

Nothing Else is Aspirin—say "Bayer"

Warning! Unless you see name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances? Accept only an unbroken "Bayer" package which contains directions worked out by physicians during 21 years and proved safe for millions for Colds, Headache, Earache, Toothache, Neuralgia, Rheumatism, Neuritis, Lumbago, and Pain. Made in Canada. All druggists sell Bayer Tablets of

Aspirin in handy tin boxes of 12 tablets, and in bottles of 24 and 100. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocetate of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

UNEMPLOYMENT IS ON INCREASE IN THE PROVINCE

In the experience of the Nova Scotia Employment Service, March is the "slack water" month between winter and summer seasons. In other words, the employers make less demands upon the service for workers during March than in any other month.

During the month, however, the four services effected six hundred and one placements, one hundred and fifty-seven being in the women's division. Much unemployment continues in the larger centers of the province, such as Halifax, Sydney, and New Glasgow. This situation should be materially improved by the end of April, especially if the uncertainties of the coal industry can be cleared away.

There was a general falling off in activity in the lumber camps during the month. The cut this winter will be about fifty per cent. of last. Employment in the mining districts of Cape Breton improved, particularly about Glace Bay. The New Glasgow and Cumberland areas held about the same level as February.

Under manufacturing, leather and goods continued to improve. Iron and steel dropped considerably, principally on account of the large lay off at the Sydney plant of the Dominion Iron and Steel Company. There was little activity under the building and construction groups. No large contracts promised, but general spring construction such as road repairs, civic public works, etc., should be under way by the middle of April. The waterfronts were much better in March than during the previous month. The commencement of the fishing season has tended to brighten things up.

CAPE BRETON MAN BURNED TO DEATH

After rescuing his invalid parents and conveying them to a place of safety, Wallace Stewart, of Big Intervale, Margaree, N. S., Thursday, was trapped and burned to death when he re-entered his blazing dwelling to recover his purse and some money. The fire started in an ash box under a stairway and was not discovered until it had gained great headway. If you are troubled with Lumbago, Rheumatism, Neuritis, etc., T. R. Cs. will positively relieve you, likewise BAZ-MAH for Asthma and Bronchitis. Ask S. N. Wear.

1921 AGRICULTURAL CUSTOMS \$1,917,370

Customs duty collected on agricultural implements during 1921 amounted to \$1,917,370 out of a total duty collection of \$179,667,683. During the same period, duty collected on foodstuffs amounted to \$29,723,468. This information was tabled in the House of Commons Wednesday afternoon in response to a question by J. A. Clark, (Conservative, Burred, B.C.)

CHANGE EPISCOPAL MARRIAGE VOWS

Recognition of the changed status of women by striking from the Episcopal marriage ceremony the promise to obey, and eliminating the compulsory giving in marriage, is proposed by the commission on revision of the book of common prayer, in a report made public.

However, the proposal to change the ceremony also provides for striking out the bridegroom's pledge, "with all my worldly goods I thee endow." The commission's report will be submitted to the triennial general convention to the church at Portland, Ore., next September. Members of the commission hope to see the changes finally ratified at the 1925 convention.

Other proposed changes include enlargement of the catechism and its transformation into a catechetical office of instruction; a form of service for the burial of a child; prayers of permissive use in commemoration of the saints and for the department; and a special form for missionary service. The revision, said a statement issued by the commission, is designed "to adapt and make it more helpful in meeting the religious needs of the people in the life and worship of today."

The commission is under the chairmanship of Rt. Rev. Corland Whitehead, D.D., bishop of Pittsburg. Rev. John W. Suter, D.D., of Boston, is secretary, and Robert H. Gardiner, of Boston, treasurer.

NATIONAL HOSPITAL DAY

The United States Public Health Service found the celebration of National Hospital Day so popular and so generally satisfactory last year that it heartily approves its repetition this year on Friday, May 12th, the anniversary of the birth of Florence Nightingale, founder of modern nursing. On that day the public will be again invited to visit the hospitals in their vicinity as guests and to familiarize themselves with their atmosphere, methods and aims. Surgeon-General Cumming, of the Public Health Service, points out that acquaintance with hospital workings will show, "first, that a hospital is not a place of suffering, sorrow and death, but a place of relief from pain, rejoicing, and restoration to active life. It will show, second, that a hospital is a great human laboratory where disease is studied and where soldiers are trained to save and to prolong life. Anything that forwards such knowledge marks a distinct advance in the war of wars—the war for health and life and against diseases."

The idea seems a most commendable one. Why not a Hospital Day in Nova Scotia to enlist and stimulate popular interest in our institutions for the care of the sick and the distressed? President—M. McDaniel, Vice-President—Miss B. L. Gullivan, Secty.—Treasurer—J. M. Jones, Managing Committee—D. R. Hunter, C. E. Mumford, C. F. Messenger, S. K. Marshall, C. C. Cox. Tea Committee—Mrs. H. W. Kirkpatrick, Mrs. F. B. Armour, Misses M. Mumford, R. Freeman, F. Parsons.

FOREST SOUNDS

Who, in the pines, may hear low voices raised To chant in suppliant tones? They, who, in sorrow's tranquil eyes, have gazed, O'ercome, endured alone.

