

not equal to his opportunities, it is such as no other existing publication will fully afford.

McKenzie's *Voyages* give some account of a considerable part of the country which is here described. His residence in it, however, was much shorter than that of the authour of this work, and his personal acquaintance with the different parts of it, was much more limited. It is not intended, by this remark, to detract from the reputation, which that respectable traveller and his work, have deservedly gained. By his toilsome and dangerous voyage to the North Sea, and by leading the way, through the Rocky Mountain, to the Pacific Ocean, he has richly merited the commendation which he has received. By comparing the following work with that of McKenzie, it will appear, that, though the geographical details are less minute, the country surveyed, if we except the voyage to the North Sea, which is wholly out of the sphere of this publication, is considerably more extensive; and the information, in regard to the inhabitants, is much more particular. Considerable additions are here made, to the existing stock of geographical information, particularly as it respects the
