

THE NORTHWEST WAR

Winnipeg, Man., May 6.—A despatch from Saskatchewan, dated May 5, says that the Indians, who were the cause of the trouble, have been completely defeated...

Arthur Dobbs, of the Battleford Rifles, who was killed, was about forty-four years of age. He came from Prince Albert last year and had been employed as cook in the industrial school. He leaves a wife and two children.

Corporal Sleight, mounted policeman, was one of the men who escaped from Fort Pitt. He was about 27 years of age.

Private Rogers, of Ottawa sharpshooters, is not Lieut. Maynard Rogers, of the 43rd Battalion, attached to the Guards provisionally, but another Rogers of Ottawa.

Lieut. Pelletier of B Battery, reported wounded in Sunday's engagement, is a son of Senator Pelletier, of Quebec. He is a Laval student and adjutant of the 9th Battalion and attached to B Battery.

Private Ogilvie, of the Guards, was a son of Mrs. Ogilvie, salesman at McLaren's mill, New Edinburgh.

Private Winters, who was wounded, belonged to the G.G.F.G., and was in the Marine and Fisheries Department. He was at Tel-el-Kehir in the Egyptian war.

McQuilkin, also wounded, was an employe of the Department of the Interior.

Color-Sergt. Cooper of the Queen's Own, wounded, was prominently known in athletic circles at Toronto, being one of the best amateur boxers in Canada.

Private Wats was a bookkeeper for the Queen City Fire Insurance company at Toronto; he has a brother a private in the 80th of Winnipeg.

Private Geo. E. Lloyd, of the Queen's Own, wounded, was a divinity student at Wytheville college here. He came from Brighton, Eng., about three years ago, being a native of that place.

Sir John Macdonald (later) said: I have received the following despatch from Colonel Herchmer. As is natural it speaks more particularly of his own corps.

No answer has been made to Gen. Middleton's proclamation, sent out on the 3rd inst., by the captured Sioux scout. It reads as follows:—"These half-breeds who have been forced to join the rebels, also those mistaken Indians who have joined voluntarily, are informed by this that if they give up at once and return to their homes and reserves they will be protected and pardoned."

At half-past twelve this morning orders were received by Lieut. Col. Bond, calling out his regiment for active service in the Northwest. Late as was the hour the work of warning the sergeants to summon the men was commenced, and many of them were called on. The regiment, it is understood, will parade at their armory at noon to-day.

WALKER, Ont., May 11.—The 32nd, Bruce, Battalion, under Lieut.-Col. Cooper, received orders to-night to go to the Northwest immediately.

THE ALGHAN DISPUTE

London, May 7.—The opinion is gaining ground here and in Europe that the government arrangement is a complete surrender to Russia of all the points she has demanded. The probability of a defeat for the government is talked of. It is rumored the Indian departments here have been ordered to cease war preparations.

New York, May 9.—A despatch received on Wall street from London to-night says: Arbitration in the Anglo-Russian difficulties had been abandoned and a disruption of the Gladstone ministry was probable. A London cable despatch says: The Anglo-Russian situation continues to be enveloped in a cloud of uncertainty. It is absolutely impossible to predict what a day may bring forth.

"MONTH OF THE SACRED HEART," by the Rev. Bro. Hugnet. Publishers: Benziger Bros., New York.

This admirable little book has run through sixteen editions in France, and has been translated into several languages, but not until now has it appeared in English. Its publication is timely for the coming month of June, consecrated to the Sacred Heart. It contains a meditation for every day of the month, followed by a practical example illustrating some passage in the life of a saint or other servants of God, with a practice and an ejaculation. There is also a meditation for the Feast of the Sacred Heart; prayers for Mass and for Holy Communion; a Novena, a Litany, etc., and as the book is arranged for thirty-one days, it can also be appropriately used for the month of July, which is consecrated to the Precious Blood. The book is marked by the spirit of fervent piety which distinguishes all the works of its author, and which once known will no doubt become as popular here as it is in Europe.

BENZIGER BROS., of NEW YORK, announce that they have succeeded in getting the Rev. Louis A. Lambert, author of "Notes on Ingersoll," to undertake the work of writing "An Explanation of the Catechism of Christian Doctrine," ordered by the Third Plenary Council of Baltimore. In its preparation he will use Dr. Jacob Schmitt's Explanation of the Catechism, and other similar standard works.

The Catholic World for May contains "Coincidence of Theistic, Christian and Catholic Analytics," by Rev. A. F. Hewitt, a very able article; "The Moral Side of the Tenement House Problem," by Charles F. Wingate; "Some Heroes of Charles Dickens," by R. M. Johnston; "Stray Leaves from English History—The True Story of the Assassinations of Rizzio," by S. Herbert Burke; "Common Sense vs. Skepticism—Revelation," by A. F. Marshall; "Etienne Brule," by William Teton; "A Talk with Contributors"; "Solitary Island, Part III"; "Saint Agnes, a recent Irish Novel"; "The Half-Breed Revolt in Canada," &c. We hope that this publication receives the support which its great merits deserve. Price, \$4 per annum; single copies, 25 cts. D. & J. Sillier & Co., Notre Dame streets, Montreal.

