

WANT TROOPS AT GLACE BAY.

The Town Council Changes Its
Mind on the Question.

Labor Leaders Express Different
Opinions.

Members of International Organiza-
tions Favor the U.M.W.

Glance Bay, N. S., July 14. — Mayor Douglas was not upheld in his stand in connection with the calling out of the troops to uphold the civil authority in Cape Breton by the Glance Bay Town Council to-night. By a vote of nine to two they passed a resolution asking that the troops be kept here until all apprehension of riots is at an end. The resolution, which provoked a hot discussion, emphatically declared that the presence of the troops was necessary in Glance Bay, and it rescinded the resolution carried by the casting vote of the Mayor at the last meeting, deploring the calling out of the military and refusing to pay for them. An amendment was offered that the Council stand by this resolution, and that a meeting of the ratepayers be called to discuss the question, but only the mover and seconder voted for it. All the others, with the exception of Councillor MacDougall, President of the U. M. W., who is now in Halifax, voted against it, and the motion was carried by the same vote reversed. The question of the special police also came up, and the statement was made that there would be little difference in the cost of the "specials" and the force of troops that is quartered on the town, as there are only about 250 here. There was a large audience and the acrimonious debate was followed with the keenest interest.

THE COMPANY'S OPERATIONS.

The figures the company claimed at 4 o'clock to-day were: Raised from collieries, 3,940 tons; from No. 2 bank, 900 tons; from No. 8 bank, 350 tons. For the same period yesterday the figures claimed were: Raised from the collieries, 3,715 tons; from No. 2 bank, 870 tons; from No. 8 bank, 280 tons. This increase, the company stated, was due to more men at work in the pits and the men on the steam shovels at the banks becoming more familiar with their work. They anticipate a similar increase each day as the strike proceeds.

The U. M. W. officials were just as confident to-night as at any time since the trouble began that they would win their fight at a not very far distant date. They stated that everything was looking very well from their standpoint, and they professed to be satisfied with the day's developments.

MR. ROSS' DEPARTURE.

After sending a telegram off to some upper Canadian papers, emphatically denying the statement that he was endeavoring to treat with the men, owing to the officials of the company having deceived him as to the number of men who were likely to strike, Mr. James Ross left for parts unknown this afternoon. His steam yacht, the Sheelah, steamed out of Sydney Harbor this afternoon, and the coal President is now beyond the reach of newspapers. No one connected with the company appears to have the slightest idea where Mr. Ross has gone, and his sudden departure has knocked all "settlement rumors" on the head.

Mr. S. B. MacNeil, Grand Master of the P. W. A., stated to-day that he believed there would be a big Canadian coal miners' union arising as a result of the strike. He thought it was pretty well demonstrated now that the U. M. W. could not exist in the Dominion, and he expected before the year was out to see an all-Canadian union in existence.

ENGLISH MINERS ARRESTED.

There are now about fifty cases before the Magistrates arising from the strike. Another batch was added to-day, when a number of Englishmen who had come out to Cape Breton with their passengers, and who were used for surface work, were arrested. They were taken to Sydney as they were about to leave for the west. The men had not paid back all the money that had been advanced to them, and they were being sent from the country by the U. M. W.

CONDITIONS AT INVERNESS.

Inverness, July 14.—The strike situation here remains unchanged. A number of U. M. W. men are asking for their old places in the mine, and it is expected a number of them will join the working force to-morrow. The company are running special trains, carrying men from points along their line to and from work. In this way they can obtain as many men as they need for surface work. The output to-day was 557 tons, and 300 tons loaded from the stock pile. Manager Beaton expressed himself as well pleased over the situation, and said it was even better than he had anticipated.

A Belgian was committed for trial for assaulting a miner with a bag of rocks. Warrants are expected to issue for others for carrying weapons. It is felt the presence of troops prevents an outbreak.

WAGES AND COST OF LIVING.

An official of the Coal Company, discussing the question of wages and conditions of employment, says: "The schedule of wages in the western coal fields of Canada shows day wages materially higher than those paid in Cape Breton, but this is counterbalanced by the much higher cost of living in the west, and the much higher rentals and coal charges, which appear to be the custom out west. For instance, at Fernie a five-room house costs \$10 per month, to which must be added \$1 a month for sanitation, \$1 for water, and 30c. for electric light per month, where electric light is used. Domestic house coal costs the workmen \$2.75 per ton. The Dominion Coal Company's houses let for \$8 per month, to which is added 25 cents per month for water in hydrants, or 75 cents for water in the sink. The sanitation charge in the Dominion Coal Company's houses does not exceed 25 cents per month, and is usually \$1 per ton for slack and \$1.50 for run of mine, and until very recently was only 90 cents per ton for run of mine."

REFERRED TO GENERAL DRURY.

