

In reply to your letter of the 9th of February I am asking the Registrar to send you an Announcement of the Faculty of Arts and Science and application forms. If you will complete and return the latter to him with a certified copy of your college record, he will be pleased to let you know exactly what standing you could be given here and advise you concerning your admission to Medicine in 1939.

I should like to congratulate you upon your success in the ~~pre~~-medical aptitude test and hope it may be possible for you to transfer here for the remainder of your university work.

With best wishes,

Yours sincerely,
