Top-Co is the largest Canadian designer and manufacturer of casing accessories for cementing operations. Operating for over 30 years Top-Co sells its products throughout Canada and has been exporting its equipment since 1979.

Top-Co supplies many of the largest oil and gas companies in Canada, including Shell Canada Resources, Esso Resources and Mobil. As well, Top-Co has built solid customer relations with a number of overseas companies which operate in Russia, Middle East, S.E. Asia, Africa and Asian sub continent.

Top-Co designs and produces specialized equipment for highly deviated and horizontal wells and equipment for use with PDC bits. Products are manufactured in casing sizes 4 1/2" through 30".

Top-Co is an API Licensee under Spec 10D for casing centralizers. Complete quality control of design, product testing and product manufacturing is per the requirements of API Quality program Q-1. Float equipment is tested per the requirements of API Recommended Practice RP10F.

Mr. Albert Hennessey
President
