Do you have pains about the chest and sides, and sometimes in the back? Do you feel dult and sleepy? Does your mouth have a bad taste, especially in the morning? Is your appetite poor? Is there a feeling like a heavy load upon the stowarh? Sometimes a faint, all-gone sensation at the pit of the stomach, which food does not satisfy? Are your eyes sunken? Do your hands and feet become cold and clammy? Is there a giddiness, a sort of whiting sensation in the head when rising up suddenly? Are the whites of your eyes tinge with yellow? Is your urine scanty and high colored? Does it deposit a sediment after standing?
