Storr & Co., Here the house of announcing to their patrons and the inhabitants of St. Andrews ERYSIPELAS of eight years cured! generally, that they are now prepaled to copy of a Letter from Geo. Sinclair, Esq. of Paris, Canada, dated the 18th July. VARIED AND EXTENSIVE STOCK. To Professor Holloway, than ever they were in a position to offer before.

Profiting by their experience, they have have derived by the use of your inestimates

nal and comprete assortment of every street intuing with your meetens, in the best of tached a large Garden. Possession give necessary to the stock of a first class Wool pletely cured, and now enjoy the best of 1st May next. Apply to less House. All orders left with them will health. The truth of this statement is well G. F. CAMPBELL. of faithfully executed under the superinten. known here, hence there is no necessity St. Andrews, 26th March, 1855. dence of a cutter of first rate talent and ex-

The Subscribers beg to return their sincere thanks for the very flattering encouragement they have received since commen. cing business, and to assure their customers, they will spare no endeavors to deserve a continuance of those favors so liberally be-R STORR & CO.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

TERRIE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have aone of the objections; but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acriménious and irritating to the bow. This is not. Many of thesp produce so much with what success we would respectfully submit to the patient hitherto that almost every purgative medicine is acrimentous and irritating to the howests. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, andess it arise from a previously existing obstruction of derangement in the bowels. Being purely regetable, no harin can arise from their use in any quantity; but it is better that any medicine should to taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the compliants which have been speedly cured by them, we may mention liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, I saltesaness, Irritability, Blitous Headache, Billous Fever, Fever and Ague, Pain in the Sidemal Loins; for, in truth, all these are but the consequence of diseased action in the liver. Man appetient, they afford prompt and sure relief in Costineness, Pilec, Colic, Dysentery, Humors, Scrottland and Scurry, Colds with soreness of the body. Thoese and impurity of the blood; in short, any and every ones where a purgative is required.

They have also produced some singularly successful cures in Rheumantism, Gout, Dropsy, Gravel, Brythelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons An occasional dose stimulantes the stomach and sessional dose stimulantes che stomach and the wated of diseased cannot be annuerated here, but howels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, riporvate the settrength of the body, and restore the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, riporvate the settrength o

A BAD BREAST CURED WHEN AT DEATH'S DOOR!! of a Letter from Mr Henry Malden of Three Rivers, Canada West, dated

July 9th, 1854. To Protessor Holloway, Sir,-My wife suffered most severely after the birth of our last child with a bad breast. There were several holes in it, one as large as a hand; all the devices and stratagents I cried would not heal them, but assumed an assect more frightful than before, and horthie to behold. As a last resource I tried your continent and pills, which she perseered with for seven weeks, at the expiration f , hat time her breast was aimost well; by co. tin ing with your remedies for two mor weeks, she was entirely cured, and we offer you our united thanks for the cure effect

I am, Sir yours truly, (Signed) HENRY MALDEN.

The Subscriber offers for sale a valuable furnish them with articles of the newest furnish them with articles of the newest furnish them with articles of the newest sir, -I desire to add my testimony to supplied with.

Sir, -My sister, Miss Jane Tomkinson.

Sir, -My sister, Miss Jane Tomkinson. The Subscriber offers for sale a valuable of St, Patrick, formerly known as the Wilson farm, and adjoining E. McElroy's, consupplied with.

Sir,—My sister, Miss Jane Tomkinson.
Suffered for a great number of years from a cores of which are cleared, and under cut, bad leg; in which there were several deeply seated and old wounds, defying the skill of some of the most eminent of the meatest of which are cleared, and under cut, it will of some of the most eminent of the meatest of which are cleared, and under cut, it will of some of the most eminent of the meatest of which are cleared, and under cut, it will only a variety of remedies were also used ansuccessfully; and it seemed to me that there was not any thing capable of mitigating the agonies she endured. At length, she had recourse to your Ointment and pills, and afer using them for about five

AYER'S PILLS.

A NEW and singularly successful remedy for the A cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, ever few are the diseases in which a Pragrative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates scrious and often fand diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all load to become or produce the deep sested and formidable distempers which lead the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to mer; that demand, and extensive trail of its virtues by Physicians, Professors, and Patieste, has shown results surpassing anything hitherto fanown of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Annon the eminent gentlemen to whom we are allowed to refer for these facts, are Prof. VALENTIXE MOTT, the distinguished Surgeon of New York City.

Boot, A. A. HAYES, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ina L. Moore, M. D., an eminent Surgeon and

Poet. A. Haves, Fractical Chemist of Massachusetts.

In A. L. Moone, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, E.g., one of the first merchants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred such anuaes, from all parts where the Fills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Fills, the results of long investigation and sindy, are offered to the public as the best and most complete which the present-state of medical science can afferd. They are compounded not of the drug it formselves, but of the medicand virtues only of Vegetale remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insere the best results. This aystem of composition for medicanes has been found in the Cherry Pectoral and Fills both, to produce a more efficient remedy than hash subtracted form of the converse of the process. The reason is perfectly obvious. Walte by the old mode of composition, every medicine is burdened with more or less of acromonious and injurious qualities; by this, each individual vistue only that is desired for the curative effect in present. All the hier and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have supplied the accurate virtues only being retained. Hence it is self-evident the effect should prove as they have supplied the accurate Formula by which both my Prescrat and Fills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medienes that are offered, how the subject,
