# THE PREACEBB AND THE SERMON.

Bishop McQuaid selected his text from the fifth chapter of St. Paul to the Thessalonians, which he supplemented with other verses from St. Paul to the Corinthians, all dealing with the formation, character and order of the Church. The Bishop preached from notes, and at certain portions of his discourse was very impressive. The whole ser-mon dealt with the character of the Gatholic Church, its needs, the neces-sity for the prelates and clergy of the Ohurch to meet from time to time in gouncil, the vared questions of the day veoouncil, the vexed questions of the day re-garding education, divorce, the abuse of liberty, the relations of the laity to the clergy bishops only meet, as they did yesterday, in the library at the Cardinal's residence on Tuesday and Friday at ten a.m., the Cardinal, in each instance, opening the session and presiding over its deliberations, as also over those of the general congregations. The committees of theologians will again meet at the Fermile October Asylum on Tuesday and and their participation in Ohristian workthus giving an outline in advance of the main questions that are expected to occupy the at-tention of the Connoil. He referred to the condition of the Church in the early days when St. Paul wrote The faithful hed even when St. Paul wrote. The faithful had even then their difficulties and troubler, and found the Female Orphan Asylum on Tuesday and Friday at four p.m. The master of ceremonies to the Council is the Rev. John M. Farley, secretary to Oardinel McCloskey. He is assisted by the Rev. Charles E. McDonnell, D. D., and Rev. then their childraftes and founds, and found it necessary to meet in conclave to consider the questions that came up. And so, at the bidding of the venerable prelate who pre-sided over the Council, His Eminence the Michael J. Lavelle, of St. Patrick's Cathedral. The cantors are the Revs. John J. Kean, John Cardinal, the bishops of the province of New York had assembled there with the duly appointed theologians and officials to consider questions of grave importance.

#### A RETROSPECT.

The preacher glanced at the history of the country and recalled the marvellous growth of the Catholic Church here. Within the lifetime of the Cardinal, he said, the State of New York had within its borders no Catholic New York had within its borders no Catholio bishops whatever and only a few scattered priests and Oatholics. When Catholics were so few and far between, when no diocesos exfsted, there was no reason and no call for councils. But to-day this country had eight millions of Catholics, with over seventy bishops and more than thirtsen hunbishops and more than thirden hun-dred priests, with religious orders and educational establishments in abund-ance. The Ohurch had met with losses also. Many had unfortunately, for one reason or another, been lost to the faith. It was necessary to guard against such losses and to preserve to the faith, as well, the off-spring of the Catholic parents here and the thousands of Catholics who were annually pcured upon these shores. So there was every reason for those who had the charge and guidance of souls to mest and consider such things-how the faith was to be preserved and how it was to be propagated. Never was there a time when greater care and watchfulness were needed; never was there a time when falser ideas regarding truth and morals were abread. "Liberty," for instance, was a word that had come to be seriously misapplied, the true meaning of which was often ill understood, as well as that of the words "fraternity" and "cquality." The true liberty was the liberty of Uhrist, and His the true fraternity. There were false ideas abroad, too, about the marriage tie. Divorce was very prevalent, and was becoming more and more common, especially in this country. It was becoming a great public danger. There were also other important social ques-tions worthy of careful consideration and regarding which there was some uncertainty in the public mind.

Matters of ecclesiastical discipline werenext considered by the preacher, who reviewed the relations of the bishops to the priests and of the prises to the bishops; also those of the laity to the Church. The share of the lai-g in the working of the Church was of vast importance, and was becoming more important, every day. Without the generous and intel-ligent cc-operation of the laity the bishops and priests could do but little for the advancement and development of the Church and not in a material sense alone, but by their counsel as well as their good works

WEEKLY BEVIEW - WHOLESALE MARKETS.

For the week under review a very fair distribution of staple goods has taken place and payments are slightly better. Buyers, particularly of dry goode, are wisely cautious about purchasing much in excess of current needs. The only event of any moment is failure of Vineberg Bros., of Cornwall, who are offering their Montreal creditors 350 on the dollar, 250 cash, and 100 on time. Their Habilities are \$22,000 and assets \$12,000. They claim that their difficulties have been brought about by losses in Manitobs, but some of their creditors in this city are very incredulous on that point. Advices from Winnipeg received by merchants here during the past week report a healthier feeling in trade circles generally, and it is hoped that the crisis there is over. Furriers are very busy manufacturing for the coming season's requirements, and a good trade is being done

in hats and caps. IRON AND HARDWARE .- The pig iron market is still characterized by a limited amount of business, the only sales we hear of during the week aggregating 600 tone, No 1 Eglinton selling at \$18 25 to 18 50, No 1 Garisherrie, Summerice and Calder at \$20 25 to 20 50, No Summersee and Calder at \$20 25 to 20 30, Re 1 Coltness and Langloan at \$21 50, Siemens at \$20 50 to 21 00 and Dalwellington at \$18 75. Warrants are cabled 463 33, and Glasgow freights are firm at 123 63, with an upward tendency. Canada platesars in good demand at \$3 10 for Penn and equal, at which figures some heavy sales have gone through. Bar iron remains steady at \$1 90. On the whole trade and remittances are good. A fair volume of business is reported in general hardware, although at low prices. Out nails are quoted steady at \$3 per keg for 3 inch and upwards ot four monthe, and 100 off for net cash. Window glass steady at \$1,85 for

ply being scarcely equal to the demand, the product being taken as fast as it can be turned out by the refinerles. Granulated is quoted firm at 840 to 84c, off brands at 850. Yellows are quoted at 630 to 74c, as to quality. The advance on the week has been fully 10 on whites and on yellows 30. There has also been a good business in molasses, Barbadoes having changed hands at 46c to 461c, Porto Bico at 44c to 441c, and Trinidad at 40c to 410. Syrups have met with an active call at of the new fruits. A few small parcels of Valencia raisins has been sold, but at prioss

Dry ood have been sold at \$5 50 to 5 75, and salmon at \$20, \$19 and \$18 for Nos. 1, 2 and 3. New scaled herring are easier at 270 to 30c. Wool. —A few small sales of greasy Cape have been made at 170 to 1850 on spot, and

we hear of one large parcel being placed to arrive at within range of quotations which we quote as follows :--Greasy Cape, 171c to 191c; Australian, 220 to 300; Canada pulled supers A, 30c to 320; do B, 24c to 26c; black

small sales reported of new crop at 25c. Old crop is quoted at 20c to 23c.

