work of the department.

The special report on the theatres particularly emphasizes the great and cutstanding weakness of the city hall officials, in not carrying out the law or the special bylaws passed for their guidance and for the safety of the public.

The officials should understand the cost of living reduced and a genuine back-to-the-land movement initiated.

Two general lines of legislation are recommended. First, to provide for land mortgages or long time credits, and second, to provide for personal or short time credit to the agricultural population. To meet the demand for long time mortgages the control of the cost of living reduced and a genuine back-to-the-land movement initiated.

Two general lines of legislation are recommended. First, to provide for land movement of living reduced and a genuine back-to-the-land movement initiated.

Two general lines of legislation are recommended. First, to provide for land movement initiated.

The officials should understand that they are not on their defence unless they place themselves on defence. If they begin to defend the vicination of the city bylaws they originate the provisions of the recently add insuit to injury. If, on the other hand, they take the sensible course of showing the weakness and inability of the departments to grapple with particular situations, and point out methods of improvement, remedies may be found, and weaknesses may be strengthened. It is not to be tolerated. However, that the laws of the citizens be told that the officials should not be criticized. It is altogether beside the mark for Messrs, Price and Thompson to suggest that the report prepared by the civic survey committee was: "gotten up by some person" formerly attached to the police department in some large city in the United States." Whether the report is true, There are no denials. There may be expansions, but the public will not accept palliations.

The World has no hostility toward the civic officials—none whatever. We have the greatest possible sympathy with them in a constantly difficult possition. But we think that a should boosile of the possition of the bank. State laws are provided for the state and and the public will not accept possible sympathy with them in a constantly difficult possition. But we think that a hould defend the possition of the bank. State laws are mand and mechanic. that they are not on their defence un-

have the greatest possible sympathy with them in a constantly difficult position. But we think they should welcome any help that would make the greatest possible sympathy patrons of the bank. State laws are also advised for the establishment of rural credit unions in small communities to accommodate the farmer with the fulfilment of their duties easier, and closer to the highest standard possible, rather than object to such assistance. We have, as we have said, called attention repeatedly to lapses in the carrying out of the regulations. We have pointed out, for instance, that an oath is taken in the assessmen department to assess all property at full value, and that the department actually boasts that it does not as-sess at more than 70 per cent. of full value on the average. There is here evidently no attempt to carry out the

After the Iroquois disaster, and fre our places of amusement. If there were an Iroquois disaster in Toronto be approached as to the possibility of a concert being given in tonight, as there might readily be, the fire department would be indicted for neglects of duty and culpability in not having the hydrogeness. having the bylaws observed. The civic

The report cannot be shelved by a dispute over a photograph of a dray gladly. No doubt many of our officers would support such a in a lane. Everybody knows the condition of the theatres, and everybody knows that the fire department is responsible for failure to observe the bylaws, and everybody knows that in case of disaster the department would be guilty of manslaughter.

one theatre, according to the report, is properly equipped. It is the duty of the fire department to see that the others are brought up to the standard required by law. There is no hardship involved in this. Toronto is regarded as the best "show" city on the continent. It will be all the better when the houses are so equipped that it will not be necessary to buy an inticket.

Emergency exits are the most pressing necessity and Messrs. Thompson and Price state that they intend to give instructions for additional fire escapes "in at least two cases." There cught to be emergency exits in all theatres, and they ought to be in use after every performance so as to familiarize audiences with them. It should not be forgotten that the whole question is one of life and death.

THE BOARD OF TRADE ELEC-

On Monday the board of trade will elect its council. The occasion is be-ing taken advantage of by The Telegram and the anti-public ownership interests to campaign against Mayor Hocken and his proposal to purchase the street railway if the electors wish the screet ranway if the electors wish to do so on terms to be submitted to them. There are 23 candidates. Of these 12 are marked as opposed to purchase, seven as undecided, and four in favor of purchase. The four who have had the temerity to invite the wrath had the temerity to invite the wrath of The Telegram are Messrs. J. E. Atkinson, Hugh Blain, Charles McD. Hay and John Turnbull, Mr. Hay has chairman of the membership mittee and worked hard in getting the new quarters and establishing the number club, and Mr. Turnbull has iso assisted in this. Mr. Blain is an ember of the council, and should not be opposed on grounds that do not touch his value to the board of trade as a member. The Telegram is, of course, working hard to defeat Mr. Atkinson, and would hail his defeat with

as they state, because they wish to represent The Telegram, for no doubt they feel that it is not very creditable to be championed by the civic buily, but because they wish to participate in the arrangements to be made for 1917, which must be taken in hand this year. It would be most unusual if Col. Brock, the immediate past president, were left off the council, and we can scarcely believe that the board of trade is made up of the type of men so dear is made up of the type of men so dear to The Telegram's heart, which hates everybody and everything with which t disagrees in the slightest particu-

Whatever board of trade men may Whatever board of trade men may think of public ownership, they will not forget that the question is to be judged—not pre-judged—on its merfits. The agreement will very soon be before them, and business men are not likely to stultify thmselves by passing a verdict on a document they have not seen, which must soon come under their consideration, and which in any case will meet its fate at the hands of the electors.

