BULL TRADING STARTED IN MINING STOCKS

Market Became More Active, With Several Standard Issued Advanced.

About a year ago the big bull market in the mining stocks broke out, and the appearance of the market yesterday led brokers to express the opinion that history is going to repeat itself. For a long time now there has not been a bull market in the general list.

There has at times been big trading in two or three issues at one time, but advances have not been general. In short the public has not really entered the market to the extent that occurred last fall.

Yesterday, however, buying became more general and the increase in activity was accompanied by advancing prices in several of the active issues. As usually occurs at the inception of a bull market the gold stocks occupied the spotlight. McIntyre, Newry, Teck-Hughes, McIntyre Extension, West Dome, were all actively traded in and in every case higher prices were reached.

There was a meeting of the directors of the McIntyre at which the amalgamation had been put through. The McIntyre Extension was taken over by the McIntyre, and the stock of the company, which had been the only one to decline yesterday, rose 2 1/2 points to 107 1/2.

The stock of the company, which had been the only one to decline yesterday, rose 2 1/2 points to 107 1/2. The stock of the company, which had been the only one to decline yesterday, rose 2 1/2 points to 107 1/2.
