SECCOTINE!

FOR STICKING EVERYTHING.

In patent pin-stopper tubes. Best Pocket Size, 10 cents.
Large Size Tubes, 20 cents

SECCOTINE is an intensely strong adhesive for joining new or facturing surfaces in wood, leather, iron, delph, paper, pasteboard, cloth, glass, ivory, bone, etc., etc. It is unequalled for office use. Being immensely stronger than gums or pastes, a much smaller quantity is required. It replaces glues and cements in the manufacture of small fancy articles.

The general uses of SECCOTINE are too numerous to mention. It goes a very long way. It requires no heating or other preparation; keeps for years, and is always liquid and ready. It sticks, binds and cements all articles of all materials.

Why Is It?

The question is frequently asked us, why is it your business has been such a success from the very start? The answer is, because there is an individuality and Exclusiveness about our Tailoring that has never existed in this city before, by reason of our New York Cutter not using obsolete Block Patterns, but cutting each suit or overcoat from a specially-made pattern for each order, thus catering to the individual ideas of every customer.

Our name on a garment is small thing to look for, but a Big Thing to find.
