tion, I anticipate much advantage to my people. I could, indeed, Shave desired to congratulate you at the present time, on your having been able to meet the wants of the country for practical and effective legislation on the many well known and weighty subjects of high interest to targe portions of the community, some of which I commended to your notice at the opening of the session After recess, you will resume your isbors under circumstances which, I trust, may prov. more favorable to their accomplishment then those of the current year, and I rely with confidence on your energy and wi-dom for the discharge, under the Divine blessing of the arduous responsibilities which must ever attach to the Parliament of my Empire.

Duelin, Nov. 28 .- The funeral of Detective Cox to-day exulted great interest. Traino on the streets was suspended during the passage of the cortege, which included several hundred constables and twenty carriages containing citizens.

It is stated that Field, the juror in the Hynes case, stabbed yesterday, handed a note from the box to Goddard, of Emergency Committee notoriety The comments of the Freeman's Journal on this incident made Field a marked man, although he explained that the wote was of an innocent nature. Field is able to speak this morning, but is still very week.

In the proclamation under the Repression Act, oitizins are informed that the powers granted by the Curiew law will be used only against persons believed to be engaged in criminal designs. It is reported, in consequence of the assault upon Field, who was a member of the jury that convicted Hynes, that special jurors have requested the Government not to call upon them to serve for the present, but to try political prisoners

without juries. Two persons were arrested to-day in connection with the murder of Cox. Both had been arrested under the Corrolon Act in connection with the murder of Kenny in Seville place, but were liberated on the expiration of the Act. One, named Poole, was seen by the police on Saturday night. The other, named Grandy, lives close to the residence of Devine Five prisoners were brought up at the Police Court to day, and the investigation into the murder of Cox resumed. The police attach great importance to the capture.

The meeting of the Privy Council to day was the most protracted held since the Fenian scare in 1867. Earl Spencer, Lord Lieutenant, presided. It was resolved to proclaim the city under the operation of the Ouriew section of the Repression Act, which authorizes the police to arrest all suspicious persons on the streets between the hour after sunset and the hour before sunrise. A proclamation was agreed to, offering a reward of £5,000 for information leading to the apprehension and conviction of Field's assailants, with the usual provisions of pardon and protection to informers.

At the conclusion of the inquest into the musder of Detective Cox, Grandy was released, the remainder of the prisoners remanded. In connection with the stabbing of Field,

it has transpired that the Ladies' League once wished to rent the upper part of Field's premises in Westmoreland street for an office, Tield refused the application, and afterrds let the rooms to Goddard.

LONDON, Nov. 28 .- It is stated that the vioit utterances of Davitt in his speech at 7an on Sunday have been brought under notice of the Government.

mellites will not press for a debate or e report of the committee appointed in Gray's case, as any appearance of attacking the Irish Judicial Bench might be misconstrued.

Egan, treasurer of the late Land League. has gone to Paris, and will shortly return to Ireland to reside there permanently.

LONDON, NOV. 29.—The Times commenting

on the speech of Davitt at Navan on Saturday, says it is inconsistent with a sane Government to allow fanatics, however sincere, to brandish torches in a powder magazine.

Duzzis, Nov. 29.—Poole, arrested in connection with the murder of Detective Cox, stated to-day that he had nothing to do with the murder. He believed the men who as-sembled on Saturday night intended to murder himself. Devine was his enemy. He did not know Dowling. Poole and Devine were committed for trial, and the other prisoners were discharged.

The city presented its usual appearance tonight, notwithstanding the proclamation placing it under the Curiew Law. LONDON, Dec. 1. - Wm. Redmond, whom

the Government intends to prosecute on account of his recent violent speech, is now on the Continent. He is a brother of the member of Parliament for New Boss. Dunus, Dec. 1.—Mr. Dawson has been re-elected Lord Mayor.

