THEN AND NOW

Thorloy's Improved Horse & Cattle Food

Was first introduced into this country seme four years ago. At that time merchants would searcely give it storeroom. Officers of agricultural societies would only admit it grudgingly within their grounds, while farmers foured to feed it even as a git. New, some merchants order by the TON. Officers of agricultural societies solicit our favors while the most distinguished breeders and feeders in the Dominion use it freely in fitting their animals in competition for the highest prizes, a necessary result, we believe, of doing an honest business with an honest preparation.

For sale by dealors everywhere.

Is a compound of the virtues of sarsaparilla, stillingia, mandrake, vellow dock, with the iolide of potash and iron, all powerful blood-making, blood-cleansing, and life-sustaining elements. It is the purest, safest, and most effectual alterative available to the public. The sciences of medicine and chemistry have never produced a remedy so potent to cure all diseases resulting from impure blood. It cures Scrofula and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Pimples and Face-grubs, Pustules, Blotches, Bolis, Tumors, Tetter, Humors, Salt Rheum, Scald-head, Riug-worm, Ulcors, Sores, Rheumatism, Mercurial Disease, Neuralgia, Female Weaknesses and Irregularities, Jaundice, Affections of the Liver, Dyspepsia, Emaciation, and General Debility.

By its scarching and cleansing qualities it purges out the foul corruptions which contaminate the blood and cause derangement and decay. It stimulates the vital functions, restores and preserves health, and infuses new life and vigor throughout the whole system. No sufferer from any disease of the blood need despair who will give Ater's Sansararantla. It is folly to experiment with the numerous low-priced mixtures, without medicinal virues, offered as blood-puriers, while disease becomes more firmly tented. Aver's Sansararantla' is a medicine of such concentrated curative power, that it is by far the best, cheapest, and nost reliable blood-putifier known. Physicians know its composition, and orescribe it. It has been widely used for lorty years, and has won the unqualised confidence of millions whom it has benefited.
