Not Be Penalized. Latter to Get Fair Treatment.

KAISER'S GUILT

Would Be Shame, Says Lloyd George, if Those Who Brought on War Should Escape.

London, Dec. 5.-In the detailed reatement of his policy, issued by Preer Lloyd George today, the premier, fter paying a warm tribute to the soland sailors of the empire, said ! "The kaiser must be prosecuted. The was a frightful, terrible crime. It

war was a frightful, terrible crime. It was a crime in the way in which it was planned and in the deliberate wantonness with which it was provoked. It was also a crime in the invasion of a helpless little state, and in the wicked and most brutal treatment of that little state. Remember the treaty of neutrality, the crap of paper.

"Surely, the war was a crime. The fact that all these iniquitous things were done in the name of war and under the imperial edict of an autocrat, does not change their nature. The war was a hideous, abominable crime, which has sent millions of the best young men of Europe to death and mutilation and has plunged myriads of homes into desolation. Is no one responsible? Is no one to be called to account? Is there to be no punisment. Sirrely, that is neither God's justice, nor man's. The men responsible for this outrage on the human race must not be let off because their heads were crowned when they perpetrated the deed.

heads were crowned when they perpetrated the deed.

Must Be Brought to Trial.

"The British Government referred the question of the criminal culpability of the kaiser and his accomplices to their law officers some washes are "Than the complex of the kaiser and his accomplices to their law officers some weeks ago. They invited a body of jurists in England to investigate the matter, and they have manimously come to the conclusion that the kaiser and his accomplices in the making of this war ought to be tried by an international court. They also reported strongly in favor of the punishment of those guilty of murder on the high seas and the abominable ill-treatment of prisoners. The British Government will use its whole influence at the peace conference to see that justice is executed. "After what has happened in the last four or five years, it is impossible to entertain in our midst a population of which a considerable portion abused our nospitality. This has been demonstrated by evidence impossible to ignore. They spied and plotted and assisted Germany in forming plans for the destruction of a country which offered them hospitality. They thus have forfeited any claim to

in forming plans for the destruction of a country which offered them hospitality. They thus have forfeited any claim to remain.

Keep Out Aliens.

"Further, it would lead to inevitable irritation and disturbance if Germans who have been fighting us for four years came here to take the bread out of the mouths of the men whom they for four years sought to destroy, and, much as 1 respect that it is impossible to have free intercourse between all nations. I hold we are up against the events of the last few, years, for which Germany alone is responsible, and she must abide the consequences. All the European allies have accepted the principle that the central powers must pay the cost of the war up to the limt of their capacity. The allies propose to appoint a committee of experts to examine the best method of exacting the indemnity."

said one step was needed for success and that was confidence. "All classes must give confidence to those who have brains. I say to labor: 'You shall have fustice. You shall have equal opportunities with the children of the rich.' To capital I say: 'You shall not be plundered and penalized. Do your duty by those who work for you, and your future is free for all the enterprise or audacity you can give us.' But there must be cound tustice, and labor must have happiness in its heart. We will tolerate no swearing, and laoor must have its just reward. Bolshevism is the poison of production. Russia proves that. Russia will not begin the building-up of a productive system until Bolshevism has worked itself out."

Mr. Lloyd George, in his statement, describes the extensive provisions the government proposes for discharging its obligations to the gallant soldiers and sailors alike, to the fallen, the crippled and others. He deals also with the housing and other problems connected with post-war reconstruction and the development of electrical power.

No Definite Time Set for **Ending U. S. Munition Contracts**

Ottawa, Dec. 6.-Sir Joseph Flarelle, chairman of the imperial muni-tions board, stated this morning that no definite time had been set winding up contracts which winding up contracts which the United States Government has placed with Canadian munitions manufacturers. There was, he said, no stipu lated time for ceasing the manufacture of munitions for the United States but this business would all probably be wound up by the end of this month. The imperial munitions The imperial munitions board has nothing to do with these contracts, as it merely acted as agent for the United States Government in placing the work with Canadian the work with Canadian anufacturers. on board, including naval contractors and men from the yard where she had been built. The order was given to submerge and she had descended just beneath the surface when waters began to pour into her aft and she descended stern down to a depth of fifteen fathoms. An inspection showed that the ventilating shaft had been left open and 13 persons in the rear of the vessel were immediately drowned. The fore part was shut off and the 42 persons who were there were saved. How their rescue was accomplished was sensational. A few hours had passed before divers were sent down on what they considered a forlorn hope so far as bringing any one up alive was concerned. Getting to the bottom, they discovered that the stern of the vessel was embedded in many feet of mud. Knocking at the hull they were amazed to hear responsive tapping.

Almost Impossible Task.

Then Captain Goodhart attempted a task which reads like a tale from Jules Verne. The high pressure bottles were brought into use and the captain undertook, with their aid, to be projected thru the conning tower and shot into the water with the hope of reaching the surface and giving information regarding those below. He was shot forward, but his head struck a beam and he was instantly killed. Another officer volunteered and was fortunate enough to reach the surface and give information about the condition of others below. Rescuers inserted thru a water flap, a flexible hose thru which air. food and chocolates were passed. The entombed men asked, by means of morse signaling, for playing cards 'to beguile the tedium of waiting," as one of them said. Strong wires were put around the vessel and the air bottles utilized to blow out the oil fuel stowed forward, which enabled the vessel to drive upward at high speed until her bow was well above the water in a perpendicular position.

Immediately a big hele was made in her by acetylene burners and the 42

Immediately a big hele was made in her by acetylene burners and the 42 men brought out and conveyed to an infirmary. They had been below 24 hours when Captain Goodhart made his ill-fated attempt and altogether the party was down 57 hours before being saved.

Captain Goodhart was posthumously awarded the Victoria Cross.

Split Allies at Peace Table Germany's Last Hope

Germany's well-known cleverness has worked out a grand plan that causes her to look forward to the future with confidence. She hopes to achieve at the Peace Conference what four years of the sword have not been able to get for her. Secrecy being essential, the whole scheme with typical Teuton finesse is loudly trumpeted through the German press and proclaimed from the rostrum, so that if we are not warned at least it is not their fault. It seems as usual that Germany is staking her all on one throw of the dice and this time the little game is to cause dissension among the Allies at the Peace Table, and particularly between America and Britain.

In THE LITERARY DIGEST this week-December 7th-there is a very striking article consisting of translations from the German press showing how Germany hopes to gain big advantages when America and the Entente "start to squabble among themselves."

Your Best Way to Follow the Work of the Peace Conference

The eyes and hopes of the entire world are today centred upon Paris, whither the delegates of the various nations are journeying to the Peace Conference which is to remold Europe and decide, perhaps for centuries to come, the destinies of our planet. The news that comes forth to the waiting millions from the historic halls of Versailles will be in many ways the most important ever published in its far-reaching effect upon humanity at large.

This news will be reported fully and impartially from week to week by THE LITERARY DIGEST, with the views of noted authorities of all shades of opinion, so that the readers of the world's greatest news-weekly may have the best possible opportunity of forming accurate judgments as to the decisions handed down.
