and in gathering others from the ways of sin, error, and death, into the number of Christ's true followers.

The annual meeting of the Canadian Inter-Seminary Missionary Alliance, which was to have been held in Montreal last October, was postponed on account of the plague of smallpox in that city. We are glad the convention is to be held next October in the same place, and we sincerely hope it may not be hindered as it was last year. Our society may be called the originator of that alliance, which has for its great aim the "encouragement among students in general, and among theological students in particular,.of an active interest in, and, so far as possible, a consecration to missionary work, both home and foreign." All the students who took part in the first convention held in Toronto, two years ago, remember with feelings of pleasure and thankfulness the good they then received. Our society appointed Mr. John McGillivray to read a paper at the meeting next fall, and no doubt another student at least will be appointed early next session to accompany him as delegates from Knox College.

The Treasurer's Report showed that the funds of the society are in a good state, notwithstanding the debt at the beginning of the session. For this desirable result the thanks of the society are due to the many congregations and Sabbath Schools of our Church that came to our help in time of need.
