(3) The Mine Awareness and Clearance Training Plan (MACTP) for the training of Afghan refugees in Pakistan, 1989, falls outside the current definition of peacekeeping as used in this *Guide*. It is a humanitarian relief assistance programme. The Canadian contribution to the MACTP ended in July 1990.

(4) Following the termination of UNGOMAP's mandate on 15 March 1990, the UN Secretary-General established OSGAP which includes a small Military Planning Unit to assist the Secretary-General's Representative in his efforts to bring about a political settlement. It is, however, not considered a peacekeeping mission by definition.
