INTELLIGENT READER.

Mr. Jones, of Camden, went to dise one evening with a friend. He imbibed quite freely, and the result was that he got "pretty medice."

As he started home, he realized his contition, and pondered how to conceal it from

self. "Whoever heard of a drunken man reading?"
He reached home and went to the library, and commenced to read. Mrs. Jones later

"What on earth are you doing?" she ask-

"Reading, my dear; I'm reading," he re-

"I have been under the treatment of

Peruna, see letter given below.

"What woulds thou of me. Don Zillipe?"
questioned the girl wearly. Her very humlity, so new to her, stung the cavalier to
fresh retor.

"Ah" he susered. ""twere well if the moon
shone full on Lamo Pass to-night," and with
a ourt salute strode past. But in his shadew followed Cita, her light footfalls unnoticed midst the rhythmic clank of his
scabbard. What meaning held his words she
could not say, but their hidden purport of
evil alled itself to the one thought uppermoet in her mind, and resolution was instantaneous—she must reach the pass first.
She dared not take her pony lest his ringing hoofs on the hard, rowly way mark her
for pursuit—no, she must walk or run as best
also might. Her only hope of precedence lay
in the probability that Don Philipe would
learny for mess, and as he shruptly turned
sewards the barrachs she breathed a little
prayer of thankfulness and sped down the
marrow trail that opened a mile below into
Lesmo Pass.

Here was, as Don Philipe well knew, no
highting gint of moon. Its walls of impregsable roots, sheer and ouverging, were
erowded at the top by a dense overgrowth he
of hearing wine through which no ray might
fifter. The pass was three, perhaps four,
iveds in length, and best the travetter on
horse back but a short time within the gleom,
yet much might happen in a moment, as the
weating girl knew. Her keen parception had
goted Don Philipe's servinal just as sine, stiffhigh her rumbling breaths, reached the further seasure. Cautiously orcepting for the
shapparal to chapparal, she knelt at length
is deep shadow at the turn of the read that
gove toward the sea. An unnerving shudder
within the rook, but even as it passed the
weathing girl knew. Her keen parception had
goted Don Philipe's very serving just as sine, stiffhigh her rumbling breaths, reached the further such master. On the stiffhigh her further than the stiffhigh her further the sum of the read
weather. On came house and rider, new
seaser. Uncline with the smalle of the selecwithin the Filmoco of

an, "for suon was priest lingers below, and en board the priest lingers below, and en board the clande, true hearts swait the master's risks." Thou—thou art—" Cita faltered.
"Stefan, Duke of Acondo," with the gay sale langs has remembered well. "Sought to babold with mine own eyes these my research lands, nor dreamed the gift they seld. By these noble orders," reverently he souched the insignia on his breast, "I swear to love and protect these always. Canst theu rus- use?"
"" heatthed the girl, "for I—love."

"Yes," breathed the girl, "for I—love." Scooping, he litted her gently into the sadbefore him, and bending his dark head we rest against her own, where it nestled his heart, guided the stalwart charger wan the winding road that led back to life id the dawn's new joy.

Minard's Liniment Cures Diphtheria,

COAL GAS.

Some Stupendous Figures Regarding This Illuminant in the States

Five hundred and thirteen companies in the United States made 58,000 -0 cubic feet of coal gas in 1907 according to reports to the United States Geological Survey. Of this product 8,400,000,000 feet were "lost, stolen or strayed." Thirty-six million three hundred and twenty-seven thousand eight hundred and seventy-nine dollars were got for the other 54,600, 000,000 feet, or an average of 66 cents a thousand. The product of 1906 avera thousand. The product of 1906 averaged 81.4 cents a thousand feet, so gas is evidently "coming down." Though the 1907 product was 35 per cent. greater than that of 1906, the total value was only 10 per cent more, and the average price a thousand feet declined by 15.4 per cent., due chiefly to the increased product of byproduct oven gas, most of which is used for fuel and sold at first hand at much lower rates than those obtained for gas produced as a primary product of gas works.

