The Governor, Newfoundland:

The French artillery supported the action of the British fleet against coast batteries. Some progress was made east and southeast of Neuville, also in Champagne, north of Mesnil and at Massiges. Counter-attacks were repulsed at Artois and in Champagne. The total of the guns captured in Champagne is 121.
Russia reports minor successes at various points.

ABSENCE OF NEWS FROM BRITISH FRONT.

LONDON, Oct. 1.
Absence of news from the British front apparently indicates that these areas are occupied with consolidation of their positions in the strip of territory recently won. The British forces now in France are estimated at a round million men, which will be increased by 500,000.

CANADIAN SECOND DIVISION UNDER FIRE.

OTTAWA, Oct. 1.

THE BIG LOAN.

NEW YORK, Oct. 1.
Subscriptions amounting to \$385,000,000 appeared to be in sight on Thursday night towards the \$500,000,000 issue of joint Anglo-French bonds according to a declaration made to-day by the President of one of the largest National Banks in the city. This would leave \$135,000,000 to be taken. It was his opinion that day and to-morrow would see the entire amount placed.

Importers Discuss Closing Hours.

A meeting of the Importers' Association was held at the Board of Trade Rooms yesterday afternoon, Hon. Geo. Knowling, presiding. It was decided that the stores will not open at night during the month of October, and that arrangements for next month be made at a meeting to be held on the 28th inst. The question of closing the stores during meal hours was also introduced and after considerable discussion the matter was deferred for further consideration.

Another Operation Needed.

Mr. Geo. Day, of Marine and Fisheries Department, who underwent two operations at the General Hospital and had part of his leg amputated and who spent the past two months in Little Bay for the benefit of his health, returned to the city yesterday. Mr. Day expects to go back to hospital again to have another operation performed.

Good Words From Ottawa.

The report just published by the Inland Revenue Department, Ottawa, states that Dearborn's "Perfect" Baking Powder contained 13.7 per cent. of carbonic acid gas, which is a higher percentage than claimed for it. The report also states that "this is a good powder," pure and unadulterated. Don't pay fancy prices for baking powder when you can get the "Perfect" for 40c. per lb. Two teaspoons full will do the same work as three of other brands, and do it better.

EXPRESSES ASTONISHMENT.

BERLIN, Oct. 1.
The Berlin official world expressed astonishment at the speech of Sir Edward Grey regarding the Balkans, says the Overseas News Agency to-day, because it is considered he employed clumsy means of influencing the Balkan States when he declared that Germany desired to subjugate them. Such a statement is regarded as all the more surprising since England is the ally of Russia, and apparently had already promised that Russia should have possession of the Dardanelles. As a matter of fact it is pointed out here, no great power has more interest than Germany in seeing the Balkan States maintain complete independence.

GERMAN INFLUENCE.

LONDON, Oct. 1.
A despatch to Reuters' from Athens says: Latest advices from Sofia Bulgaria, point to German influence gaining ground daily. It is naturally concluded that chances of maintaining peace in the Balkans are remote.

Two Thousand Pounds For a Greyhound.

A very successful cat fancier bought his first Tom for a two-shilling piece, the American's "half-dollar." He has since won trophies innumerable and makes a handsome living by breeding show-cats. That 2s. has brought fabulous interest. Several of his kittens have fetched £50, and he has more than once refused £200 for a fine full-grown prize winner.
Canaries are not to be despised as pets of value and as good investments if the purchaser knows what's what. Seventy pounds is probably the outside price for one of the queens—or, rather, kings of song.
Some time ago £20 was refused for a canary only four months old, and £5 is actually a minimum price for the real article.
Of course, £2,000 would not at all ways suffice to buy a Waterloo Cup greyhound, but they are the race-horses among dogs and hardly count in the category of pets. But the owners of a dog shown at Cruik's would demand their weight in gold, and not improbably get it, before they would sell.

The body and sleeve in one idea has been carried out in garments of every sort, hence the busy sewer and home dressmaker, will welcome this mode in an apron that is not only simple but practical in that it covers most all of the dress worn underneath, and is easy to make because of few seams. The design is suitable for percale, alpaca, lawn, gingham, seersucker or chambray. The free edges could be scalloped and embroidered. Blue and white checked gingham, with handbags of white would be neat and would launder well. The pattern is cut in 3 sizes: Small, Medium and Large. It requires 3 1/2 yards of 36 inch material for a Medium size.
A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

A Nurse Should be Quite Independent.

A nurse should never have to rely upon help from the servants or from the mistress of the house, for her duties are always immediate and urgent, and much of her work must be done after the household as a whole has retired. If she is provided with modern gas appliances she will be independent of all outside help and can do her work efficiently without any undue labour.
A Gas Fire needs practically no attention, and saves all grate-cleaning, fire-laying, coal-carrying and replenishing.
A Gas Water Heater gives abundant hot water at the shortest notice at any hour of the day or night. An inverted incandescent Gas mantle gives a steady brilliant light that is most restful to the eyes of the patient.
A Gas Cooker needs no preparation, provides heat for several purposes at once, and can easily be installed in a room near the sick room.
In all long cases especially gas appliances are essential for good nursing.
Doctors recommend and use Gas Fires.

Why Waste Money

by putting it in a new Suit when UNGAR'S can take that soiled, spotted, shapeless one, and make it look like new, and at a such a moderate price?
It seems a pity to discard garments of good material—in fact it is extravagance when UNGAR'S can save you the price of a new Suit.