The joyous whispering of lesser trees Who can interpret this? Awakened souls whose inmost sanctities Know Love's revealing kiss.

And lowly vines, the tender clinging things That dwell amid the sod? For pillow'd ear, a cordill ne'er rings, Unless at peace with God.

—Alma F. McCollum.

OPERA SINGER ROBBED BY GIRLS OF \$45,000

Madame Amelita Galli Curci, opera singer, was robbed at San Juan Capistrano, Cal., Friday, of jewels and valuables which two girls fled with a jewel case that had been left by the singer's maid in a safe restroom. The singer and her party had stopped there for lunch.

THE TORTURE OF INDIGESTION

Thousands Made Miserable By This Trouble

"FRUIT-A-TIVES" Relieves It

What is indigestion and what causes it? As you know, solid food must be changed into a liquid by the stomach before it can be taken up as nourishment by the blood.

The stomach acts as a churn. It is covered by a strong, muscular coat and lined with a soft, delicate membrane which secretes the gastric juice which digests or dissolves solid food.

When food enters the stomach, the muscular coat squeezes and presses the food from end to end, or churns it, with the gastric juice to dissolve or digest it.

But—if the stomach muscles are weak—or if the dissolving fluid is poor or insufficient—then food cannot be digested properly and you have indigestion.

"FRUIT-A-TIVES" is the most wonderful medicine in the world for strengthening the stomach muscles and providing an abundance of pure, full-strength dissolving fluid to completely digest every meal. "FRUIT-A-TIVES" does this because it keeps the kidneys active, the bowels regular and the blood pure, which insures pure Gastric Juice.

"FRUIT-A-TIVES" will correct your indigestion or dyspepsia and enable you to enjoy every meal. Try it.

Do. a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-A-Tives Limited, Ottawa.

TURNING TO THE RIGHT

The announcement that the Provincial Government is taking legislative action to bring Nova Scotia into line with the other provinces of the Dominion in following the "drive to the right" rule of the road, has been widely welcomed throughout the Dominion as well as in the United States. New Brunswick has already enacted permissive legislation to the right as the rule of the road, as soon as the change becomes operative in this province, and when Nova Scotia adopts the "right drive" there will be a uniform rule of the road all over the continent, on the American as well as the Canadian side.

UNSIGHTLY PIMPLES AND FACE ERUPTION

In the Spring Most People Need a Tonic Medicine

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this time. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot get rid of these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, blood-improving, nerve-restoring powers. Every dose of this medicine helps make new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts, give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits and fill your veins with new, health-giving blood.

You can get these Pills from any medicine dealer, or by mail, at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

MUNICIPAL FORESTS

The latest municipality to announce its intention of reforesting a tract of land under the Ontario Government scheme is Ontario County, which is the first county east of York County, of which latter Toronto is the county town. This county extends from Lake Ontario to the south to the southern border of Muskoka district on the north, a distance of about ninety miles. At its last session the County Council decided to take up the reforestation of about 5000 hundred acres situated in the township of Uxbridge.

Grain harvests may be a complete failure one year and be compensated for the next year, but the destruction of a forest area by fire cannot be made good in half a century. Hence no efforts ought to be spared to keep fire out of the forest.

THE JEWETT CAR IS SOUNDLY CONSTRUCTED

Paige officials are receiving many compliments on the high type of construction revealed in the new Jewett light six which has just been introduced locally and is on exhibition in the Paige salesrooms.

The frame construction is unusually sturdy. Four cross members are used in place of the usual three and additional stiffening is given the frame where the rear motor supports are bolted to the frame brackets.

Examination of the driving mechanism back of the 50-horse-power plant also shows how well built the car is throughout. The clutch is a new dry plate design. Power is transmitted to the rear axle through a hollow drive shaft and two all-steel universal joints.

Both front and rear axles of the Jewett are Timken built. Timken roller bearings are used on the front wheel spindles and the weight of the car is carried on ball-truss bearings which makes for easy steering.

The manner in which motorists are taking to the Jewett is indicated in the report from the factory that at the present time orders for the Jewett cars total more than \$6,000,000. Mr. O. C. Jones is distributor for the Jewett & Paige cars for Kings, Annapolis and Digby Counties, and is expecting a shipment of these cars daily. Respective buyers should get in touch with Mr. Jones at once. See ad. in another column.

PRAIRIE FARMERS PLANTING TREES

At many of the gatherings of farmers in the Prairie Provinces during the winter of 1921-22, the subject of soil-drifting was discussed and the remedy most often proposed was that of planting wind-breaks of trees across the path of the prevailing wind.

About sixty million little trees have been sent out from the Dominion Forest Nursery Station at Indian Head since it was established in 1901, and in spite of inevitable losses due to mistakes, accidents, and bad seasons a very large percentage are growing vigorously. Shipments for the season of 1922 will, it is expected, total five million and may run somewhat larger. In addition to preventing soil-drifting, belts of trees shelter the farmhouse and farm buildings and permit the establishment of gardens, where tree and bush fruits and tender vegetables can be grown.

NOTICE OF PARTNERSHIP

We beg to advise the public that Paul W. Longmire will become a partner of the firm of J. H. Longmire & Son from this date.
