San Francisco, Oct. 12.—Local officials have, it is said, received telegraphic instructions from E. H. Harriman, of the Southern Pacific Co., that they must cut down expenses in every department on account of the stringency in the money market. It is said no new work will be started, and that there will be a big reduction in the working forces. \$300,000 FINE. San Jose, Cal., Oct. 12.—A fire which broke out in the Arcade dry goods store on South First street and San Fernando street, last night, destroyed the building. The loss is more than \$300,000. Handkerchiefs which have been used when cold and influenza are prevalent, should be sprinkled with boric acid powder, or better still, should be steeped in a strong solution of it and water before being sent to the wash. The best way to remove wax from the car is a warm mixture of equal parts of glycerine and water. Rose-water may be substituted for the water, if preferred. This will dissolve the wax, and leave no residue, which is an important part of its usefulness.

TELEPHONE DEAL.

Consolidated and Bell Companies are Negotiating.

Dunnville Gazette: Representatives of the Bell Telephone Company have been in town several times lately, and it is rumored that as a result of conferences they have held with the Dunnville Consolidated Telephone Company the latter will take over the Bell business here and in the territory covered by the local enterprise. Such a deal as is suggested would be a benefit to the subscribers of the Consolidated Company, as it would give them long distance connection over the Bell system without having the expense and annoyance of two telephones. The deal is believed to involve a ten-year contract, the Bell Company to have for its long distance lines the top cross-arms on the local company's poles, and to construct at once a new long distance line giving direct connection with Hamilton. At the local office it was learned today that negotiations are in progress, but have not yet been completed.

FOR INSOMNIA.

Simple Remedies Recommended by Those Who Have Tried Them.

One woman advances the theory that by laying a silk handkerchief lightly across the eyes on retiring sleep will be induced. The nerves of the eyes, she avers, are the last in the body to quiet down, and the bandage has the effect of hastening the process. Others have found that the inability to sleep may be traced to the habit of having the head too high. When the person lies flat without any elevation at the head, says the American Home Monthly, the much needed repose has been obtained. One of the most efficient remedies for sleeplessness is to lie perfectly still in bed, close the eyes, or the lids, and then, with the lids still closed, raise the eyes to as high a point as possible. Retain them in this position as long as possible. At first there may be a consequent straining of the muscles, and when this is noted it would be well to desist for that night. But a repetition of the practice will undoubtedly bring about the desired result. A good rubbing down with a coarse Turkish towel will often induce sleep and soothe unquiet nerves when one has tossed about for hours trying to woo nature's sweet restorer. Onions are known to have a soporific effect on the nerves, and it is said an onion soup taken at dinner will have the desired effect.

THE SIMPLE LIFE IN LONDON.

The Aristocracy is Eating Grass and Drinking Barley Water.

What with caravanning, camping out, renouncing meat and wine, and buying ready-made frocks, a good many of us are trying our best to lead the simple life. It is doubtless better for the next generation that the young girls of this can scarcely be induced to touch the cup that inebriates as well as cheers. Even young men, says the Gentlewoman, Neville Lytton among them, are vaunting the virtues of fruit, nuts and vegetables as food. And barley water, actually barley water, is becoming popular as a drink. Mrs. Earle, of "Surrey Garden" fame and aunt of the present Lord Lytton, is an ardent disciple of vegetarianism; so, too, although less dogmatic a one, the Princess of Rutland—aye! and Lady Plymouth and the young Lady Lytton and the Baronne de Meyer besides.

Anyhow, it is quite a sign of the times that the Duchess of Portland gave a luncheon party some time ago at the Eustace Miles restaurant, and her guests included Arthur Balfour and Lord Revelstoke and the Duchess of Marlborough.

John D. Rockefeller's daily income is figured at \$27,336. Getting it down fine, it is \$1,100 per hour; and even closer, it averages \$19 a minute.

A remedy for insomnia is to keep yourself in as good humor as possible, rise at an early hour, take enough exercise to make you moderately tired. In many cases with certain persons insomnia occurs if they rise from their beds and walk about the room for a while. A goblet of hot water taken just after rising, before breakfast, has cured thousands of indigestion, and no simple remedy is more widely recommended by physicians to dyspeptics.