#### LOCAL COMMERCIAL-Oct. 2.

The grain trade is very dull. Wheat on spot and to arrive is too high to ship and too dear to grind at the present price of flour. We understand one of the large mills in Ontario is about to shut down owing to the impossibility of paying the high price of wheat demanded by farmers, as they cannot grind American wheat. It would be a great pity, if on this account the Canadian flour market was supplied by American brands. The only business reported in grain was the sale of a cargo of corn at about 61c. A barge load of new peas has arrived for shipment. We of new peas has arrived for sniphent. We quote prices nominally as follows: - Canada red winter wheat \$121 to \$122; do white winter \$116 to 118; do spring \$117 to 119; Toledo red winter, in bonds, \$111 to 118; Detroit white winter No 2, \$109 to 110; Chicago and Milwaukes spring, \$1 08 to 1 09. Corn 61c to 6110; peas 950 to 9610; oats 330 to 350; rye 6710 to 700; barley nominal. In flour there was nothing new, and the feeling was somewhat easier, although not quotably lower. A sale of 500 bbls superior was mentioned at \$5 30 in bond. Oatmeal was quiet at \$5 20 to 5 40, and commeal at \$3 40 to 3 60. Butter-Beveral orders for choice creamery have been received at good prices. Nice fresh stock is not very plentiful, and is readily taken by the jobbing trade. Prices are very steadily held. We quote:--Orea-mery choice 22c to 23c; do fair to good 19c first break. GROCKEISS.—The enquiry for refined sugars is as brisk as ever, and the market has bord-ered on a little excitement, owing to the sup-br being sciencify could be demand the Cheese-The market is stronger and about to higher on account of the further advance in Liverpool, but the volume of business is

light. We quote August make loc to 10 to and September 10 to 11 to for fine to finest. The public cable was 1s 6d higher at 55s, and Beerbohm quoted 54s. Eggs—The demand has not shown any increase of volume from any direction, but owing to the very limited amount of supply available the market is stronger and higher, up to 220 having been paid for strictly fresh stock. We quote 21c to 22c per dozen. Ashes-The tone of the market continues dull as holders persist in asking higher figures than will be paid. The stock in Liverpool is heavy, considerably in excess of last year at this date. We quote pots \$4 60 to \$4 70 ss to tares.

The Bishop closed a discourse that was listened to with marked attention by prelates, clergy and people, by asking the prayers of the faithful for wisdom to guide the deliberations of the Council.

#### THE COUNCIL ORGANIZED.

The sermon ended, Vicar General Quinn ascended the pulpit and announced to the congregation that after some preliminary prayers and ceremonies the Council would be formally opened. Those who chose to witness the opening ceremonies might remain. Very many chose to remain and passed up toward the altar, filling the spaces left vacant by those who chose to depart. The digni-taries and officials of the Council then prepared for the opening of the sezsion. When all were ready an antiphon was sion. When all ware ready an antiphon was sung by the chancel choir, "Exaudi Nos Domine" ("Hear Us, O Lord!") This was followed by the reading of the Carcinal's allocution invoking the blessing of the Holy Spirit on the Council. The allocution was followed by a prayer. Then all knelt during the chanting of the "Litany of the Saints." The Oardinal, seated at the altar and vested in cope and mitre, holding his orozier in his hand, arose and intrcduced into the Litany a special verse, praying God "to visit, dispose and bless the present Synod." "Te Rogamus audi Nos" ("We beseech thes to hear us ") pealed back in answer from the choir. A remarkable picture was that which appeared at this point. The Oardinal in his glittering robes of cloth of gold sat in front of the high altar, facing the body of the church. To his right sat of the Council, with the silent crowd looking on behind. A second allocation succeeded the prayer, and document followed document, all being recited in the Latin tongue. The New Orleans, La.; and he can be fully satis-"Litany of the Saints" was followed by a fied of its exact truth. prayer, and a special gospel was read by the deacon, Father McGean.

#### THE FORMAL OPENING.

There has been no change in the condition of the market since our last report. Mr. Kimball, of the Montreal Horse Erchange, reports the following sales :- Three pairs of horses at \$1,240; and one pair black Weigh ponies (mares) at \$250; for export to the States. A very nice lot of Shetland and other ponies will be offered for sale on the 10th inst. at the Exchange. Mr. Dawes' purchase, mentioned in our issue of the 28th, was one 2 year old Olydesdale mare at \$720, not a pair, as previously stated, and the horse costing \$3,000 in Scotland was a 2, not a 12 years old. At Ooliege streat the market continues about the same. Mr. Maguire reports that there is a good demand for heavy horses for shantying purposes; this class is at present scarce. He reports the following sales :- One grey horse, at \$125; one grey mare, at \$65; one bay horse at \$110; one do do at \$30; one brown horse at \$180; and one ohestnut horse, 15.1, 7 years old, weighing 1,100 lbs. at \$310.
