New Day for Old Men.

"Too Young at 60!" The Slogan Now in London.

"Too young at 60!" is the slogan that sent a rejuvenating thrill through the elderly men of London. The words stood out in stalwart letters in the bill of contents of a morning paper, the editorial page of which presented a "middle-aged philosopher" assuring the world that the recent rule of young men is passing and that the "old man triumphant" is returning to his ancient mastery of the earth.

"The new Lord Mayor of London," says the philosopher, "is 81. The winner of a swimming race in the frigid waters of the Serpentine the other day was an athlete of 75. Dorchester is rehearsing a new play by Thomas Hardy, who is nearly 72. The man chosen to save the Unionist party, the Earl of Halsbury, is 86.

"The young man who is dreaming in his foot's paradise must bestir himself or he will awake with a shock to find himself struggling among the debris of the flimsy throne on which he has perched since the closing years of the last century.

"To some of us who are neither exactly young nor definitely old, the question whether youth or old age shall possess the twentieth century is only of philosophic interest. If youth wins we have only to do a few bathroom exercises, part our hair in the middle and be as young as one may safely be without being considered callow; if age wins we have only to wait patiently a few years to have our place among the victors.

"What gave the old men of the latter day a setback? The typewriter, the telephone and the motor car wrought wonderful changes. The old men, conscious of their great power, pegg-pooched these inventions. The young men seized them and flew past the greybeards. "Too old at 40!" they cried. "Get on or get out!" The young men in their arrogance thought that they and not their machines had conquered. Now the old men are climbing back into the sea of power. Young men no longer monopolize the machines; the old men have them.

and put more force behind them. Ten years ago the automobile was associated with extreme youth. To-day witness the gray old boys swishing along the highways. The increasing age of the taxicab drivers is one of the most marked phenomena in the streets of London. In every life of the aged one is resuming his rightful pre-eminence."

Went Over Falls.

In a Motor Boat and is Rescued.

At the Bonaventure Station recently some residents of Drummondville, who had come in on the Nicolet train, had an amusing story to tell of the adventures of a water man at that place. The hero of this story is Leslie Miller, who works in a stockbroker's office in Montreal, a son of Mr. C. H. Miller, of Drummondville. Going home for a week-end visit, he went out for a trip in his motor boat, and commenced a series of rather daring manoeuvres with his craft in the St. Francis river, just above the dam.

Tells Others His Secret.

Wants them to know how he was cured of itching, protruding piles by DR. CHASE'S OINTMENT.

Doctors usually recommend the knife as the only cure for piles. They overlook the risk, the expense and the suffering of mind and body entailed in a surgical operation.

Dr. Chase's Ointment will bring relief quickly and will cure thoroughly if you will but persist.

Mr. A. Honington, 62 Bronson Place, Montreal, Que., writes:—"I cannot help praising Dr. Chase's Ointment as I suffered many years with itching and protruding piles and was cured by this ointment. I became tired of the efforts of the best specialists and had a hearing of Dr. Chase's Ointment just as I had of hundreds of other medicines began its use. But oh, great joy, at the very start the sharp pains left me and I was gradually cured. I hope that every sufferer will follow my example with the same success."

Every form of piles or hemorrhoids is cured by Dr. Chase's Ointment. 60 cents a box, at all dealers, or Ed Manson, Bates & Co., Toronto.

Municipal Council Meeting.

Mayor and full Board present.

A letter was read from the Colonial Secretary saying that enquiries were being made about the vacant land west of Dryer's building, Duckworth Street. The Secretary will write Messrs. Butler & McDonald, architects, that they will have to postpone building there till the matter is decided.

A special meeting will be held Monday next to deal with Mr. J. P. Blackwood's letter re land on Flavin Street belonging to Cochrane St. Church. The application of the Gas Co. for reduction of taxes will also be considered.

