House of Assembly

(Continued from page 10.)

Mr. Goodridge wrote and told him that our cod liver oil was much better than the Norwegian oil, and consequently Mr. Johnson came here. He came down here and he got very little encouragement from the past Government. But when he came down last year, we took hold of him, and gave him all the help that we could, and the result is that we have an order for twelve thousand gallons of Newfoundland Cod Liver Oil. Barious suggestions were made to Mr. Johnson during the past six months such as shipping oil in larger casks and those not tin lined. As a result the price was brought up from sixty cents to \$1.00 per gallon. The Department now has a man in the U.S.A. in connection with the oil business, and he states that one hundred and fifty thousand gallons of Newfoundland Cod Liver Oil will be wanted this year.

Coming down to the fishery itself, he said more could be done with our codfishery, and it is going to be done. We have been shipping the codfish out of our country in the same old way for the last hundred years, now we are going to try and have it shipped in better condition. He asked what you find with every other country—what does every merchant do? He has his agents out. The Norwegian government has agents all over the world and that is what we must do. It is not because one man gave a thing a trial and made a failure of it, that another man cannot take it up and make a good thing out of it. We must exploit Newfoundland, and try to develop our fisheries, and we have to place our products on different markets in the world. He felt sure Mr. Monroe is prepared to do anything that he is convinced will be for the uplift of this country, and once it is proved to him that it is going to be beneficial to the country—he will go to the limits. Referring to the herring fishery he said, previous governments did a lot about Scotch Cure herring but many people say that the Scotch Cure herring are not put up as they ought to be. We have complaints every day in the department in this connection. This year there are about 35 licensed parties packing Scotch Cure. If every barrel were to go out properly of course it would be

inspected by the man of the department. But it must be remembered that we have only six inspectors for both cod and herring and three of them are too old to be sent out of town so that we really have only three. Now how can the product of 68 packers be properly inspected by three men. Unless the inspector stays on a premises all day he cannot carry out the inspection properly. In some cases if he leaves after inspecting a few barrels the work of packing will still be carried on properly and in accordance with the regulations but in other cases it will not be. Unless we have more inspectors and the work of packing is confined to central packing houses, it will be impossible to control it. It is the intention of the Fishery Board to recommend central packing plants so as to get better results. He had been told by Mr. Taylor of Fleetwood that there would be no trouble in selling a million barrels herring to Russia this summer. He (Mr. Taylor) said if we did not do it he would. He wrote him a few days ago. And he (Capt. Winsor) was told that he had already shipped 200,000 barrels at a profit. Capt. Winsor claimed that if Mr. Taylor could sell the herring at a profit we could do likewise provided we did not have to pay 50 cents freight from Springdale and freight rates across the Atlantic were reduced. He believed we should have inspectors for split herring as well as for Scotch Cure.

At 6:30 p.m. recess was taken until 8 p.m.

NIGHT SESSION.

When the House assembled after recess the chairman resumed the chair and Capt. Winsor continued his address on the fisheries. Mr. Duff, Mr. Grimes, Mr. Hickman, Mr. Ashbourne, Mr. Halford also expressed their views on the subject after which the vote for the Marine and Fisheries Department passed.

MR. W. J. WALESH on the motion for adjournment referred to the condition of many of our fellow countrymen in the coal areas in Nova Scotia, occasioned by the strike there. He strongly urged that something be done to show our sympathy to the starving people.

Adjournment was taken at midnight until the usual hour to-day.

IN THE REALMS OF SPORT

NURMI FAILED TO MAKE NEW RECORD.

NEW YORK, March 25.—Paavo Nurmi, saying farewell to the board tracks of New York, on which he has established more than a score of records, failed by half a minute last night, to equal his time for one and one-half miles.

Nurmi's race featured the 224th Coast Artillery Meet. Jimmy Connolly, only other entrant of prominence, was left a half lap behind and Paavo proved, despite his poor time, that he has recovered fully from the attack which made him quit last week in a race at 5,000 metres against Willis Ritola.

WITH THE BOXERS.

NEW YORK, March 25.—Sir Terrie, New York lightweight, was given a decision over Lew Paluso, of Salt Lake City, in a ten round bout here last night.

