A meeting of the Fish Exporting Company was held in the Board of Trade Rooms last evening and continued at noon to-day. The buyers in the foreign markets are doing all they possibly can to depress the fish prices, and the merchants in Newfoundland are co-operating and endeavouring to keep the prices up. A number of cargoes arrived at Gibraltar recently, shipped from this port, and it was difficult to make sales for them.

The schr. Flower of Home, B. Bryan, master, of Hickman's Harbor, T. B., was all ready to sail early yesterday morning, but when the crew came to warp her out of Browning's dock it was found that she was hard and it was found that the vessel was rapidly filling up with silt and debris and owing to this the vessel has lost a good chance of getting north and may be here for some time yet. If she does not float off this evening the aid of a tug will be called in.

The Mtd. Fresh Fish Packing Co. are now operating on a large scale at Pushthrough and are canning all the fresh codfish they can procure in half pound tins. The article is excellent and there is a constantly increasing demand for it in the United States. The fish has been sent over to the Pacific slope and good prices are obtained for it. Five years ago this venture was inaugurated but was discontinued after a time. The Messrs. Lake, who have charge of it now, are making it a paying proposition.

The Din of Battle

Special to Evening Telegram.
PARIS, Nov. 18.

The Journal's correspondent at the Turkish headquarters at Haden Krevl, describes the opening of the battle on the Tchataia lines, on Sunday. The engagement began at 3 a.m. It was pitch dark. The Bulgarians, who were about two miles from the Turkish advanced posts, in strong force, tried to creep into the valley, separating them from the Turks, under cover of the darkness, but were discovered, and returned. The attacking forces opened with heavy artillery, fire, which was the signal for a general assault, all along the line. The din was terrific, and the earth seemed to tremble under one's feet. The opposing armies retained their respective positions for hours, but it was evident that a colossal effort was soon to be made. In the sky a Turkish aeroplane appeared. The Turks finally perceived a detachment of Bulgarians sheltered by the forest of Seraza, and sent a contingent to set fire to it, forcing the Bulgarians to withdraw. The engagement, so far as one could judge, seemed to be go-

ing in favor of the Turks in the Derkas region, where they took many prisoners, and a number of heavy guns.

The Problem Solved.
In United States and Canada the average workman's income is \$600.00 per year. In Newfoundland, where all necessities of life are higher, the average income is only \$350.00. This can be remedied by our fishermen using a Fraser Engine, which will at least double their earning capacity. The Fraser is economical, strong, speedy and durable; any 10 year old boy can operate it. No fisherman can afford to be without one. Price and terms attractive.

FRANKLIN & CO.
SAILED FOR GIBRALTAR. — The schr. Jorsten left Herring Neck yesterday for Gibraltar, taking 3,500 qts. of fish.

MR. DENIS MAHER, Flatrock.—"I'll never be without a FERRO. My 7 1/2 is a beauty. Never out of order, and always ready to go the minute she is wanted."—nov19,tu,th,s.

More Light.
Our new 40 candle power lamp can supply more light at less cost than any other system of Artificial Lighting. This lamp is especially designed for use with our new ten-cent Slot Meter. Drop ten cents in the slot, and the lamp will run for 3 1/2 hours, giving a light of 40 candle power. The exhibition will be a large one and should attract much attention.

CAPT. RICHARD FOWLER.—"We took our 7 1/2 H. P. FERRO to Labrador this summer, and we never had a minute's trouble with it. It towed our trap skiffs and our 58 ton schooner 5 hours at a time at the rate of 4 miles an hour."—nov19,tu,th,s.
