RECIPROCAL DEMURRAGE

'Who are you?" the Devil asked, as a man rapped on the gate.

'Oh, I'm a railroad man,'- he said; 'please open I cannot wait.' "Why do you long to be within this Knight's of Raymond sugar is made in the west for westerners and place of groans and tears?" from a western grown product. The The man's ashen face shook with an sugar beet, the healthiest form in guish, and his ashen face showed which to grow sugar, is cultivated in the fields of sunny Alberta by

Canadians, and the sugar extracted He said. "On earth, I had no peace, my life was full of jars l lied to all the farmers because they wanted cars.

The Devil said, "Go away, poor man production preferably to an imported this place is not for you.

The hold is full of farmers, waiting to pull you through.

They've got a cast iron freight car, much healthier production. And then well heated through and through,
They've held it now so very long,
the demurrage is up to you."

GROWING TREES

Many farmers are deterred from atery in the southern States of the union. Keep your money in the country and circulate it back and forth and tedious process, and that at best it will require a great many years to grow trees of a size that will give Do not let us be found guilty of supade and shelter. I have heard farmers express themselves to the effect that they were not going to spend their money and labor growing trees from which others would reap the

before planting, and is should be free Ranch Review. rom sod. If new land it should be brought thoroughly under cultivation before planting. New land may be prepared for planting trees in one season by the following method.

Break as early in the spring as possible, later disk well, backset the summer, disk well after backsetting, then plow as deep as possible in the fall, and let stand until the spring. Harrow down in the spring before planting. As a rule, however, it is advisable to take at least, one crop off new ground before planting

ily and neighbors over the winter or until the next crop was taken off.
Coal in those days was a luxury never heard tell of. There was no fuel jamine either for a rearrhy buff. Given this kind of cultivation a Albert, to elect a member to repre-those of eygone days.—Lumsden News A special meeting of the city council thick shelter belt twelve feet high sent the said electoral division in the Record.

A special meeting of the city council thick shelter belt twelve feet high was held last Thursday evening. The was held last Thursday evening. The report of the fire water and light is absurd to think that trees will

> The report of the finance committee which was also submitted and retentive soils. Most of the willow passed recommended the sale of lots sold by eastern and southern nur-21-80 block 183, to Messrs Reeves series are of no value in our prairie

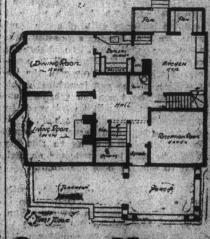

trees are of very slow growth, but there are others that are of very rapid growth. Some of the latter will produce a good shelter belt, sufficient to give good protection to the fruit or vegetable garden, in two seasons, and in a year or two more will make good shade or avenue trees. A lot of course depends upon the cultivation given. If the trees are planted in sod they are not likely to ever come to anything. It is not necessary that the soil should be rich, for securing a rapid growth in the sum of the guite light or sandy soil. Good cultivation, however, is necessary.