Davitt says, not being morally conscious of having broken the law or leading others to break it, he shall remain in Ireland until Monday, when, if not arrested, he intends to proceed to the north of England to lecture. If arrested because of his speech at Navan, when he sulogized the action of the Irish parliamentary party, he will not enter into recognizances for his good behavior, but

compel the Government to prove his guilt in Court and take the consequences. Eighteen persons have been arrested in connection with firing at an agent and police-man in Castleisland last evening.

DULLIS, Dec. 2.—Martin, a compositor, who had been employed in a Government printing office, and who was arrested months gody, has been apprehended on suspicion of month of September last: ago and convicted of the Dorset street trabeing concerned in the murder of Detective

The proclamation of the Lord Lieutenant prohibits a meeting on behalf of the Irish National League at Limerick to-morrow, at

which Davitt was to speak.

The Lord Lieutenant informed the police that application had been made to Parliament for a special grant to them of extra ply, varying according to length of service, for all below the rank of commissioner.

Nearly sixty thousand applications have been received by the Land Commission from persons desirous of taking the benefit of the Arrears of Bent Act.

Dustin, Dec. 3.—Healy was served with a summons last evening to appear at Court on Tuesday and give sureties for good behavior. Four men were arrested here to-day on suspicion of being concerned in the attack on Dennis Field.

Davitt has written to Brennan and Harring: ton, of the National League, stating that as it is evident the Government is endeavoring to hold the Lesgue responsible for words of his which were not representative of the principles of that body, he feels it would only be a plain and obvious duty on his part to resign from the membership of the Executive Committee of the League.

London, Dec. E .- The Committee apcointed by Earl Spencer to regulate emigration, under the emigration clauses of the Land Act, recommends that emigrants be-principally sent to Canada.

Quinn, assistant Secretary of the late Land League, and Davitt, have been served with summonses to appear and enter into recognizances for good behavior. It is expected that Healy will be served with a writ on Mon day. His present place of residence is unknown. The writ against Davitt was founded on his speech at Navan last Tuesday. It was served upon him at the Imperial Hotel after 11 o'clock to night. He is required to appear before the Court of Queen's Beach on Tuesday. Davitt will appear to defend himself in person, not by counsel. He will probably decline to enter into recognizances for good

behavior, preferring to go to prison. Healy only arrived in Dablin at ten o'clock to-night Healy, whom the Government contemplates prosecuting for his speech at Carlow, has gone to Dublin. A later despatch says he has arrived.

C. K. Dec. 4.-Information will be applied f day against Wm. Redmond on account of his seditions speech on November 21st, notwithstanding Redmond's absence on the Continent.

Cork, Dec. 4 .- A warrant has been issued for the arrest of Wm. Bedmond.

(BY MAIL.) At a meeting of the Bruff branch of the National League on Sunday a resolution was adented calling on the farmers to give employment to the laborers during the winter by availing themselves of their borrowing powers under the Land Act. The farmers present promised to act at once upon the resolution.

At the annual meeting of the subscribers to the Cork Chamber of Commerce or Wed esday it was announced that thirty six m mbers had joined the institution du ing the year, and twelve more in the last tottulght, but twenty nine others had withdrawn their support, some of them assigning as the cause for their withdrawal the appointment of Mr. Parnell as President of the association. Mr. Parnell was re-elected president.

A pastoral letter from Cardinal McCabe was read on Sunday in the Catholic Churches of Dublin relative to the Catholic claims on the education question, in which his Eminence stated that it was intended to maintain the Catholic University of Ireland, that a revised programme for examinations in degrees of theology, canon law, and scholastic philosophy was in preparation, and that five of the Bishops had been appointed to watch more immediately over this important work. The staff of the University will also prepare students for other degrees in the Royal Univer-

