Wealthy Soap Maker Murdered.

LYNN, Mass., April 12.—George E. Marsh, the wealthy president of the George E. Marsh Soap Manufacturing Co., whose body, incriminated by five steel pointed bullets, was found lying on the rocky embankment of the Point of Pines-boulevard to-day, was murdered while riding in an automobile, according to the theory adopted by the police to-night.

Mr. Marsh was 71 years old, and in feeble health.

Skin-Tortured Little Ones

Mother! Are your little ones suffering from itching, burning eczema, or other torturing, disfiguring skin troubles? Are you, yourself, worn out with long, sleepless nights and ceaseless anxiety in caring for them? Then you should know that, in most cases, a warm bath with

Cuticura Soap

and a gentle application of Cuticura Ointment bring immediate relief, the little sufferers sleep, tired, fretted mothers rest, and peace falls on distracted households.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, please to "Cuticura," Dept. 234, Boston, receive a liberal sample of each, with \$2.00, book on the skin and scalp, and treatment of their affections.

The Nursery

Answers to Correspondents.

I have heard so much of the trouble caused by adenoids in children that I would like to know if I can take any precaution to prevent my baby girl having them.

Do not allow your baby to use a pacifier or to suck her fingers. Watch that she breathes thru her nose, and clean the nostrils daily. Keep her surrounded by fresh air, day and night.

My baby is fat and chafes easily, can you tell me what to do?—Mrs. H. M.

Dry your baby carefully after the bath and when you change him. Dust powder in all creases of the skin, and if the skin becomes inflamed rub it gently with a little melted mutton tallow.

Please tell me if a baby should sleep by himself from the very first. I am told that a little baby needs the warmth from his mother.—Mrs. E. Guelph.

A young baby should have his own bed from the very first. If the weather is cold, the water bag may be put in his basket. Always have the bedding before putting a tiny baby down, and keep the basket clean and sweet.

Outfit for the toilet basket.—Mrs. J. P. M. Hamilton.

There are many styles of basket, the best is a plain close, white, oblong in shape. Pad the bottom with sheet-wadding. Cover with lining or saten. Lather it like, and over this place a sheet muslin. Lather the sides in the same way. A trimming around the edge is very pretty but not sanitary. Keep all baby things plain. Make little pockets gathered on a hoop of wire for three corners, and put a small pin cushion in the fourth. Keep the absorbent cotton, vaseline, safety pins and articles needed when dressing the baby in the basket. His diapers may be folded and kept on top of it, and the many forms kept covered with a clean white cloth.

NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves.

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neurasthenia, St. Vitus' dance, epilepsy and other forms of nerve troubles are at their other time; that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening, which purgatives do not give. They purges, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact, they up-bring new health and strength to weak, tired and depressed men, women and children.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LOCAL WOMAN GETS DIVORCE

Mrs. J. S. Anderson Obtains Decree From Her Husband, Who Was a Toronto Insurance Manager.

Mrs. Agnes Ritchie Anderson has returned to Toronto from New York after securing a decree of absolute divorce from her husband, John Scott Anderson, who was manager of a life insurance company here nine years ago. For the past four years the couple have been separated, and Mrs. Anderson has been living in Niagara Falls with her three daughters, Louise, Beatrice and Nancy.

According to the recommendation of Referee Ingraham, who filed a report a short time ago, in the county clerk's office, New York, Anderson must pay his wife \$125 a month alimony, and Mrs. Anderson will have the custody of the three children. Anderson's conduct furnished the evidence upon which the referee granted the decree.

The Andersons were married in Belleville, Ont., in 1898. The husband is now an insurance manager at 149 Broadway, New York. Mrs. Anderson intends to settle here.

TO MAKE SOUP.

A good soup, slipped slowly, aids digestion and because of its nourishment is an important part of the dinner.

Waters in which vegetables are boiled contain a goodly quantity of flavin, and some mineral matter. Use them in place of plain water for soups. For instance, to boil rice properly one must use sufficient boiling water to wash the grains apart and keep them dry. The motion of the water and a large enough pot are absolutely necessary to give a perfectly dry white grain. This water when strained from the rice is rich in starch and should not be wasted. While this cannot be used for clear stock it may be added to the ordinary scraps and bones for a vegetable soup, and is far more delicate than the ordinary vegetable soup. For instance, for cream of chicken or oyster soup.

The water in which turnips, cabbage and cauliflower are boiled makes an excellent foundation for vegetable soup, or soup Creole, a soup made from ground carrots and cabbage water with a little ham or bacon. Use onion water for vegetable soup without meat. Do not use potato water; it is not so good. To my way of thinking it is most extravagant to use a housewife's water for soups. The water in which vegetables are boiled is a most valuable asset. The vegetable water, cold water, or water from a vegetable soup, is a most valuable asset. The vegetable water, cold water, or water from a vegetable soup, is a most valuable asset.

BETTER THAN SPANKING.

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box 57, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her to-day if night, however, were more engrossed in what, of music, came expressed from her violin by her expert fingers rather than in any of her other apparent qualities, and in so far as the readiness, in soup-making we want the flavoring in the water, hence we use cold water in stews or boiled meats we always begin with boiling water. Bring the soup slowly to boiling point, and push the kettle to the back of the stove, or use a simmering burner of a gas stove and cook slowly at 180 degrees Fahrenheit for three hours. Lift the lid, skim and add a whole carrot, a turnip, a few green celery-tops or a tablespoonful of celery-seed, a large spoonful of salt, a bay leaf and a large onion with twelve cloves stuck in it. Cover the kettle and simmer gently for another hour; add a tablespoonful of caramel or kitchen bouquet, and strain.

A few words of caution. Simmer, do not boil the soup. Ten minutes' rapid boiling will cloud a kettleful of beautiful soup. Do not add the vegetables until the last hour. The delicate flavors of both meats and vegetables are

MISS PARLOW'S RECITAL

It has nothing at all to do with her program that Miss Kathleen Parlow is a very gracious personality, and it advantages her nothing, artistically, to say so. Well, I'll say it nonetheless. She just is. Those who heard her last night, however, were more engrossed in what, of music, came expressed from her violin by her expert fingers rather than in any of her other apparent qualities, and in so far as the readiness, in soup-making we want the flavoring in the water, hence we use cold water in stews or boiled meats we always begin with boiling water. A RELIABLE MEDICINE FOR YOUNG CHILDREN

Baby's Own Tablets are a safe medicine for all little ones. They are guaranteed by a government analyst to be absolutely free from opiates and other harmful drugs—that is why so many mothers will give their baby nothing else in the way of medicine. Concerning them Mrs. John Thompson, Cottage Alta, says: "I have given my baby when needed, Baby's Own Tablets and think they are the best remedy for constipation I have ever used. I would not let them get into the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.