YOUNGSTOWN, Ohio, March 26.—Danny Kramer, of Philadelphia, knocked out Eddie Wygant, Newcastle, featherweight, in the third round of a scheduled 12-round bout here last night.

LOS ANGELES, March 26.—George Godfrey, negro heavyweight, yesterday challenged the world in general and Harry Wills, Tommy Gibbons and Jack Dempsey in particular, in a telegram to the New York State Athletic Commission, sent by his manager, Jimmy Dougherty.

OAKLAND, Calif., March 25.—Jimmy Delaney, St. Paul lightweight, stopped Fred Sullivan, Oakland, in the fourth round of a scheduled eight-round contest here last night.

RE JOHNNY DUNDEE.

PARIS, March 26.—The French Boxing Federation officials to-day expressed great surprise that Johnny Dundee had been permitted to engage in a boxing bout in the United States before the French Federation's suspension on him was lifted, and are calling the boxing authorities in America for additional details.

[Dundee, on March 25, fought a ten-round bout, in Boston, against Red Chapman. He was suspended by the French Federation for failing to remain in France some time ago to fight Fred Bretonnel.]

GREB BEATEN ON POINTS BY TUNNEY.

The American Light-Heavyweight Champion Outpointed Middleweight King in No-Decision Bout.

ST. PAUL, Minn., March 27.—Gene Tunney, of New York, American light-heavyweight champion, defeated Harry Greb, of Pittsburgh, former holder of the title, and present world's middleweight champion, in a ten-round, no-decision contest here to-night.

Neither title was at stake, but the two men, who met to-night for the fifth time, were in great shape and their exhibitions were as strenuous as if the two titles were at stake. In the five fights, Greb has won one, one was a draw and Tunney took three.

By reason of his victory, Tunney will probably get his much desired match with Tommy Gibbons, outstanding light-heavyweight in the world, and challenger for Jack Dempsey's heavyweight championship.

Newspaper experts at the ringside gave Tunney six of the ten rounds. Tunney won because of his slashing body attack, forcing the Pittsburgh "windmill" to wince and break ground under a terrific bombardment of short rights and lefts.

Greb, 13½ pounds lighter than his opponent, started out in characteristic fashion, plastering Tunney with sweeping blows to the head.

The next few rounds were fairly even, but early in the third Tunney began to get in heavy body blows on the Pittsburgher, wearing him down. Greb was cautioned for holding in the clinches and wrestling Tunney to the ropes to escape punishment.

It was not until the seventh that it became apparent that the lighter man was tiring. In this round Greb landed only two punches and Tunney drove him around the ring with terrific punishment to the chest and mid-section. Greb's leads either missed or fell short and as he came in his opponent landed hard rights and lefts throughout the round.

The fight attracted a crowd that filled the auditorium to standing room capacity, the attendance being around 8,000 and the receipts about \$25,000. Tom Gibbons, the St. Paul heavyweight, who may be matched to meet Tunney in New York, June 12, occupied a ringside seat to get a close-up of his prospective opponent in action.

Gibbons also watched Greb intently as it was this famous Pittsburgher who defeated him in a decision contest in New York before Gibbons became a heavyweight championship contender.

Tunney weighed in at 181 pounds, while Greb tipped the beam at 167½ pounds.

SPORTING MEN FAVOUR FIGHT BETWEEN GENE TUNNEY AND WILLS.

NEW YORK, March 25.—Jack Dempsey, so-called heavyweight champion of the world, never will fight Harry Wills, negro challenger, no matter how great the financial inducements may be. This is the prevalent opinion of prominent and well-informed sporting men all over the United States.

Instead of readily accepting Wills' latest challenge and covering his \$2,000 forfeit, posted with the New York Boxing Commission, Dempsey and his manager, Jack Kearns, deliberately sidestepping the proposed match which the negro has been seeking for nearly five years.

Dempsey signed a movie contract last Monday, which will keep him out of the ring until some time next fall or winter. He made this engagement after receiving the Boxing Commission's peremptory order to accept Wills' challenge within a time limit of fifteen days, which expires tomorrow.

