1. The Township Treasurer.

2. The by-law passed by the council should provide for the levy and collection of a special rate over and above all other rates in the township, to meet the payment of the school debentures. This rate should be entered on the collector's roll to be prepared by him each year during the currency of the debentures against each lot and part of lot in the school section. This special rate should be collected by the collector and paid over to the township treasurer, at the same time and in the same manner as ordinary taxes. The debentures are to be paid by the treasurer, and the the treasurer of the school section has nothing to do with the disbursement of these moneys.

REEVE—A township council passes a by-law under section 53 (2) of the Assessment Act. Now, where no day shall have been appointed for the payment of taxes before the 14th December? Will the 14th be the day appointed for the payment of taxes? or, in other words, can the collector force the payment of taxes before the 14th December? Prior to 14th December, the statutory

Prior to 14th December, the statutory date, the collector can enforce payment of taxes and after that date he can enforce payment of taxes and per centage. Fourteen days notice is necessary, except in case of emergency. See sec. 124 Assessment Act, sub-sec. 2.

A new scheme of city government is under the consideration of the civic authorities in Winnipeg, Man. It is proposed to elect only one alderman from each ward instead of two as at present, and to form an executive body of three other citizens, who shall be mayor, chairman of the finance committee and chairman of the board of works, and who shall be paid and have full control, subject only to the dictation of the council when two-thirds of the council deem interference necessary.
