quieter than for a long time past, at still close upon the best prices. Contracts for the fall makes are understood to have been entered into at 10½ and 11c, and some factories are believed to have refused the higher figure. It will be seen, therefore, that both shippers and makers have no little confidence in the stability of present range of value, the ordinary improvement for fall makes being admitted. We learn of sale to-day, 200 boxes, 10¼c. These should be halcyon days for our dairymen when, with an extraordinarily large make, good prices, 75 per cent. at least better than those of last year, can be realized, and, whatever the close of the season may show, it would seem no very serious mistake could be made in letting buyers take the risk and have the profits from this out. The *Commercial Bulletin* of Wednesday reports: "Receipts to-day, 20,242 pkgs. The market is in more positive shape to-day, and shows considerable strength all round, with more or less inclination to a further upward turn. The advices from the country have been stimulating, and on this the position is stiffened, especially as it is understood that Utica and Little Falls, notwithstanding the rates obtained, were about the lowest in the State this week, other sections looking for and obtaining higher figures, and in several cases refusing to sell stock where buyers failed to bid up," and gives the following table. The receipts and exports of cheese since May 1st (the beginning of the trade year) compare as follows:

	Receipts, Pkgs.	Exports, Pounds.
Past week..................	134,288	7,562,769
Same week, 1879.........	119,996	6,412 266
Since May 1, 1880........	1,016,230	51,371,924
Same time last year...:.	887,989	47,110,834

Pork.—The week has witnessed a lively advance of $1.00 to $1.50 per barrel, fairly sustained, although some reaction from the highest point has taken place. The movement finds its centre in Chicago, of course, where a spirited speculative movement has been set in motion by extraordinary consumption. The market is in an unsettled and somewhat excited state, and rapid fluctuations would occasion no surprise.

Wines and Liquors.—Buyers are holding off, and wholesalers complain of dulness. The trade still talks wine gallon measure to a great extent, and negotiations are made on that basis only, to be changed into imperial measure upon making out bills by adding one-fifth to the stipulated price. If a party buys liquor at $1.00 per gallon wine measure, he is billed for it at $1.20 per imperial gallon, which is the same thing. We understand that some confusion has taken place owing to the use of the two measures; the simple rule is, add one-fifth to wine measure to make it imperial, and deduct one-sixth from imperial to make it wine.

Wool.—In foreign wool there is a further improvement in feeling unattended by change in price. The business doing is of the lightest descriptions, manufacturers yet holding aloof from the market. Greasy cape is quoted 19c to 20c, with the temper of the market favorable to the higher figure; with any encouragement from the American market, such as is now counted upon with some confidence, holders will undoubtedly ask better prices. Domestic fleece is still marketing slowly at about 30c; dealers are glad to get it at this figure, but cannot be induced to give anything more. Buyers for the manufacturers have not yet appeared here, but may be expected at any moment. Some inquiry on American account is reported from Western points, but no specific dealings are advised.

TORONTO MARKETS.

Toronto, July 29th, 1880.

Market inactive and the turn easier. Flour quiet, still Superior Extra would bring $1.35 to $1.40 and Spring Extra $5.25. Wheat inactive and nominally unchanged at $1.16 to $1.17 for No. 2 Spring. Oats firm with 37c paid yesterday afternoon, and 38 cents bid to-day. Barley and Peas nominal.
