Eyes are Seldom Mates

After middle life, and frequent y earlier, the eyes are apt to be of unequal strength. If this inequality is not corrected, the weaker eye will be overworked and be thus made

weaker still. This shows the necessity of always having each eye separately

examined. We fit spectacles that will cor rect every defect of vision and strengthen weak eyes.

SUIT CHANCE Of the Year

Here we have the courage to lose in order to carry out the principles of the business. One of the rules affected this stock of clothing. It is too high. The order is to get it down to make room for spring stock. It means for you "to buy now" for selling as we are doing means depleted stock in a very short time, the choice is still good but the buying time has come, there is little use of waiting a day longer, tomorrow is second best by today. You have nothing to lose save by delay.
