FIGURES DO LIE.

Prices are only Relative

REGAL ENGINES are the highest priced engines, yet they are the cheapest.
They are the highest priced engines because they cost more to build. They are the cheapest engines, because they will last twice as long as any other engines.
They are also the cheapest engines because they save your time, and "Time is money."

If you shut your eyes to this real bargain in engines, you will be the sorriest fisherman who ever signed an order.
You will lose more money than you can afford to lose, and your oil bills will be twice as large.

REGAL ENGINES use less oil, have more power, run with less trouble and give more genuine satisfaction than any other engine on the market. We are in the near future, going to ask all cash for REGAL ENGINES, so buy one before we make this change, as we intend to make them the "Hall Mark" engines of Newfoundland.

We ship REGAL ENGINES complete with full book of instructions, and when once installed in your boat, any child can run one.

REGAL ENGINES are higher priced than other engines, but are the cheapest in the long run, because they run the longest.