RED HERRINGS OUT OF PLACE
HERE.

For several years The World has sought to call attention to the facts which have been brought out by the civic survey in connection with the fire department. It is a matter of regret that some of the officials have taken the view that any personal feeling is involved in the reports made. Mr. Driscoll, for example, spoke in the highest terms of Fire-Chief Thompson, and attributed any laxity that existed in the department to the overloading of the chief with more work than any man could attend to, and to the absence of system in carrying out the work of the department.

The appecial report on the theatres particularly emphasizes the great and outstanding weakness of the city hall officials, in not carrying out the law of the members of his cabinet immediately interested by STATES.

President Wilson and the members of his cabinet immediately interested by STATES.

President Wilson and the members of his cabinet immediately interested have, it is understood, approved of the report and recommendations of the commission appointed to investigate and study rural credits and agriculture co-operative organizations in European countries. Legislation in attributed any laxity that existed in the helphase it is understood, approved of the capartment.

The application of the capartment to the overloading of the chief with more work than any man could attend to, and to the absence of system in carrying out the work of the department.

The special report on the theatres particularly emphasizes the great and outstanding weakness of the city hall officials, in not carrying out the law of the members of the country of the country in the commission appointed to investigate and study rural credits and agriculture and co-operative organizations in European countries. Legislation in attributed of the banking and current of the same and current of the country is agricultural resources will be secured, the cost of living reduced and a genuine back-to-the-land movement initiated.

NEED BUREAU FOR NEWS DISTRIBUTION

Publicity Department Would Do Much to Attract Industries and Money.

The need for a civic publicity department is felt so generally among the members of the city council that Mayor Hocken is considering the advisability of having the matter discussed in the board of control in the near future. near future.
Under present conditions Assess

Under present conditions Assessment Commissioner Forman has thrust upon him the responsibility for dealing with applications for sites for factories and for information relative to the advantages of Toronto for manufacturing industries of all sorts. He has cheerfully undertaken the extra work, but he has enough to do already with his assessment department.

ment.

Those who are pressing most strongly for a civic publicity department are contending that Canada's great export of foodstuffs is bringing into the country a steady and large supply of gold, and this gold is and will be available for developing the manufacturing possibilities of the country. To get a full share of the manufacturing industries Toronto requires a publicity department equipped in every way to get results.

WILL PASS BYLAW TO **CLOSE STATION STREET**

Board of Control Hear Deputation of Interested Property Owners.

The Station street problem was tackled by the board of control yesterday, and a deputation of interested property-owners took part. All are convinced that the street should not be permanently closed thru the construction of the viaduct and the new Union Station. It was decided to page a bytion of the viaduct and the new Union Station. It was decided to pass a bylaw to close the street, and thus leave the railways no reason for delay in commencing construction of the viaduct. The board will also unite with the property-owners in appealing to the Dominion Railway Board to order that Station street be not permanently closed.

A Russell motor ambulance, costing \$4500, was ordered for the department of health.

PUGWASH HAS BRIGHT FUTURE.

(Special Correspondent.)
PUGWASH, N. S., Jan. 15.—Pugwash station is one of considerable importance for a small town, judging from the following shipments of the

ducts.

The construction of the special line from the main line to the clay works was, of course, the big thing of the year, employing a large number of men and distributing \$50,000 of good money. The spur line is 1 1-8 miles in length, leaving the main line of the I C. R., about one mile from the station, crossing the river to the clay works. This will be of great convenience to shippers, especially from the west side. It is expected that next year the harbor will be dredged, allowing the entrance of larger steamers. Pugwash is not worrying about the future.

Through Pullman Sleeping Car to Ottawa Via Grand Trunk Railway. The Grand Trunk Railway System operate a through electric lighted Pullman sleeping car to Ottawa, leaving Toronto 10.45 p.m. dally and Ottawa 6.55 p.m. daily for Toronto.
