GORE VALL FOOTBALL CLUB.

About Toronto League Champions— Perhaps the strongest in Canada. The defeat of Varsity to the Gore Vales on Saturday brought to a close the most successful football year in the history of the Gore Vales Club. In view of the position which the club has held in all probability the strongest Association football combination in Canada, a short synopsis of its history may prove interesting to old footballers and encouraging to those young and intermediate players who are struggling in the face of inevitable defeat. The Gore Vales number among their ranks some of the greatest players in the province. They have ever possessed, but they owe their present success as much to the excellent manner in which the club has been administered as to the ability of their players.

Commencing as juniors, the Gore Vales first battled against the Kensington team, then at the zenith of its fame as a junior organization. Although several games were played, the result was unsatisfactory to both teams. When the Junior League was organized a new team appeared upon the football horizon and swept everything before it. Like all meteors, the career of the Canadian Rover football team was short and brilliant. The Gore Vales were unable to cope successfully with this team, but were not discouraged, plodding steadily and doggedly along. From the Junior League they advanced to the Intermediate League, met the Canadian Rovers still confronted them at every turn; not until both clubs entered the senior league did the Gore Vales start to come to their own. They have steadily fought their way from near the foot of the ladder of the Toronto Football League, and have now reached the top-most cross-bar. The intermediate team always was a good one, although not at the top of the list. The constant drafts from this team to fill the vacancies in the senior league were very uncertain, and consequently first-class work by the latter team was made impossible. The club roll contains some 200 names, half of which have been added during the past year. Connected with the Gore Vales club are senior and intermediate football teams, a Soccer Club and a Hockey Club. Officers for 1925 are: President, J. L. Starr, B.A., LL.B.; president, J. Proctor, vice-president, J. L. Starr, secretary, F. C. Bulmer, intermediate secretary, W. Proctor, senior captain, F. E. Little, intermediate captain, J. Orr, senior vice-captain, T. Singer, secretary, Social Club, F. Wright.

ROSEDALE'S 4000 RUNS.

Lyon leads the Batmen and Martin the Bowlers.

Rosedale cricketers occupy first place among Canadian clubs. For last season in scoring runs. A total of over 4000 were made in all matches. George S. Lyon alone scored over 700, which includes his Canadian record of 238, not out, against Peterboro.

These runs were spread over 31 innings, which gives the club an average of about 135 per innings—more than a record for any club in the world. In batting the club is much superior to bowling. In this department, the first five men being as follows:

George S. Lyon	700
J. H. Forrester	292
H. J. Howard	206
J. B. Bowditch	18
J. Clement	18
J. E. Martin	18

With the presence of a first-class position next summer the Rosedaleians will increase their membership considerably, and the influx is expected to bring in two or three bowlers and give the team their chief obstacle. Rosedale won a small majority of all their matches played last year.

Winnipeg Hockeyists Coming.

Winnipeg, Dec. 24.—The Victoria Hockey Club has decided to take an eastern trip, which will probably commence on Jan. 20 and will occupy about three weeks. The first match will be played either in Ottawa or in Montreal, and a possible schedule would run about as follows: Two matches in Montreal, one in Ottawa, two in Toronto and one in Quebec. The team will be captained by Higginbotham, Platt, Howard, Campbell, Armstrong and Fleet.

Dr. Price's is known everywhere as the good luck bringing powder of the Nineteenth Century.

The Frenchman Was Tricky.

New York, Dec. 22.—The billiard tournament between Gallager and Fournell ended tonight. The Frenchman won more easily than the score would imply. Fournell consumed 31 minutes in making 500 points, and the work was of the sort that a tricky player might adopt who was looking forward to secure good odds in future matches. After the game Fournell and Gallager were matched to play another tournament early in January, Fournell conceding the Jersey man 500 points in a game of 500. Fournell's score to date was 500, grand total 3000, average 16.31, best run 159, and Gallager's score 320, grand total 1427, best run 41.

Sutton to the 5200.

Montreal, Que., Dec. 24.—In the billiard match to-night for \$200 Sutton defeated Crevier by 500 to 371. Sutton's average was 11.4-1.

CANADA'S CHAMPION RUNNER.

George W. Orton Talks About Athletic and Games at Philadelphia—These International Contests.

George W. Orton, the champion long distance runner in America, is at present in the city on a week's holiday visit to his parents. As everyone knows Mr. Orton is now at the University of Pennsylvania, where he has already secured the degree of M.A. and is now preparing for his Ph.D. He also has Toronto University's B.A. Life is pleasant for the scholarly athlete in Philadelphia, where his spare moments are pleasantly spent in his necessary training.