A letter was read from Mr. F. A. Mews, solicitor, acting for Mr. E. Power of Nagle's Hill, threatening to take action for damages by reason of his client's horse and cart falling through the ground last week on Cathedral Street.

A letter was read from Rev. H. Lip-Hill, South Side, asking that a light be placed over the sub-station, Job's Bridge. He also suggested that the sidewalks there be further improved. Council will visit the place on Monday, and before returning will also inspect Mr. Angel's land, Hamilton Avenue, with a view to buying it.

A long discussion followed after the reading of Mr. H. B. Chafe's application to build on DesBarres' premises. It was claimed by Councillors who knew the locality that the Cove had been encroached on. Councillor Mully said that proposed building would not encroach on the Cove as the site is occupied by Smith & Co's sheds, and that Mr. Knowling had built a fence across there and was gaining the land to deposit goods boxes, etc., on, and making such use of it as would lead one to believe that it was his private property, although it should be a public cover. Councillors Martin and Channing agreed with him. The Mayor said that this condition of affairs showed that the public took very little interest as to whether the place was a public cover or not. This was probably owing to the Cove as being laid there. The question was referred to the Solicitor, who is now investigating the whole subject of the boundaries of the cove.

W. Evans, of Pennywell Road, sent in a complaint that the City Council employees had taken down his fence while excavating there and that since then the R. N. Co. had placed an electric light pole three feet inside where the fence was. Engineer Ryan said that knowing the land would be taken over shortly to improve and widen the street, he had given permission to the R. N. Co. to put the pole there. An enquiry will be held. Engineer will make enquiries re J. Bishop's application for water and sewerage on Flower Hill.

J. J. O'Grady was given permit to build at Carter's Hill.

The application of J. W. Morris, of the R. N. Co. electrical department, to replace "feeding" poles on Water Street was referred to the Engineer. Messrs. Harvey & Co. will be given a two inch water pipe to Butterine Factory on condition of the paving for the water at the special rate provided by the Council in such cases.

J. Branscombe will be given leave to repair buildings on Gower Street, James' Street and Carter's Hill.

Geo. Lilly wishes to put machinery into his carpenter's shop, Prescott St. The Engineer will be asked to report.

Solicitor will deal with J. Ridout re claim for damages to his horse falling through the ground at Bate's Hill.

The tenders for repaving steps in Solomon's Lane were opened. Jas. Doran, who offered to do the work for \$210, was given the job on motion of Councillor Mully, seconded by Councillor Channing. The other tenders were J. J. Neave, \$219; W. T. Penny, \$220; P. Devreux, \$295.

The Secretary will see Mr. Marshall, Long's Hill, re sewerage and plumbing his residence. Williams & Moore tendered to do the work for \$88.50 and J. P. Walsh for \$105. This is the first job undertaken under the Council's new regulation.

J. J. Duff's plan of extension to George St. was approved.

The report of the Sanitary Committee, viz. Councillors Mully, Martin, Myrick and Coaker, on the best hour for paying the sanitary employees on Saturday was adopted. They will be paid at 6 o'clock.

The Board of Works will repair the gallery and rails at Gunner's Cove leading to the Battery.

A letter with no name signed contained a complaint that there were two houses on Bannerman Street unfit to live in. The Council agreed that they would not consider anonymous letters.

Messrs. Bulley and Shoghrue, who asked to be paid for the time they were laid off on the sick list, will have their applications considered.

It was found that the shed on Mr. Clapp's land, which the Council want removed, is used by W. Ryan, plumber, as a store. The Council will endeavor to have it taken down.

Councillor Mully's complaint about refuse being thrown on the land near Maloney's place, Water St. West, will be attended to by the Sanitary Supervisor.

Councillor Ryan drew the attention of the Council to Mr. Moore's coal bill—\$12 tons of anthracite coal in one month to heat the City Hall. This was going it somewhat, and will mean at this rate 60 tons till the end of next May. The Office Committee will investigate.
