water-logged. MR. BLAKE'S STRATHROY SPEECH

London, Nov. 30.-Much doubt is shown in Irish circles upon the interpretation put upon Mr. Blake's Strathroy speech, that he intended retiring from Irish politics. Timothy Healy's Dublin Journal throws its cap in the air over the supposed desertion.

John Dillon says that the "rats are leaving the sinking ship." Mr. Dillon's journals make no comment, but it is understood in Irish circles here that Mr. Blake merely referred to his longcherished hopes to again ultimately live in Canada. It is not thought he can intend to retire immediately, leaving the Irish ranks in the middle of the battle, and on the eve of important Irish legislation before Parliament. His retirement would be a heavy

blow to Mr. Dillon. WILL AVOID A CONFLICT. London, Nov. 30 .- The Daily Graphic makes prominent an announcement, which, it claims, represents the views of the government as to the Anglo-French complications in the Nikki It says: "Great Britain will carefully avoid imitating the French policy of effective occupation in the disputed territory of the Lagos hinterland. Although a small French force has occopied Kishi, a disputed town, no attempt will be made to dislodge them, pending the discussion as to the boundaries now in progress in Paris. The British force is being collected in the north of Lagos only to be ready for the occupation and organization of the Borgu district, which, it is expected. will be included in the British sphere as a result of the Paris conference."

GERMANY'S DEMANDS ON CHINA. London, Nov. 30.-Inquiries made in Chinese official circles at Pekin confirm the statements contained in dispatches from Shanghai giving the substance of king, German minister to China. Germany, as already stated, asked for the discovery and execution of the murderers of the missionaries, Nies and Hennle, the punishment of the implicated officials, the reconstruction of the missionary buildings, the payment of an indemnity of 600,000 taels to the relatives of the victims, the payment of a heavy indemnity to cover the expenses of the German naval expedition, and the maintenance of the German force at Kiao Chau Bay, the railroad monopoly of the Shan Tung Province, and the occupation of Kiao Chau Bay as a German coaling station. China will resist the demands of Germany, but will express willingness der of the missionaries and for the damage done to the mission property. Russia, it is understood, is not yet helping China, but the latter country has decided not to provoke hostilities. and to trust to diplomacy for a settlement of the difficulty which has arisen in connection with the mission out

where the Progressives have dominated at the polls.

Mr. J. R. Diggle, the leader of the most influential member of the school board, has been defeated in the Maryle-

bone district. The issues were somewhat involved, and the Moderates, who are, generally speaking, the church party, were divided into two camps, under leaders whose personal ambitions and special controversies resulted in incessant bickerings for some months before the elections. The Tory press, which has supported the condidates of the Moderates, repeatedly warned them that the results of the quarrelings of their leaders would be to confuse the minds of the voters, and to incline many either to vote the Progressive ticket or to stay away from the polls.

who have predicted favorable results from proper methods of transportation. Mr. Crandall's inspection of the shipment makes it very clear that cargoes arriving by the system of cold storage will meet with marked preference in the British market. Some varieties of Canadian apples are not arriving in good condition. Especially is this so of Northern Spys, which show signs of spot scab, resulting in early decay. For this reason there is a slump in prices. In the Castalia's shipment, cases of apples averaging 40 pounds in weight, sold for 5s to 8s 6d, and the barrels at 19s to 20s. Pears brought from 10s 6d to 23s per case, according to quality. Mr. Crandall has visited many places and inquired as to the possibility of developing trade with Canada. Are Affected.

Washington, Nov. 30.—Commercial to the state department, has given a great deal of general information concerning the recent notice of England to terminate the commercial treaty that negotiations have been entered into at the instigation of Great Britain for a new treaty. The commerce beprises nearly 25 per cent of the latter's trade. Germany's exports to Great Britain proper in 1896 were valued at \$169,932,000, and to the British colonies. \$26,418,000. The great amount of trade, he says, is due to the treaty of most favored nations, existing between Germany and England and her colonies. The treaty about to be terminated conceded to German trade the enjoyment of any concession or privilege granted to the colonies of Great Britain or to

the mother country by the colonies. Germany does not have the same advantages with the Dutch, French or Spanish colonies. The relations of the three latter mother countries to their colonies is much closer in the matter of trade than England has with hers. Referring to the fact that Canada has recently made concessions in her tariff to English goods, and after expressing the opinion that there is no doubt that other English colonies will soon follow the demands made by Baron Von Hey- Canada, Mr. Stern says: "Great Britain Northwest Suffering From a Continwill then be obliged to make concessions

in her turn and alter her customs law in such a way that certain products of her colonies may be imported into able conditions than the corresponding products of other countries. This would be carrying into effect the plan to amalgamate all parts of the British Empire into one customs union."
