways. At the butt it is a full half inch wider than the average bar, and it is heat treated throughout, like an automobile part, making an extremely tough, strong and rigid bar which gives a clean shear cut from one end to the other. The new McCormick mower is made in all desirable sizes.

McCormick rakes, tedders, stackers and sweep rakes, International side delivery rakes, loaders, and hay presses are machines you are perfectly safe in buying. Write now.

## Better Trees—More Fruit

Get the most out of your orchard—make your trees earn a better profit. Plant your trees with C. X. L. Stumping Powder—they will grow faster, crop earlier and be healthier. Spade-planted trees have soil-bound roots.

### C.X.L. Stumping Powder

breaks up the sub-soil and lets the tender roots get all the nourishment there is in the ground.

Use C. X. L. for ditching, sub-soiling and grading. C. X. L. Stumping Powder will make your farm give you a bigger income—and it's safe as gun powder.

There is big money in agricultural blasting—Write for proposition. Send for our free booklet "Farming with Dynamite".

# FLEET FOOT

## Shoes on the Farm

For work and play—in the middle of the day—and when on pleasure bent.

For field, farm and wagon, wear Fleet Foot Shoes. They are far cheaper than leather—light, easy, comfortable—long wearing. For every-day wear, you will find them immeasurably better than hot, heavy, expensive leather boots.

When you're out for a good time, wear WHITE "Fleet Foot" Shoes. In fact, you must wear White Shoes this summer, to be well dressed. Dealers everywhere have "Fleet Foot" Shoes, in all styles for men, women and children.