THE AMERICAN CATHOLIC QUARTERLY REVIEW—April. A large and select number of valuable papers are contributed to the April issue of this standard periodical by eminent and distinguished writers. The opening paper is on "The Catholic Church and Civilization," and is contributed by Right Rev. John Walsh, D.D., taking as his text the Ecceyclical letter Humanum Genus of Our Holy Father the Pope. This is followed by a carefully written essay on the "Literary and Scientific Habits of Thought," by Brother Azarias; Mr. D. O'Sullivan (of Toronto) writes of "The Treaty of Paris, 1763, and the Catholics in the American Colonies, a subject of much interest and importance to Canadian Catholics; Mr. E. Meade Esche answers the question, "What is the Motive Power of Man?" Mr. Bryan J. Clinch tells of the First Century of Religious Persecution in Ireland; an article on "Freedom of Worship in the United States," is written by Rev. Aug. J. Thebaud, S. J., which is rendered especially interesting by reason of the present widespread agitation of the same question. Mr. John Gilmary Shea has a paper on the proposed Catholic University, and F. B. Wegg Prosser, on Theism and the Visible Universe; a long paper is devoted to St. Charles Borromeo and his biographers. The Review's department of book notices is, as usual, carefully arranged. Publishers: Hardy & Mahony, 505 Chestnut street, Philadelphia, U. S.

SAVING THE LAWYERS. "The first thing we do, let's kill the lawyers." This is rather a blood-thirsty proposition, which we mostly by offering to them the whist club of people who do not suffer (in common with nearly all others of sedentary habits), from the injurious effects of dyspepsia, indigestion, piles, loss of appetite and other ailments caused by a constipated habit of body. Dr. Pierce's "Pleasant Purgative Pellets" eradicate all these disorders in promptly removing the cause thereof, and induce a rare degree of comfort and health.

YOU HAVE BRIGHT'S DISEASE OF THE KIDNEYS. The above symptoms are not developed in any order but appear, disappear and reappear until the disease gradually gets a firm grasp on the constitution, the kidney poisoned blood breaks down the nervous system, and finally pneumonia, diabetes, bloodlessness, heart disease, apoplexy, paralysis or convulsions ensue and then death is inevitable. This fatal disease is not a rare one—it is an every-day disorder, and claims more victims than any other complaint. It must be treated in time or it will gain the mastery. Don't say that it is a trifling ailment, for thousands of cases of the worst type, and it will cure you if you will use it promptly and as directed. It is the only specific for the universal

BRIGHT'S DISEASE. DRIFT OF DOMESTIC TRADE. Weekly Review of Wholesale Markets.

Considerable orders have been looked for shipment to the interior by boat, and now, as the steamships are entering harbor, a little business may be looked for. BOORS AND SHOES.—The sorting trade has been fair up to the present; but it is about finished. Many of the houses are now busy on fall samples. DRIED PRODUCE AND PROVISIONS.—As usual at this season business is confined to jobbing lots. New butter has been coming in in larger quantities. Rolls in barrels and boxes sold at 13 to 15; old butter is dull at 7 to 10; new 15 to 18 per lb. CHEESE.—There is not much of the new make here as yet, and no large transactions are reported. We quote new on spot at 9 to 10, and old at 5c. Eggs.—The receipts are ample, and we quote them dull at 13 to 13c. PROVISIONS.—Extra prime pork in bond sold at \$9.60 to \$10, and the course of prices have been downwards. The city jobbing trade was fair at prices quoted. DRY GOODS.—The trade has been interfered with, but merchants are hopeful of a good trade during the balance of the month. Some of the wholesale people are receiving small but fairly satisfactory sorting orders from the country. Remittances have slightly improved. The re-opening of navigation and the drying up of the roadways in the country is expected to have a beneficial effect. FURS.—The raw fur trade of Canada has never been in such a depressed condition, and there seems little likelihood of an improvement. Dealers are handling the goods with extreme caution. The manufacturing trade is about on a par with last year, sales that have been made to date, giving as much satisfaction as usual. The following are city quotations for prime skins:—Beaver per lb, fall \$2, winter \$2.50, spring \$3; bear, per skin, \$7 to \$10; lemur, fur, per skin, \$5 to \$7.50; fisher, per skin, \$2 to \$5; fox, red, per skin, \$80; fox, cross, per skin, \$2 to \$3.50; lynx, per skin, \$1.75 to \$2.50; marten, per skin, 60c to 80c; mink, per skin, large dark, 50c; small 25c; muskrat, per skin, fall 5c, winter 8c, spring 12c; otter, per skin, \$6 to \$9; raccoon 25c, 40c and 70c; skunk, per skin 15c, 25c and 50c. Skins not prime 25 to 30 per cent less. FLOUR AND GRAIN.—The tendency this week was towards lower prices, but although holders reduced their figures about 2c, buyers were indifferent and lacked courage. Among the few odd sales which came to light here were 10,000 bushels of peas at \$4c. Considerable graded Canadian barley has sold in New York at 75c to 82c. In our fair but not large business has been done. Prices are down 15c to 20c from the highest point touched. Round lots of 500 to 1,000 barrels of superior have been offered at \$5, without drawing a satisfactory bid. GREEN FRUIT, MAPLE PRODUCTS, &c.—Business is improving, and prices are steady to firm. Valencia sold at \$7.50 to \$8 per case. Lemons in boxes \$3.50 to \$4. Bananas were plentiful; we quote \$2.50 per bunch. Pineapples \$2.75 to \$3.25 per dozen. Sound Canadian apples were quoted at \$3.50 to \$4 per bbl. Dates, 5c to 6c; skins 4c. Cocoa nuts \$5 per 100. Maple syrup sold at 70c per small tin and sugar at 8c to 9c per lb. HINES AND TALLOW.—There were no new features this week. Sheepskins 70c to 90c; clips 25c; lambskins 25c and calveskins 12c. Tallow is quiet at 3 1/2 to 4c for rough and 6 1/2 to 7 1/2c for rendered. CIGARETTES.—Leading houses report symptoms of improvement, and enquiries for goods are on the increase. In tea some little excitement was worked up, so far as known transactions this week reached 800 to 1,000 pkgs. Sugar.—The market has continued firm and the demand for low grades has been satisfactory. Syrups in poor demand. Molasses dull. Barbadoes in large lots can be bought at 23c; small lots 30 to 32c. Rice is steady and unchanged. Talmage, writing of the American market, says:—"Prices are well maintained. Rice is to-day 1/2c lower than last year, equal date—with less than one-half the supply ahead." Fruit, spices, nuts, etc., are dull and unchanged. Coffee—According to cables received, the last auction sale in Amsterdam went off well; full values were obtained and a good feeling prevailed. IRON AND HARDWARE.—On account of the freight market being unsettled, business suffers considerably, as arrangements for prices of pig iron have not changed. Business here has been confined to small quantities. In hardware business is quiet; prices of shelf goods are low, holders continuing to sell close, with little margin of profit. Canada plates have sold in round lots for future delivery at \$2.70. LEATHER.—Business has been more active since the turn of the month. The demand has run on light upper and splits. Fine light splits are scarce; other lines in full supply. Prices are generally steady.