Ottawa, July 14.—In respect to the demand from Mayor Douglas, of Glance Bay, and from the United Mine Workers' Union that the militia be withdrawn from the scene of the strike, Colonel Fiset, Deputy Minister of Militia, stated to-day that he had sent a reply to Mayor Douglas, stating that the question of withdrawing the troops is one for Gen-

eral Drury, district officer commanding, who is now on the scene, to deal with, as being most conversant with the needs of the situation. "The troops," said Colonel Fiset, "were called out in accordance with the provisions of the law, and the department will leave matters in the hands of General Drury."

VIEWS OF LABOR ORGANIZATIONS.

The opposing views of representatives of the two chief labor organizations of Canada on the issue in the coal miners' strike in Cape Breton are set forth in statements handed out to-day by Mr. J. W. Patterson, President of the Canadian Federation of Labor, and Mr. P. M. Draper, Secretary of the Trades and Labor Congress. The former takes a strong stand in favor of the Nova Scotia Provincial Workmen's Association against internationalism in labor organizations of Canada, and the latter emphatically endorses the position taken by the United Mine Workers.

"This," said Mr. Patterson, "is the beginning of the war for the emancipation of the Canadian workman from American domination. The troops have a perfect right to be there, when there are imported Belgians going around with knives in their hands, and it is time for Canadians to have some form of protection. Where is all the money coming from? I believe when the Government investigates this strike, as it surely will do, it will find the source from which the pay of these American agitators is coming is American capitalists rather than from the United Mine Workers. I have every confidence that there is a great conspiracy on foot, else what is bringing in all these men, some of whom do not even belong to the United Mine Workers, who are willing to take their lives in their hands, and to do violence on the slightest urging."

THINK TROOPS SHOULD BE WITHDRAWN.

"The demand for the withdrawal of the troops contains no subterfuge on our part for the use of violence when they have been withdrawn," said P. M. Draper. "Violence in any form is against every principle of international trades unionism. The Mayor of Glance Bay was overruled by the County Judge after the Council had decided against taking out troops. One has only to read the militia act to see that the mayor of a city is in the supreme authority in a case of this kind. We have had Mr. J. Simpson, Toronto, our second vice-president, on the ground, and he has assured us that there is no necessity for the soldiers, as there was absolutely no sign of violence. There was no disturbance, the local police there could not cope with. An endeavor is being made to have the public believe that we are trying to win the strike by violence. Such is not the case, however. The United Mine Workers have a membership of nearly 400,000, and funds of over a million for strike purposes. They stand ready to support the men on strike in Cape Breton for an indefinite period. I have authority for making this statement. You can add further," said Mr. Draper, "that we will call on every international union in Canada to condemn the use of the militia in this strike. We are all in sympathy with the United Mine Workers' Union, and the congress is the mouthpiece of the United Mine Workers in Canada, of which there are 8,000. These resolutions, when it is remembered that there are 150,000 or 200,000 international union men in Canada, will be effective."

TENDERS REJECTED.

Montreal Council Turn Down Chairman Giroux.

Montreal, July 14.—After a three days' session the City Council decided to-day to reject the report of Chairman Giroux of the Roads Committee. Mr. Giroux has been trying to force upon the city certain paving contracts, amounting to \$400,000, despite the fact that other tenders were much lower. In some cases there was a difference in cost of a dollar a yard. The Hassam Paving Company's tender for \$361,000 was the real storm centre. Experts testified that other paving material was much better, and the cost was less. Recently a member of the Hassam Company testified that he had to pay a "royalty" of sixty cents a yard before he could get any consideration of his tender from the Roads Committee. At to-day's session of the City Council, which lasted five hours, Chairman Giroux and his policy received a setback, as his motion was defeated by one vote. The result is taken as a big vindication of the work of the Royal Commission.

MURDER OF TORTIC.

The Guilty Man Unknown to the Coroner's Jury.

St. Thomas, July 14.—The Coroner's jury investigating the death of Djuro Tortic, the Austrian, killed in a drunken brawl in a boarding-car at Iona station on Monday night, at noon to-day returned a verdict that the deceased came to his death by means of a blunt instrument in the hands of an unknown person.

The inquest threw no light on the man's murderer. A witness named Burpolets told of seeing Tortic lying on the side of the track at midnight, and asked his brother to help him lift the body, but the latter was too drunk, while Peter Silencie said the only thing wrong with Tortic was that he was drunk.

A cousin of the dead man knocked out the robbery theory by producing \$15 of Tortic's money he had taken possession of.

The London Daily Mail severely censured Montreal for short-sightedness in connection with her municipal loan floated in England.

TIMES PATTERNS.

CHILD'S OVERALLS.

No. 8530.—These little overalls or rompers are equally suitable for boys or girls, and allow of perfect freedom of motion while at play. The garment fastens on the shoulders and is supplied with pockets enough to suit even the small boy. The pattern is cut in 4 sizes, 4, 6, 8, 10 years, and is usually made of denim, gingham and khaki. The 6-year size requires 2½ yards of 36-inch material.