Kearns, meanwhile, has followed his numerous objections to the Commission's mandate with a statement that Dempsey will not defend his precious title in a bout with Wills, unless the latter first defeats Tom Gibbons. The champion's manager evidently believes that Gibbons can be used to kill more valuable time. As Dempsey is afraid to try conclusions with the patient Scotsman and probably intends to retire without a reappearance in the ring, the logical opponent for Wills seems to be Gene Tunney instead of Gibbons.

Gibbons never has boxed Tunney and has refused a \$75,000 guaranty for an outdoor fight with him. Tunney, now a full fledged heavyweight, recently offered to fight Dempsey in the place of Gibbons or Renault, but received no reply either from the champion or Kearns.

In a clash with Wills, Tunney probably would put up a stronger argument than Gibbons, who is four inches shorter than the holder of the American light-heavyweight title and considerably lighter. Wills, at that, would have an advantage of nearly thirty pounds over Tunney, also about two inches in height.

Wills would be justified in commanding Gibbons to settle his differences with Tunney before asking for a match supposed to produce Dempsey's next antagonist, if any.

The Boxing Commission has given plenty of time to Dempsey and Kearns to show exactly where they stand. If the champion and his manager fail to accept the match with Wills before twelve o'clock to-morrow night the Commission probably will refuse to license them to operate in this State. In that event, Wills' doubts will be convinced that Dempsey wants no part of his game. The negro then will be free to arrange a contest with Tunney or Gibbons, preferably the former, who is unable to drag the St. Paul man into the ring with a team of oxen.

NO OUTDOOR MEETS FOR PAAYO NURMI.

Will Race in England—Olympic Champion Will Run in the Boston Marathon.

NEW YORK, March 27.—Hugo Quist, manager and advisor of Paavo Nurmi, has announced that his charge positively would not compete in outdoor meets following his return from the Pacific Coast, early in May. When questioned regarding Nurmi's probable attempt for a new mile mark on the Harvard Stadium track, competition in college triangular meets, and meeting Ritola in the Yankee stadium, Quist declared that there was nothing to the talk.

"Nurmi will go to England for races there," Quist said, "and he does not care to compete in races here after such a hard indoor and early spring campaign. He likes running in Europe and if he goes there I don't know whether he'll come back here or not. That is up to him."

When asked what Nurmi would do following his return here in May, since he was not due in England until July, Quist said that there was a possibility of his responding to invitations tendered by France, Sweden and Germany. Quist said that athletics on the continent were far different from competition here. He said that Nurmi would not run so often in Europe, but that his performances would be much better. The Finn's manager denied that he would accompany Nurmi to Europe, for the runner knows the continent like a book.

It was learned yesterday that Hugo Quist plans to revive interest in distance running in this country, and to raise it to a popularity it never has known before. Quist's next importation to these shores will be Adolf Oscar Stenrose, winner of the Olympic Marathon at Paris last summer.

After competing in the Boston Marathon on Monday, April 20, which this year will be the national championship event, Quist plans to have a series of long-distance races built around the Finnish veteran. These races will be divided into classes for

runners between the age of twenty and thirty years, thirty and forty years and forty and fifty years. Interest in distance running is bound to quicken since this sort of competition, based on the Finnish system of training, will bring out veteran runners in semi-retirement to-day simply because they dislike the idea of competing with youngsters whom they cannot defeat.

Stenrose finished third to Hannes Kohlenstein and Tewanima in the 10,000 meter race at Stockholm in 1912, and he is now well over forty years old. His competition in this country would do more to bring out timers into competition and to quicken interest in long-distance running among the younger athletes than anything else the Amateur Athletic Union could do.

The Best Advertising Medium

Newfoundland

Mr. Wm. Wrigley, Jr., the chewing gum king, of Chicago, in explaining the rapid growth of his company, said it was all due to advertising. "But," interrupted one of his friends, travelling with him to the Pacific Coast, "you have already built up a remarkable business. Why not save some of this advertising money and run along on momentum for a while?" "Well," Mr. Wrigley said, "we have had a fine, fast trip West from Chicago so far. How much progress do you think we would make if they took off the engine?"
