Inter-Club Billiards.

MASONIC AND B.L.S. IN SECOND ROUND TO-NIGHT.

The opening game of the 2nd round of the Inter-Club Billiard Tournament between the Masonic and B.L.S. Clubs takes place to-night in the B.L.S. Club Rooms, when Flynn of the B.L.S. and Rabbitts, Masonic try conclusion. The B.L.S. is about 500 points behind on the first round, and now that the games are being played on their own tables a lively and interesting series of games should follow. The Irish team feel confident that they can reduce the Masonic lead and win out by a comfortable margin. With such well known cue artists as Flynn and Rabbitts in action, the best billiards of the series will, no doubt, be witnessed to-night. The schedule for the second round is as follows.

Tuesday, May 8th.
B.L.S. Masonic
9.00 p.m.—Flynn vs. Rabbitts.
Thursday, May 10th.
7.30 p.m.—Walsh vs. Angel.
9.00 p.m.—Mackler vs. Sellars.

At the Casino.

"THE NIGHT CAP" A SPLENDID SHOW.

Of all the plays so far produced by the Casino Stock Co. last night's performance of "The Night Cap" ranks amongst the best. The Night Cap is a mystery play and the interest of the audience never flags until the final curtain, and last night's audience are loud in their praise of this thrilling presentation. The players who are now all well known to the St. John's audiences, are winning new laurels at each new performance, and that the people appreciate the class of shows that Mr. Bentley is producing is a well known fact. Not only is the acting of the Casino Stock Co. the best that St. John's has ever seen; but the stage settings for each show are specially made, and as they were perfect in all previous shows, so were they for last night's performance. "The Night Cap" is a show that we recommend you to see, and what is more, we guarantee that you will not be disappointed. It will run for the balance of the week at the Casino.

Popular Official Resigns.

We regret to learn that Mr. W. H. Pike has resigned his position as despatcher at Bishop's Falls, as he was so capable of giving satisfaction to his operators and agents, and every operator and agent will surely miss him on the line. He has been despatcher at Bishop's Falls the last seven years being in the old emergency despatcher office for three years and therefore was senior despatcher at that place. The Superintendent will miss him considerably as he was more than attentive to his work and won esteem and good understanding from every operator along the line. All wish him good luck and prosperity in his undertaking.—Operator.

AT HOME.—Mrs. R. W. Miller will be "At Home" to her friends on Wednesday and Thursday, the 9th and 10th, from 3 p.m. to 6 p.m. at 5 Dick's Square.—may8.11

History of "Ours."

Editor Evening Telegram
Dear Sir—Some time ago I advertised in all the St. John's papers, asking for stories and reminiscences of the Regiment and 9th Division. The response has not been encouraging, and another appeal is being made by the G. W. V. A. Now that the elections are over I hope that ex-Servicemen will find time to answer the appeal as the authors of the Divisional history wish to have all copy in their hands before the close of June.

Yours sincerely,
T. NANGLE, C.F.

The Outlook is Dark.

FOR THE COMING FISHERY.

Now that the excitement incidental to the Election contest is subsiding and people's minds are given time to turn to other considerations the first thought that naturally obtrudes itself on public attention is, What of the coming Fishery? On this depends the whole commercial fabric of the country and the Humber-Deal or any other Deal will at best be only an auxiliary and a sideline industry. The Government used it as an opiate to stultify and delude the minds of the electorate and they evidently succeeded in inducing the voters to believe that it would be the panacea for all our commercial ills. We fear that in this there will be a rude awakening. Supplies for the fishery must be now and always will be in this country the great problem. At the present time the merchants who heretofore carried on this work and kept the industry going have very little heart to give out supplies. They see the menace of Cokerism looming in the distance as threatening as ever, and if they invest their money in supplying they know not what kind of legislation that this man of mad whims may enact that will again hamper them and bring down financial ruin upon their heads as he did in 1920. There is a threatened scheme called Nationalization of Fish in the back of his head, and as he will again hold the whip over the heads of the Government he will compel Squires to bow to his will as heretofore. His policy in the future as far the past will be to let the merchants take all the risks and give out supplies and in the end of the voyage having risked nothing himself or his Union to step in and say in effect: "I am glad that you kept my fishermen going. I will now step in take charge and control the sale and the price of your fish." There is no self-respecting merchant going to stand for this, and the probability of such occurring is the factor that will we fear make it impossible for the fishermen and planters who have no means of their own to get supplies this season. The outlook, therefore, is more gloomy to-day in Newfoundland than ever it was in our time. We know of several planters who have since the election decided to sell their schooners and fishing plant and clear out of the country. They see nothing but hard times and disaster ahead. There were hundreds of young men in the city and outports who were only waiting the result of this election to decide as to whether they would remain in the country or go away to the United States. They see no hope of making a living here in the future now that the Government has again been elected. The next sailing of the Red Cross boats will see a bigger exodus than ever. The old people tell us it reminds them of the sixties. In '64 the shops and houses on Water Street began to be vacated one by one, and by '68 you could get the best tenements on Water Street for paying only the ground rent. What came about by the operations of Nature and the failure of the fisheries then is now being brought about by bad Government; that is the only difference. The stores are becoming vacated one by one and the people are so disheartened that they are getting out of the business and leaving the country to save what little they have left. It is truly a gloomy outlook for poor old Newfoundland.

ONCE UPON A TIME.
Once upon a time there was laughter everywhere
And everything I looked upon was new and wondrous fair,
The world was trimmed with butter-cups and daisies, and the breeze
Sent the fleecy ships above me fairly dancing on the breeze;
And I possessed an orchard with full forty trees to climb,
And I was a little sailor suit, once upon a time.

ONCE UPON A TIME, though you'd never guess it now,
I had a dimple in my chin and curls upon my brow
And fairies used to play with me and show me where they hid
And I could share in all their games and everything they did;
I knew the pictures in the books and every nursery rhyme,
I used to ride a rocking horse, once upon a time.

ONCE UPON A TIME I had a dog to follow me
And we'd run off together just as happy as could be,
I used to know the summer birds and where their nests were made
And I could handle frogs and snakes and never was afraid;
I was as rich as any king with just a shiny dime
And I possessed a ball and bat, once upon a time.

ONCE UPON A TIME—oh dear, how far away it seems!
I played a very game you play and dreamed your lovely dreams.
But now I look so old to you, who are so very small,
That you can't quite believe that I was ever young at all!
Yet you shall learn, as I have learned, when you have passed the prime
How very rich and glad you were, once upon a time.

Spring tonics often and rightly take the form of alternative or blood purifying medicines, and mixtures containing Sarsaparilla, Mandrake, Burdock, Potassium, Iodide, etc., are typical and valuable blood purifiers and spring medicines. Such a remedy is Gault's Blood Purifier, which is designed especially for the purpose of cleansing the system of those waste matters which can scarcely fall to accumulate in the blood and intestines during the winter. Gault's appears to us to be one of the best formulas for a spring medicine that we have seen, and we recommend it with some confidence to those who feel heavy and languid during the spring as a cure for this condition.