Yesterday, a seizure under a decree was made at the farm of a man named Lombard, in the county Waterford, and three bailiffs were placed in charge of any of the property which was not removed. At a late hour last night two of the bailiffs reported to the police that during the night they were attacked by a large number of armed men, and obliged to fly for their lives, and that one of their number, named Cunningham, was missing, and was probably shot or carried off by the armed band. On the police proceeding to the place they found that the only person injured was The News understands that owing to the use of Lombard, who had got a reverousent condition of affairs in Dublin, the wound on the head. It transpired that on Lombard returning, and finding the bailiffs in possession, he tried to induce them to leave or turn them out of the house, when a scuff ; ensued, and Mrs. Lembard on going to separate the combatants, received a blow of a shovel from one of the bailiffs named Cunningham. The police made inquiries about Cunningham, and he was found safely at home and uninjured. He has been arrested and detained until further inquiries have been made.

CHARGE AGAINST A WARDMASTER OF THE CORE UNION. -Oa Monday Dr. Brodle, Local Government Board Inspector, held a sworn inquiry at the Cork Workhouse into certain charges made against John Fenton, Wardmaster at the Workhouse, by a pauper inmate named Jeremiah Mahony. The nature of the charges are that Mr. Fenton was in the habit of giving the clothing of dead paupers to Mahony to sell, the proceeds of which, the latter alleged, Mr. Fenton applied to his own use, allowing him (Mahony) a small per centage on the sales. The inquiry had not concluded on Monday, and it was resumed and terminated on Tuesday, and the evidence as taken will be forwarded to the Local Government Board for their consideration.

CANADA AND FREE CANALS.

The adoption at the late election of the amendmend to the constitution making the Erie Canal free has, it seems, excited an in-tense commotion in Canada. The Dominion has a magnificent system of canals, and her enterprise in this respect cannot be too highly commended. The Welland Canal is one of the finest works of the kind in the world. Our northern neighbors, according to the latest despatches, are alarmed at our new canal policy. They foresee in it a large loss of trade to themselves and the disap pointment of some of their cherished ideas with respect to commercial supremacy. As a measure of preservation, therefore, the demand is made on the Dominion Covernment tnat our own enlightened policy shall be followed and the Canadian -anais all made free No better evidence cor, an given of the AMO INO EO ! wisdom of abolishing the is thus furgreat waterway than that w\_ \* sporthern nished by our keen and enterp competitors for the carrying great grain producing region sde of the -New York Herald

The Philadelphia Inquirer remarks:— Canadians, as well as New Yorkers, are takes strong ground in their favor. It will be difficult to meet the competion of the Eile canal unless the tolls are abolished. The Advocates of free capals are opposed to occupy the same footing. The arguments brought into play before the desired object can be secured. Those who hold that government subsidies are sometimes justifiable may con sistently advocate such action as the Montres! Council is trying to effect; but it is the height of absurdity for a man to hurrah for free canals and then denounce railroad land grants in unpressured terms."

UNREASON DLE EXPECTATIONS are often entertained respecting me licines of real merit. Sufferers from complaints of long standing, anticipating and being disappointed in obtaining immediate relief from some remedy which, if persisted in, would eventually cure them, precipitately abandon it. This is unfair and absurd We would urge, in their own interest, upon those troubled with affections of the throat and lungs who resort to Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, that they give this sterling and proven remedy a fair trist. In obstinate cases this is particularly desirable, and though instances are not wanting in which it has overcome a severe cough wite assonishing rapidity, it would be ucreasedable to expect such a result in every case. Use it for asthma, bronchitis, irritation of the throat and lungs. Solu b. all druggists. Prepared by Northeor & Lyman, Toronto.

the attention of the wholesale boot and shoe tiade just now, to the exclusion of all other topics. The lasters having been all discharged the fitters and cutters were not required, and all the factories in the city closed down, throwing out of employment about 5 000 hands at the worst time of the year for the operatives and the best for the manufacturers. So iar the business of the season has been a most satisfactory one, as regards volume and remittances.
Manufacturers have also been well satisfied with the amount of spring orders already received, and apart from the unfortunate labor troubles, the boot and shoe trade of this city was never in a better position than at the present time.
