FELT LIKE A NEW PERSON

After Taking Only One Box Of "Fruit-a-tives"

EAST SHIP HARBOUR, N. S.

"It is with great pleasure that I write to tell you of the wonderful benefits I have received from taking "Fruit-a-tives". For years, I was a dreadful sufferer from Constipation and Headaches, and I was miserable in every way. Nothing in the way of medicines seemed to help me. Then I finally tried "Fruit-a-tives" and the effect was splendid. After taking one box, I felt like a new person, to have relief from those sickening Headaches."

Mrs. MARTHA DEWOLFE.
50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

WASTE OF FERTILIZER

Canadian Farmers Do Not Appreciate Value of Manure to Their Land

The survey of 100 farms in each of four counties in Ontario in 1915 revealed a condition of extreme carelessness with a valuable product of the farm. Manure is one of the chief fertilizing elements used on Canadian farms. Few farmers were using chemical fertilizers, the numbers being: Dundas County, 8; Waterloo, 37; Northumberland, 39; Carleton, none.

The percentage making use of farmyard manure was 100; yet, of the 100 per cent, an average of 76.7 per cent admit "exercising no care to prevent waste of manure;" also, of the 400 farmers visited only two exercise good care to prevent manure waste.

Mgr. Choquette, of the Commission of Conservation, in an address before the last annual meeting, referred to the need of our farmers understanding better the nature of the soil which they till. He instanced the farmers of France, Belgium, Switzerland and Italy, and said: "Several times I have heard Belgium peasants speak of nitrogen, phosphoric acid, potash and lime, as ably as a professor. 'Here,' said one of them to me, 'is a field which needs nitrate; it would grow nothing without that. Over there I shall put, rather, some phosphate with a little potash.' I took an extreme pleasure in their conversation, and I asked myself if our Canadian farmers, even the best educated among them, would be able to show as much knowledge."

This appreciation of the value of fertilizing elements by European farmers stands out in strong contrast with that of Canadian farmers.

When only two out of the 400 farmers visited in the older counties of Ontario exercised good care to prevent waste of manure, and 76.7 per cent admit exercising no care, the situation surely calls for the prompt attention of those interested in promoting better agriculture and the conservation and utilization of farm products.

Lunenburg Man Instantly Killed

ST. PETERS, N. S., Aug 1—John Darries, a native of Lunenburg Co. was instantly killed today while engaged in work at the St. Peter's Canal. Darries was at work upon one of the lock gates about twenty-five feet from the ground. He started at work at 6.30 this morning and had only ascended the staging a few minutes before he fell to the ground.

It appears that he lost his balance and fell over. Coroner A. J. MacCush held an inquest, and the jury returned a verdict of accidental death. The deceased leaves a widow, formerly Miss McDermid, of St. Mary's River, Guysboro Co. and four children, residing at Whitney Pier, C. B.

Mr. Win. E. Caldwell of Glasgow Cloud Co., formerly of this County is in Upper Burlington visiting his brother Mr. Harry J. Caldwell.

Violent Attacks Repulsed by the British

London, Aug. 7—The Germans made four desperate efforts today to halt the British machine slowly grinding toward the Albert Plateau. All four failed, and General Haig's troops are now ready to resume the advance.

Meanwhile General Joffre was giving new proof of the strength that still lies with the French arms. Just north of the Somme the French drove the enemy out of a line of trenches between Hem Wood and the river. And in the Verdun battle General Petain's troops made further progress. Thus, while General Haig's men are yielding none of their gains, strengthening their positions and gathering force for a new blow, the French pressure is unrelenting. Today's fighting demonstrated that General Joffre's armies, unworn by the constant battering they have withstood, are able to attack at two points and gain at both.

The fury of the German assaults today—they are described unofficially as the most brilliant of the whole offensive—indicate the anxiety with which the Teutons view the steady British advance. General Haig's forces now menace Thiepval and are closing in from three sides.

With the capture of Hill 160 north of Pozieres Martinpuich and Courcellets were brought within range of the British fire. The destruction done in these villages—told of in reports from the front that reached London today—is proof of the importance of this height, on the Albert Plateau.

Causes No Surprise But Excites Horror

Rotterdam, July 28—Here, where Captain Charles Fryatt, the executed British shipmaster, who was charged with having tried to ram and sink a German submarine, was well known and esteemed, the greatest indignation is felt. The strong opinion is expressed that the Germans committed a deed only paralleled by the Nurse Cavell case. The hurried action in carrying out the sentence immediately after it had been passed, would indicate that the naval court had thoroughly made up its mind to give a further proof of frightfulness. The Amsterdam Telegraaf says: "The execution causes no surprise, but excites horror and indignation at a crime which is as mean as the shooting of the brave English nurse. It is a burning shame, which calls for vengeance."

The preservation of Canadian units at the front is no longer a certainty. In fact, the situation is such that the probability is strong that the battalions, once overseas, will be broken up and sent to the front in drafts. There are practically four divisions in the field now. After each battle the losses are more or less heavy, and while parts of each battalion remain in the field and cannot be withdrawn as a whole, reinforcements have to be sent over to fill the vacant places.

Halifax Lady Barristers

Two young ladies, Misses McInnes, daughter of Hector McInnes K. C., and Miss MacKenzie, of Cape Breton, are now regularly articulated to the law firm of McInnes, Mellish, Fulton and Kenny with a view of taking up the profession. These are the first articulated lady law students in Halifax, and it is expected the Barristers' Act will be amended to permit of the admission of ladies to practice at the Bar.—Hfx. Echo.

Twenty Lives Lost

VALPARAISO, Chila, August 1—The British steamer Ecuador, of 1760 tons gross, has been lost off Port Lico, as the result of an explosion of her boilers. Twenty lives were lost.

SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets, or in a few hours he may be beyond cure. These tablets will prevent summer complaints if given occasionally to the well child and will promptly cure these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Slavs Continue To Drive the Austrians Back

London, August despatch—London, August 7—A Reuter despatch from Petrograd says: "The irregular successes to the south of Brody bring the Russians within fourteen miles of the Tarnopol-Lemberg railway. It is reported that the Austrian forces at Tarnopol are in a state of confusion."

Petrograd, August 7—Further successes for the Russians along the Sereth and Graberka rivers, in Northern Galicia, south of the Brody, were announced by the War Office today. The Russians captured strongly fortified positions in the region of the village of Sevylin, Kostiniec and Reniuv.

The statement follows: "A squadron of seven aeroplanes bombarded several points in the region east of the Stokhod River, causing but little damage."

"At some places along the Stokhod the enemy took the offensive but everywhere was repulsed. Our offensive continues in the region of the Graberks and Sereth rivers. Our troops captured strongly fortified positions of the enemy in the vicinity of the villages of Zvyjln, Kostiniec and Reniuv. Fierce bayonet encounters took place in the woods in this region. The enemy made counter attacks."

Nature makes the cures after all.

Now and then she gets into a tight place and needs helping out.

Things get started in the wrong direction.

Something is needed to check disease and start the system in the right direction toward health.

Scott's Emulsion of Cod Liver Oil with hypophosphites can do just this.

It strengthens the nerves, feeds famished tissues, and makes rich blood.