Pennsylvania has superseded New York as the greatest producer and

Pennsylvania has superseded New York as the greatest producer and consumer of coal gas. It 1907 product was 9,300,000,000 feet, about 80 per cent of which was sold for fuel gas. New York produced 8,300,000,000 feet, of which 5,000,000,000 feet were sold for illuminating, the result being that New York got \$2,341,392 more than Pennsylvania for 1,000,000,000 feet less gas or an excess of 80 per cent of these gas, or an excess of 80 per cent. Other ranking States, in order as named, were Massachusetts, Ohio, Michigan, Minois and Wisconsin. In the production of water gas New York far outranks all the other States with more than one-third of the total cut. more than one-third of the total out-put.—N. Y. Sun.

Guess Was Right.

A crowd of small boys were gathered about the entrance of a circus tent is one of the small cities in New Hampshire one day, trying to get a glimpse of the interior. A man standing near watched them for a few moments, then walking up to the ticket-taker he said: "Let all these boys in, and count them as they pass.

The man did as requested, and when he last one had gone, he turned and "Twenty-eight."

"Good!" said the man. "I guesed just right," and walked off.—Philadelphia "Ledger."

Getting Back.

Mistress—I suppose you'll be want-ing several nights off every week, Norah? New Girl—Only wan, ma'am. I don't belong to half a dosen lodges, th' way rour hasban' does, ma'am.

# **PAINS**

In Neck, Shoulders, Arms, Joints, Muscles

This means Rheumatism, the disease that next to. Tuberculosis plays greatest havoc in the nation. But there is a cure-Ferrozone-a concentrated vegetable remedy that has the power to neutralize Uric Acid, and therefore it cures permanently.

## FERROZONE **CURES**

"For years I have been rheumatic. I tried various forms of relief without success. The disease increased, settled in my joints and muscles; these swelled, caused excruciating pain and kept me from sleeping. My limbs and arms stiffened, my shoulders were lame and prevented me from working. Week by week I was losing strength and despaired of finding a cure. It was a happy day I heard of Ferrozone. Every day I took Ferrosone I felt better; it cased the painful joints, gave me energy and a feeling of new life. Ferrosone cured my rheumatism, cured it so that not an ache has ever returned. Even in damp ache has ever returned. Even in damp weather no longer affects me." (Mrs.) Edw. Warman, Kent Jnct., N. B.

You will be cured for all time to come by using Ferrozone; try it—now—50c per box, or aix boxes for \$2.50 at all dealers.

The Reclining Ancients.

The Reclining Ancients.

We stand and sit too much, according to the views of Dr. Geibke, in a lecture before a body of German physicians. Chairs may have been known to the ancients, but they were used only on extraordinary occasions. Persone of culture as well as barbarians took their meals and their rest reclining. Dr. Kruehe, of Munioh, says that to this day the primitive peoples prefer the reclining to the sitting posture, and the fast that they lie not upon the back but upon the stomach accounts for the better and more supple figures of these people.

From the London Globe.

### HOLSTEIN VEAL IN CHICAGO.

Chicago is the leading calf market in he world, says the Drover's Journal, of Chicago. From the dairy districts of Wisconsin and Northern Illinois tens of Wisconsin and Northern Illinois tens of thousands of vealers are brought into Chicago every year. April and May are the two months when they are marketed in largest numbers, although they are coming in all the year long from a few hundred a day to as many as 9,000 a day. The record day's receipts was 9,284 on May 1st, 1906. Last year 421,934 were received, and so far this year 157,000 have passed under the buyer's eye.

