sions declined slightly.

Wheat started lower in sympathy with declines in the northwest, and showed anything but recuperative powers. September closed 14-8c down, at \$93-8c, and December 11-8 to 11-4c, depressed at 94c to 941-8c. The cash situation was not encouraging to the bulls, only 50,000 bushels sold to-day. There was some support for December 12-8c but it was soon withdrawn. Calat 95c, but it was soon withdrawn. Calgary wired that while grain is very green from Calgary to Medicine Hat it was expected the crop would pull thru. A well-known traveling expert sent word from Winnipeg that threshing returns would show a heavy discount from early promises, but he was disregarded. GRAIN AND PRODUCE.

from early promises, but he was disregarded.

Corn closed at the low point, but considering the recent advances, the price concessions were not large. The market started with a show off firmness on cash demand locally and for export. Longs seized the opportunity to take profits and prices receded in sympathy with wheat. December sold between 63c and 63 1-8c and 62 3-8c, and closed at 62 1-2c. Cash sales, including 200,000 bushels not reported vesterday, aggregated 500,000 bushels. A full average crop is promised for Ohio and Indiana, according to an investigator, and harvesting is expected to begin the middle of next month.

Cash oats were in fair demand, but the market for futures, after early firmness, followed wheat and corn. Some of the local professionals, discouraged at market conditions in general, liquidated September, the stuff going mostly to the weaker longs. December sold between 45 5-3c and 45c.

Provisions opened firm, but the advance brought out lard, and the tone turned weak. January pork closed 71-2c lower, at \$16.32 1-2; January lard, unchanged, at \$9.12 1-2; and January ribs 21-2c down, at \$3.37 1-2.

reports did not change greatly to-day.

Temperatures over the Canadian Northwest were reported rising. A number of points in that quarter had a touch of frost again last night, but on the whole the feeling seemed to be a little less alarming in regard to the outcome of the late portions of the Canadian crop.

Finley Barrell wired:

Wheat—Lack of public interest and liuqidation by holders who had become an only tired but disgusted at the rail-flo, ure of the market to show more response to the Canadian news, was the overage as compiled from individual returns made by farmers to the Ontario Bureau of Industries, and the yields as estimated by a large and t Finley Barrell wired:
Wheat-Lack of public interest and liuqidation by holders who had become not only tired but disgusted at the iallure of the market to show more response to the Canadian news, was the overshadowing feature in the trade to-day. While there was considerable short profit taking indulged in, the buying power at no time was sufficient to absorb the scattered offerings, which constantly poured into the pli from all directions. Statistics, both foreign and domestic, were bullish, and Canadian advices pessimistic, but this was completely overshadowed by the weakness in Winnipeg, rather indifferent cash demand, and fears of heavy deliveries on September contracts. Action of market in the face of the news demonstrates that until trade broadens market will be influenced more by pit than commercial developments. FRUIT MARKET. Montreal Provision Market.

MONTREAL, Aug. 29.—There continues to be a fair demand from European sources for new crop spring wheat, and the prices bid showed an advance of 1½c per quarter, but even at this gise exporters could not do any business. However, at the decline in prices in Winnipeg sales of several loads of old wheat were made. The foreign demand for oats is also good, but the bids are 1½c per bushel out of line. The local market for oats is strong, and prices have advanced '¼c to ½c per bushel. The demand is good, and sales of several round lots were made. American No. 2 yellow corn has advanced '¼c to ½c per bushel. The demand for spring wheat flour is very good, and sales during the past two days amount to 75,000 sacks. The local trade also is fairl yactive.

CARS ON HARBORD-STREET

Street Railway Makes Start on Operating New Line.

The new Harbord-street extension of the Toronto Railway lines was operated ay set of the first time. The service was begun quite early in the day and proceeded very satisfactorily. Under the ner order of things the Bloor line is divided, some of the cars taking the Harbord tracks, from Spadina to Ossington, both ways, and then going on to the regular route. Several additional cars will be placed on both routes, so that the Bloor services will be much improved by the changes.

The Bloor-street line has now become a rather complicated affair. In addition to the two aforementioned routes, so some of the Bloor cars run between 7.36 a.m. to 8 a.m. along Bloor to Yonge
