W. MANN & CO'S

Bicycles

A SUPERB

...1895 LINE

Sterling (Built Like a Watch)

J. W. Stuart, of the Stuart Cycle Supply Co., of Toronto, writes us:— We are informed that you have been appointed Ontario Representatives for the STERLING for 1895. We must congratulate you on having secured one of the nicest and most reliable wheels made. The writer, whose experience in this line of business has extended nearly ten years in Toronto, visited many of the U. S. factories this fall, and was MOST favorably impressed with the STERLING.

Imperial

Jim Ferguson says:— There is not a Bicycle made which is better than the IMPERIAL.

Sam Stevely says:— I consider the IMPERIAL the best wheel for all round work there is. I have ridden mine all summer and am more than satisfied with it.

William Eacrett (Bicycle repairer, East London), says:— I have examined almost all of the bicycles sold in the city, and I prefer the IMPERIAL to any of them—in fact, I think it is the best wheel that has ever come into the city at any price.

H. M. Vincent says:— I have ridden my IMPERIAL all summer, and have not yet had a break or repair. I like the best, regardless of cost, and the IMPERIAL is good enough for me.

THESE FELLOWS KNOW A THING OR TOO ABOUT WHEELS.

Rambler

RAMBLERS are known all over the world where bicycles are ridden. They are built different from any other wheel, their greatest peculiarity being their easy running qualities. They respond so quickly to the pressure on the pedals, as to appear to shoot forward before the pressure is made.