Mr. Orton's last race was two weeks ago in a class event, when he was, of course, successful. He feels proud of his 5-mile steptochase record on Thanksgiving Day. His next contest will be at the indoor meet in Boston, on Feb. 9. He would like to see the London race in that city. He guarantees all expenses he fears they will not come. It would be a great honor for him to represent England and America's champion runner, though the odds would be against him. Orton promises to attend the fall championship game with the N.Y.A.C. will prevent him from competing in the spring game at Montreal. George is very proud of U.O.P. progress on the field, and says his school has equal claims to the title of first football honors. He saw all the big contests and considers the Canadian game superior to that of the American colleges. Everyone naturally prefers the open play of the Canadian side to the marionette movements of Uncle Sam's college cracker. The big contest of the open play of Pennsylvania and Cornell Orton says that the Illinois contest is entitled to represent America in the eight in England, and that Yale, much less his own college, has no business in the Thames rowing world.

A Record Run to Weston and Back.

Taking advantage of the comparatively good condition of the roads, Walter J. Laker, the Upper Canada College cross-country champion, with Billy Martin on a wheel as pace-maker, made a record Saturday between Toronto and Weston and back that is said to be the longest ever run in the city. Starting at 7.15 a.m. from the starting point, the boys did not reach the starting point until 1.15 p.m. on Saturday. The run was made in 2 hours 15 minutes, which is very creditable indeed, taking into account the fact that the route of the country traversed into consideration. Laker's intention on Saturday was to make a record from Aurora to Toronto, some 30 miles, but could not get a bicycle man ambitious enough to travel with him. Laker is a very competent young fellow in long-distance runs, and is very anxious to maintain the fame of Toronto in the branch of athletics. A young fellow like him on the other side would be taken up by some of the athletic clubs. What is the matter with one of the local clubs encouraging him for next season's championship?

THE CUP DEFENDERS.

Will Uncle Sam's Craft Retain the Prize From Peterboro's Representatives?

New York, Dec. 24.—The yachting outlook is unchanged. It still rests with the Royal Yacht Squadron whether or not they will be a race for the America Cup in 1925. There is no money yachtsmen on hand to-day, but the few who were in town spoke openly of cup defenders. They appeared to think that the Royal Yacht Squadron would certainly rally Lord Dunsarven's challenge as accepted by the New York Yacht Club through the America Cup Committee.

The New York Cup Committee's labors are nearly at an end. It is doubtful if they will go into serious work until the Royal Yacht Squadron's decision, which will be reached at the special meeting on Jan. 7, is received. The boats that are counted upon as cup defenders are Vigilant, Columbia, Jubilee, Navarino and one or two others yet to be built. Vigilant is now in England. No plan is as yet made to induce Mr. George Dunsarven to have his boat brought over and race in line with the others. Of the new boats but little is known. A syndicate of about twenty owners of the Vigilant. Nothing definite, however, will be known until a race is decided upon. The Herreshoff have been asked how soon they could have a boat ready to race, which has been received that they could have one ready to race in from four and a half to five months. It is thought that this company will be called upon to build two boats. One New York yachtman has said that as soon as the Vigilant is finally that there will be a race he will go ahead and build and form a syndicate afterwards.

The Chief Chemist of the U. S. Department of Agriculture, as head of the World's Fair Jury, conferred the highest award on Dr. Price's Baking Powder.

The 35 Racing Wheels.

Racing wheels next year will, for the most part, be equipped with 20-inch wheels. It is generally admitted among the cracks that the 20-inch wheel is the best on the ground the more power and speed can be obtained. This will necessitate the shortening of the wheel to 19.5 inches. These changes have been found expedient, owing to the fact that with the 19-inch wheel, which has been the fashion for the past season, a strained attitude is given to the rider.

The Hounds will have a Christmas meet to-day at Macfarlane's, on the Vaughan Road, at 2.30 p. m.

If a dog has done you an injury don't shoot it, but see for damages. A Miss Trevelyan's dog was bitten by a dog on the leg and arm. Last week she brought suit for damages and was awarded \$2500 by a sympathetic jury.

Last year 26 people were killed in America as a consequence of playing football. During the 112 years ending Dec. 24, 1894, there has not been that number of men killed either in the ring or in the arena, and the sequel of a fight argument between the boxes if there has been a no chronicle of such—Buffalo News.