Pattern here illustrated will be mailed to any address upon receipt of 10 cents in stamps or silver.

Address "Pattern Department," Times Office, Hamilton.

It will take several days before you can get pattern.

A GEOMETRICAL ROMANCE.

(By Allan P. Ames.)

Gertrude Allen was an extremely pretty girl, with dreamy eyes and a head full of captivating foolishness.

Jim Etcher was a clean-cut, square-shouldered lad with as much romance in him as a Belgian block, but a business head that had gained him a junior partnership in a large hardware house before he was 30.

Ronald Vernoy wore his hair on his collar and endorsed a cheque, when he was fortunate enough to possess one, usually on the wrong end. He earned \$30 a week as a newspaper critic, and wrote verse for the minor magazines at 25 cents a line.

There you have the three corners of the triangle.

"I might marry a hard-headed business man," Gertrude told Etcher one evening, when he was unusually persistent; "but not a man whose business is his only interest. Jim, if you only showed a spark of sentiment—well, things might be different."

This explanation, which was the first really satisfactory one Gertrude had vouchsafed, made Jim Etcher think hard all the way home. The result of his cogitation is the second side of the triangle.

reaching Ronald Vernoy. Etcher fell upon him in his back hall bedroom as he was revamping a rejected quatrain.

"Just what I came to see you about," he said, catching sight of the manuscript in the poet's hands. "Vernoy, old man, tell me how you do it."

"I can't," replied Vernoy, sententiously; "nobody can. You just feel it and then you write. If you're not born that way there's no use trying."

"Just what I feared," sighed the lover-lorn Etcher. "Vernoy, what'll you take for that you're writing—that roundelay, or whatever you call it?"

"This," said Ronald. "Why, what use would it be to you?"

"Never mind the use. How much?"

"I have offered it to the Pink Peacock for \$15," replied Vernoy. He refrained from saying that the Pink Peacock has promptly rejected his offer in its customary printed phrase.

"I'll give you \$20 for it," said Etcher, pulling out his purse.

"It's yours," said Vernoy, passing it over, "but you must promise not to use it in connection with my name."

"Nothing is further from my intention," declared the hardware merchant. The real significance of Etcher's parting speech did not dawn upon Ronald Vernoy until two afternoons later, when he discovered the battered outstretched hand of the little writing desk in Miss Allen's reception room. To his intense indignation his lines had been copied in another hand and beneath them was the signature "Jim."

Of course there was only one thing for an honorable man to do in a case like this. Jim Etcher had resorted to under-

handed means to forward his suit. When Miss Allen entered the room Vernoy lost no time in explaining how some designing villain had imposed upon her innocent love of poetry and romance.

"But how do you know that the person who sent me these lines did not write them?" she asked, with a peculiar look.

"Know?" snorted Vernoy—it was a refined, poetic kind of a snort—"because I wrote them myself."

"Jim," said Gertrude, when Etcher called that evening, "Mr. Vernoy says he wrote that verse you sent me and sold it to you. Is that true?"

Jim Etcher turned fiery red. "Gertrude," he said, "I thought I'd be willing to do anything to get you, even tell a lie; but when you look at me like that it's no use trying. I can't. Yes, Vernoy wrote that poetry. Is it really so beautiful?"

Gertrude moved a step closer before she replied:

"Jim, it's the sickliest mock-sentiment I ever read. If he had written it I'd never marry you if you were the last man on earth."

You can guess the Q. E. D.

FOUND LOVER DEAD

A Toronto Girl Goes to Wisconsin to Wed.

Sheboygan, Wis., July 14.—After a long journey from Toronto, Ontario, Miss Maggie Bloomer has arrived in Sheboygan only to find her intended husband, Harry Cleveland, dead.

The wedding was to have taken place on Wednesday. Mr. Cleveland had made all necessary arrangements for his wedding, had secured a house, and was waiting for his bride. He was about 35 years of age, had been previously married, and had come from Toronto about a year and a half ago. He was employed to do special work at the Badger State Tanning Company plant, but had not been working since Memorial Day.

Before that time he had begun to make arrangements for his wedding, and had sent Miss Bloomer \$35 to come to Sheboygan. Miss Bloomer is in the city without funds or friends, and is preparing to return to Toronto. Cleveland had several hundred dollars in a bank here, but nothing can be done in settling his affairs until the relatives are heard from.

AN UPHEAVAL.

Face of Nature Altered by Volcanic Activity.

Washington, July 14.—Juggling two imposing mountain peaks off the map, transferring a bay into a lake and bringing into existence two brand new islands are the feats of nature just discovered in Behring Sea by a Government party and reported to the Treasury Department.

