8. What effect will the enforcement of these Acts and regulations have on importers and exporters and business generally?

Return tabled.

Mr. Cossitt: Mr. Speaker, I rise on a point of order with regard to question No. 534 which was placed on the order paper 58 days ago and which asks for details of LIP projects known as research anti-poverty and project Aldergrove, and more specifically for details of investigations conducted by the RCMP. I understand that the results of such investigations have been on the minister's desk for some weeks, and I believe therefore that this question could be answered, including the involvement in these projects of a certain Michael Carson and also certain alleged unaccounted for expenditures of public funds with regard to these projects. I would like to know if the parliamentary secretary could undertake to assure me that this question will be answered as soon as possible.