The great bulk of vealers come from a few counties in Wisconsin. Strictly speaking, those sections containing the largest number of cheese factories send in the largest number of calves. A line drawn from Green Bay on the north, southwest to Richard Centre, and taking in twenty-five counties in the southeastern portion of the state, would represent the area from which Chicago receives the great bulk of its calves. This area also comprises the great cheese-making section of the state, the greater portion of the nearly 2,000 factories of which Wisconsin boasts being located in these counties.

Calves are sold when from four to six weeks old. They do not run with the cows, but are turned in to suck night and morning. No feed other than the cow's milk is given them. When sold they weigh anywhere from send in the largest number of calves.

When sold they weigh anywhere from 100 to 160 lbs., although the most desirable weights are from 110 to 125 lbs., as veals of that size dress out

The calves from Greene county are mostly all Holsteins, but toward Green Bay they run more to the Durham type. Chicago buyers say the Hol-stein calves make the best veal, as they have more size for their age. They are larger than the other dairy breeds
when bern and consequently are larger
at six weeks old. While preference is
given to Holstein veals, any good fat
oalf will sell well.

calf will sell well.

The calves coming from the Holstein sections are all bulls. Dairymen keep and pay a premium on the heifers, as they are wanted for dairy cows, but the bulls are disposed of. It pays better to sell them as veal than to feed them as

The Early Military Band.

A little more than seventy years ago there was no such thing as a brass band in existence. The very first band entire-ly of brass dates, in fact, no further back than 1835. Prior to that time even our military music was produced almost entirely from instruments of wood, and as recently as 1783 a full regimental band consisted of two oboes, two clarinets, two horns and two bassoons

As showing the important part played by the "sounding brass" in our bands to-

Is London Dull?

It will come as a surprise to most people to learn that Americans are tiring of London, and that they are shunning our metropolis. It certainly has not seemed so this year, but it is nevertheless declared by shipping people that fewer visitors from across the Atlantic have landed at our ports. London, it is declared. is regarded as dull, and there is nothing to do at night. Americans are anxious to see "night life" in a city, and they, therefore, prefer Paris and other continental cities. Furthermore, our motor speed limit is resented. These, at any News.

Josh Billings, the quains philoseoher whose maxims are full of homely wisdom, ence said: "The longer I live the more I believe a good set of bowels are worth more than a good set of brains." Celery King makes good bowels. 2c cents, at dealers or by mail. S. C. Wells & Co., Toronto.

He is Watching,

In one of his letters to John Sterling from Scotsbrig Thomas Carlyle says: "One night late, I rode through the village where I was born. The old kirkyard tree, a huge old gnarled ash, was nestling itself solitly against the great twilight in the north. A star or two looked out, and the old graves were all there, and my father and my sister; and God was above us all." What comfort is this for the soul bewildered by life's sudden changes! He is watching. He knows. He will not fail us. Above the graves where His saints are sleeping, above the homesteads where His child ren are sleeping, God is above us all.

The Wagon With Arms. Little Dorothy appeared to be in high good humor when her neighbor passed her on the sidewalk. In one chubby hand she held a little tin pail, while the other contained some small article, evi-

dently.

Neighbor—What makes you so happy,
Dorothy? Dorothy—Oh, why, I'm a-waitin' for the man that has the wagon with arms.

Scuse me"
Suddenly the little girl danced up and down in high glee and ran away to meet the ice cream push-cart man just rounding the corner.

# Womanly Health

HOW TO PRESERVE IT

The good looks of every woman depend largely upon the proper working of her stomach and other internal organs.

If your stomach is strong and digestion is good, the cheeks flush with color, eyes dance and sparkle, breath will be pure, and your hair smooth and glossy.

Let indigestion creep in, and the skin becomes sallow and rough, pimples break out, eyes get dark-circles, ill-breath is all too apparent.

Get the stomach toned up with Dr. Hamilton's Pills—they increase the secretion of the gastric juices, promote vigorous digestion, increase the supply of blood, and thereby invigorate the entire sys-

## Dr. Hamilton's Pills CURE WOMAN'S ILLS
