

## PREFACE TO THE SECOND EDITION.

---

It is less than three months since the first edition of "The Sportsman's Paradise" was issued from the press, but the reading public has so kindly received the *menu* which we had prepared that it is already necessary to replenish the stock. It is scarcely requisite in this connection to express our sense of gratitude, which so naturally arises from the flattering reception given to this book, since the same would be unquestionably understood although not expressed in words. It is now more confidently believed by the author than ever before that many readers "find more pleasure in the perusal of books truthfully delineating the excitement of the chase than in reading those of fiction."

B. A. WATSON.

JERSEY CITY, N. J., February 23, 1888.
