## Geography Has Its Limitations.

Geographers seem to agree that five oceans are plenty for this world. Therefore they don't mention the biggest one of the bunch—the Ocean of Prejudice.  
Prejudice used to be all against Unscented toilet soap. Highly perfumed soap with an odor that attracted loud attention, was the only toilet soap worth using. True, it cost a lot of money, and it wore away very quickly. But prejudice proclaimed it "the thing" and it was in popular demand.  
Procter & Gamble makers of Ivory Soap faced this prejudice, knowing that it just as soon as people realized that perfume was not necessary in toilet soap they would shout for Ivory. Experience during recent years has proved they were right for nearly all sensible and economical housewives now use IVORY soap almost exclusively in their homes. Ivory Soap costs only five, ten and fifteen cents a cake at most grocery stores.

## Health and Comfort in the Home.

Many a chill can be avoided by the wise use of heating with ever-ready gas stoves. An inset gas fire can easily be installed in any ordinary coal grate, and will provide the necessary warmth at any time.  
Gas Fires make no work. There is no Coal to carry upstairs, and no ashes to be cleared away. They are ideal for use in daintily appointed rooms. There is no smoke or dust. They also ventilate the room. Enquiries solicited.