A party from the revenue cutter Perry landed on the Island of Bogoslof and found that Perry Peak and McCullough Peak, which had loomed high, had disappeared, and a pretty lagoon has closed up, forming a lake of warm salt water of a temperature of about 71 degrees. In the lake two small islands have sprung up. One of these was throwing off steam.

GOES TO BRANTFORD

To be Physical Instructor for the Y. M. C. A. There.

Brantford, July 14.—George H. Roper, physical instructor at All Saints' Church Club, Toronto, has been appointed instructor at the Y. M. C. A. here.

Roland Williamson, aged 12, made a daring rescue of Gordon Rowley from the Brantford canal.

Discussing a resolution to change the management of the John H. Stratford Hospital from a municipal one to a trust, Ald. Montgomery, chairman of the board, and Joseph Stratford indulged in personalities. Doors in the hospital had to be closed to prevent patients being disturbed. The resolution carried.

RISE IN WHEAT.

Sensational Advance of Seven Cents
in Price of July Cereal.

Cause of Excitement Abundance of
Rains and Delay in Harvest.

Chicago, July 14.—A sensational rise of seven cents in the price of July wheat was recorded to-day on the Board of Trade, jumping from \$1.20, the closing price yesterday, to \$1.27 on late trades. Much excitement prevailed while the boost was going on, in spite of desperate efforts of some bull leaders to check the remarkable buying. Brokers thought the shorts bought only about 500,000 bushels on the late advance. Traders could not recall that there had been so big a price movement in the cereal on any single day since the famous Leiter deal. The cause of the excitement, which eclipsed anything during the recent deal in May wheat engineered by James A. Patten, was a continuance of rains in the southwest, in consequence of which harvesting in many sections is delayed and the movement of new wheat held back. Leaving exporters and shippers who had sold wheat for delivery this month are unable to fill their contracts, it is said, and consequently were forced to go into the pit to-day and cover short sales at prices which spell heavy losses.

FARM LABOR.

Serious Shortage Confronts Yeomen
in Ontario.

Toronto, July 15.—A serious shortage in farm labor confronts the agriculturists of Ontario, according to Mr. Donald Sutherland, Provincial Director of Colonization. The scarcity is felt particularly in the western portions of the Province.

While the crops already sown can be well taken care of the scarcity of labor has had the effect of materially reducing the acreage under cultivation. In some counties, the reports show, this reduction is almost fifty per cent. The statistics received show further that there are 188,000 acres less under wheat than there were last year, while as a result of shorter crops over 300,000 less hogs are being raised.

Since 1885 to 1905—the last year figures are obtainable—there has been a decrease in the rural population of Ontario, not including northern Ontario or villages and towns, of 114,931, while the increase in towns and villages for the same period has been 587,008.

OLD FOLKS' COUGHS.

Tells of a Sure Cure and a Never Failing Comfort For Colds, Coughs, Catarrh.

Mrs. W. E. Walford, wife of a well-known grocer in East Sheffield, writes: "For three years I suffered with a hard, racking cough and bronchial irritation, which annoyed me so much at night that I couldn't sleep. I tried many remedies, catarrh tablets, sprays, syrups, etc., but they only brought me a short time. Catarrhzone brought me a permanent relief from the first. I inhaled its balsamic fumes every hour or two and am now free from any trace of cold, bronchitis or Catarrh. I can go out in all kinds of weather and don't take cold."

There is no remedy so certain and safe as Catarrhzone, but being a good remedy, it is imitated. Beware of the substitute. Large Catarrhzone lasts two months, price \$1.00. Smaller size 50c. At reliable dealers or The Catarrhzone Company, Kingston, Ontario.

MORE TERRI ORY.

Britain Is Given 15,000 Square Miles by Siam.

Washington, July 14.—The State Department to-day made public the substance of the Anglo-Siam treaty, which was recently signed by representatives of the two Governments at Bangkok and has been ratified by both countries. By the terms of the convention Great Britain agreed to give to Siam partial release from extra territoriality on condition that Siam give certain guarantees for British subjects and right of property and travel. As a business transaction Siam has given over to Great Britain some 15,000 square miles of territory.

Wanted to Talk.

Edmonton, July 14.—Declaring that he had killed Deputy Warden Stedman, of Alberta Penitentiary, formerly of Toronto, in self-defence, Gary R. Barrett was hanged this morning. Death was due to strangulation and not a broken neck. His son, who was not permitted to be present at the execution, was given the body which will be taken to Butte, Montana. The condemned man showed the utmost unconcern, save that he objected to the oration he wished to deliver being cut short.

Warm the teapots. Put in a heaping teaspoonful of "Salada" Tea for every two cups. Pour on freshly boiled water and allow to infuse from 6 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

Calgary's Chief of Police has been ordered to resign, and an investigation into the conduct of the force is probable.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.