THE TORONTO WHOLESALE MARKETS. The commercial situation remains unchanged. Nearly all branches of business are

LOCAL CATTLE MARKETS. The market this morning had a large and choice supply of animals. Mr. Taillefer especially had a very choice lot of heifers which he sold immediately after coming on the market. All round, the cattle for the most part were a choice lot, but, as usual, the constant supply of striplings could be had. Calves were in good demand; sheep were scarce, but the number were sufficient to ease the demand. The enquiry for striplings was small. The receipts amounted to about 378 head of cattle, 50 sheep and lambs and 500 calves. Prices ranging for cattle on the hoof from 3 1/2 to 5c for medium and 5c for the choicest; sheep 3 1/2 to 5c per lb; calves sold from \$2 to \$3 for common and \$9 to \$12 for choice.

LOCAL RETAIL PUBLIC MARKETS. The market all round has made an attempt to regain some of its former activity. Now, as the country roads are in a little better condition, the farmers take the advantage to get into the city. A very large outside business was doing this morning, especially in fresh meats, of which the farmers have a constant supply. In the fruit market business is a little better and prices firm. We quote: Apples, \$2.50 to \$4 per bbl; oranges, Jamaica, per bbl, \$8 to \$9; do Florida, box, \$5 to \$7.50; Valencia, case, \$7 to \$7.50; lemons, case, \$6 to \$6.50; do box, \$3.50 to \$4; bananas, bunch, \$2 to \$3; pineapples, 25 to 50c each; cranberries, 80c to \$1 per gal; strawberries, per quart, 30c. The vegetable market is very brisk; prices have had no alteration. Our quotations are:—Potatoes, 45c to 50c per bag; cabbage, 30c to 40c; lettuce 60c to \$1.20; red cabbage, 75c; celery, 75c to \$1; Spanish onion, 60c; radishes, 70c per dozen; carrots, 60c; turnips, 50c; onions, 75c; beans, 60c; parsnips, 75c; spinach, \$1.50; sweet potatoes, \$2.50 per bushel; new cabbage, 25c; horseradish, 10c to 20c; cucumbers, 20c; parsley, 5c to 10c; mint 5c to 10c; rhubarb, 12c to 20c; asparagus, 40c to 50c per bunch; tomatoes, box, \$1 to \$1.50; green peas, peck, 60c. In the meat market a small but continual business is transacted. There is a good demand for choice fresh meats; prices are unchanged. Poultry and game are having a fair demand at unchanged prices.

ASK A PROFESSOR of any Medical College, what on the who e is the best remedy for kidney difficulties, and his answer will be—the newest and best Diuretic. Ask him, what is the best remedy for a Torpid and liver troubles, and he will name the newest and best Alterative known and used by the Faculty. Ask him again, what, on the whole, is the safest, surest and best remedy for Stomachic and Bowel complaints, and he will mention the most approved Tonic and Laxative known to the Profession. Kidney Wort is a combination of these scientifically prepared, and never fails to do its work successfully on any of above diseases, come they in single file or in battalion.
