For the past year every newspaper in the land has had to bear witness to the folly and orime that are the fruits of this infamy. The ellained suff that it per forth by needy producers to tiblile adulescent success, and timulate the ence to authority is manly and brave ; recklessness and vice; it destroys that respect for the person which civilization has been nearly two centuries trying to foster, and it condones violence by mixing it up with melodramatic pathos. The immediate outcome of this poisoning may be seen in the organization of infantile crime. A few weeks ago a gang of young desperadoes was broken up in the westera part of this state. The culprits were not fatherless waifs, but the children of well to do and respectable parents. The other day we had the same news from Quincy, where a secret organization of children was discovered, which was trying to make petty larceny heroic, according to the flash standard. Later we are startled to hear from Philadelphia of a lad in an infant school, who when reprimanded by his teacher, drew a revolver on her, and when the trustes examined the scholars, they captured no less than seven pistols. Ail this affords amusement for the unthinking, but it is very sad for the reflecting man. - New York

Temptation ever Present

The serpent has found its way into all put off finally the possibility of sinning. Nowhere can a man go that temptation will not find him. Temptation possesses a free berth on all the boats, a free entrance to all school room and business offices and playgrounds-and even to the churches. Little escape, for example does the reforming drunkard find in boarding the express train that, with every moment, he puts another mile between himself and his old saloon haunts. Old evil associations he indeed leaves behind, but not the old evil thirst, the old fierce temptation. That shares his seat in the train, his state room on the mingled with the crowd. Temptation climbs the high and bare and guarded will of the convent as well as the lattice el arbor of the pleasure seaker. Temptation pays no heed to warnings of 'no almitance,' be such warnings moral, degal or ecclesiastical. Temptation's very power for evil is in this constant presence, which leaves not an unguarded movement of movements of the soul unbown with tight breeches and tooth-pick shoes on.