There is a movement on foot on the part of the Toronto Checkers Club for a match game by telegraph with the Buffalo club. The idea is to select a team of three or more players from each club and to have the games played simultaneously.

Kneeb's Returning From the Scenes of His Reverses in Germany—He's After \$25,000.

New York, Dec. 23.—One of the last to leave the Curander Locomotive yesterday morning was Bob Kneeb's. The American turfman, who was arrested by the German authorities and thrown into prison for alleged ringing of trotting races on German notables on the Harz and Berlin courses. When Kneeb was interviewed to-day he indignantly denied the truth of the assertions made by his former partner, Orrin F. Heller of Boston, Ohio, who furnished the principal testimony against him.

Kneeb's came to this country for affidavits and testimony to present to the authorities in Berlin, where his case is now pending. The principal case against him is that of the Bethel. According to Heller, Bethel (216 1-2) is the property of Kneeb, and was sent to Europe for the express purpose of "ringing" her on the English, French and German tracks. The alleged scheme was carried out in December, 1898, when Kneeb was short of money. Heller was to foot the freight charges and Kneeb was to return half the profits of the trip if the horses were shipped and certificates secured. Heller, however, refused to return half the profits, and Kneeb, who was then in London, was obliged to sue Heller for the amount of \$1000. This brought on a quarrel, and Heller got the worst of it. Then he started the tremendous suit against Kneeb, who says he will first establish his innocence and then sue his prosecutor.

Secley Gets Eight Years.

New York, Dec. 24.—Samuel C. Secley, the defaulting bookkeeper of the National Shoe and Leather Bank, pleaded guilty to a grand jury indictment against him for defrauding the bank, was arraigned by Judge Benedict in the United States Court to-day. He is to be sentenced, and given eight years in the Kings County Penitentiary.

Flonast as Syrup.

Mr. Douglas Ford, Toronto, Ont., states that he has been cured of a severe cold by the use of Dr. Price's Baking Powder. He was afflicted with a severe cold and a headache, and was unable to get any rest. He had been using various remedies, but to no avail. He then tried Dr. Price's Baking Powder, and was cured in a few days. He writes: "I am pleased to say that Dr. Price's Baking Powder has been used by me for years, both internally and externally, and it has always given me the most beneficial results. It is our family medicine, and I take great pleasure in recommending it to all my friends."

A SCHOOL GIRL ABDUCTED.

Mysterious Disappearance of An Eight-Year Child Near Peterboro.

Peterboro, Dec. 24.—Friday afternoon Ella Hancock, the 8-year-old daughter of Mr. James Hancock, Dorco, left her school near the Lakeland town hall, for home, when the school was dismissed at 4 o'clock. She was seen at 4 o'clock, near the school, by D. Deane's place, southeast of the village, and at this point was accompanied by a number of her schoolmates. This was the last that was seen of the little girl, though Mr. Deane's recollection is only that she was seen at 4 o'clock. She was seen at 4 o'clock, near the school, by D. ANXIETY IN EGYPT.

According to the latest advices from Egypt, the authorities are extremely anxious about the economic situation. It seems certain that cultivation cannot continue to pay the present rates of land tax, which constitutes nearly half the annual revenue. The value of land has steadily fallen considerably in the Delta, where the lower prices have forced growers to increase their cotton areas, this being the only crop which appears to be doing well. In these circumstances the soil must gradually become impoverished. The general opinion appears to be that something must be done to lighten the burden that now crushes the agriculturists. One correspondent writes: "The inevitable result of unprofitable farming is to force the grower into borrowing at ruinous rates, which ends in his land becoming the property of his foreign creditor, as occurred during the reign of Ismail. When this happens, the foreign creditor which has been afforded to the fellah in late years, in the way of enabling him to pay off his debt, becomes a burden to the grower. The grower loses his land, and the grower loses his land, and the grower loses his land."

Rheumatism Cured.

"In July last I was taken with rheumatism in its worst form. Local physicians were called in, but they did not give me any relief. I was advised to give Hood's Sarsaparilla a trial, which I did. It took great pleasure in stating that two bottles gave marked relief. Continuing to use Hood's Sarsaparilla daily with the medicine, I was completely cured. I am now cured of my rheumatism. I cannot recommend Hood's Sarsaparilla too highly. It is a wonderful medicine for all ailments of the blood, and for all ailments of the blood, and for all ailments of the blood."
