COAL MINING IS PROFITABLE

Would you like to become rich and independent? Of course you would. We would all like to become wealthy if we can make the money honestly. We offer you an investment in

COAL

that will make you rich in a few years, if you put a few hundred dollars in the proposition now.

We offer for public subscription One Hundred Thousand Shares (100,000) of the treasury stock of the BRITISH COLUMBIA AMALGAMATED COAL COMPANY.

The Canadian Pacific Railroad and the V. V. & E. R. (Great Northern) are now building their lines into this new coal field, and the Canadian Pacific has already constructed and completed a line from Spence's Bridge, a station on Thompson River, to Nicola Lake, a distance of 50 miles, and the Great Northern Road is expected to reach Cold Water basin by Christmas.

The quality is the best known west of the Mississippi River. It is a high-class bituminous coal, unexcelled for steam, blacksmithing, domestic and smelters' coke.

The 17,000 acres of Coal Land controlled by this Company should contain, according to coal experts' reports and estimates, approximately four hundred years by taking out 10,000 tons per day.

Call early or write and we will put you next. Do not delay - do it now. Representatives wanted.

Perfect Manhood

Health of body, strength of mind, steadiness of nerves are the best and most precious gifts man can lay upon the altar of his conjugal love. Restoring sexual system, and infuse into it, power and vigor. No such thing as failure in life, is possible in perfect manhood; it is the lack of vital force, and the depletion of sexual energies that makes failures of men. Restorine awakens a man to a sense of restored vitality and power. Why be weak when you can so easily become strong? Profits are the test. Sworn testimonials sent to any one on receipt of name. Five Days' Trial Testimonial sent absolutely free. Write To-Day. (11)

Dr. Kohr Medicine Co. P.O. Drawer W 2241 Montreal.

COBALT

Cobalt is the richest silver-field in the world. Experts say so, and smelter returns prove it. Cobalt stocks have already paid dividends of from 12 to 1,350 per cent.

This is but the beginning - for millions of dollars of high-grade ore is being prepared for shipment - and future dividends.

And the ground has only been scratched, so far. New discoveries are being made weekly and the district widening out. Now is the time to get in - before time lessens the best opportunities for big profits.

I was one of the first mining men in Cobalt, and have an intimate and practical knowledge of the district.

This has helped me to secure opportunities for investment that have already brought my connections hundreds per cent profit. May I count you among them?

Write or call to-day, if interested. Now is the time to act. My booklet and weekly news-letter furnish full and up-to-date information. They are free.
